Note 1 Identification and Activities of the Company and Subsidiaries

1.1 Historical background

Sociedad Química y Minera de Chile S.A. (the “Company” or “SQM”) is an open stock corporation organized under the laws of the Republic of Chile and its Chilean Tax Identification Number is 93.007.000-9.

The Company was incorporated through a public deed dated June 17, 1968 by the public notary of Santiago Mr. Sergio Rodríguez Garcés. Its existence was approved by Decree No. 1,164 of June 22, 1968 of the Ministry of Finance, and it was registered on June 29, 1968 in the Registry of Commerce of Santiago, on page 4,537 No. 1,992. SQM’s headquarters are located at El Trovador 4285, Floor 6, Las Condes, Santiago, Chile, The Company’s telephone number is +(56 2) 2425-2000.

The Company is registered in the CMF under number 184 of March 18, 1983 and is therefore subject to oversight by that entity.

1.2 Main domicile where the Company performs its production activities

The Company’s main domiciles are: Calle Dos Sur plot No. 5 - Antofagasta; Arturo Prat 1060 - Tocopilla; Administration Building w/n - Maria Elena; Administration Building w/n Pedro de Valdivia - María Elena, Anibal Pinto 3228 - Antofagasta, Kilometer 1378 Ruta 5 Norte Highway - Antofagasta, Coya Sur Plant w/n - Maria Elena, kilometer 1760 Ruta 5 Norte Highway - Pozo Almonte, Salar de Atacama (Atacama Saltpeter deposit) potassium chloride plant w/n - San Pedro de Atacama, potassium sulfate plant at Salar de Atacama w/n – San Pedro de Atacama, Minsal Mining Camp w/n CL Plant CL, Potassium– San Pedro de Atacama, formerly the Iris Saltpeter office w/n, Commune of Pozo Almonte, Iquique; Level 1; 225 Dt Georges Tce Perth WA 6000, Australia.

1.3 Codes of main activities

The codes of the main activities as established by the CMF, as follows:

- 1700 (Mining)
- 2200 (Chemical products)
- 1300 (Investment)

1.4 Description of the nature of operations and main activities

The products of the Company are mainly derived from mineral deposits found in northern Chile where mining takes place and caliche and brine deposits are processed.

(a) **Specialty plant nutrition:** Four main types of specialty plant nutrients are produced: potassium nitrate, sodium nitrate, sodium potassium nitrate and specialty blends. In addition, other specialty fertilizers are sold including third party products.

(b) **Iodine:** The Company produces iodine and iodine derivatives, which are used in a wide range of medical, pharmaceutical, agricultural and industrial applications, including x-ray contrast media, polarizing films for LCD and LED, antiseptics, biocides and disinfectants, in the synthesis of pharmaceuticals, electronics, pigments and dye components.

(c) **Lithium:** The Company produces lithium carbonate, which is used in a variety of applications, including electrochemical materials for batteries, frits for the ceramic and enamel industries, and it is an important ingredient in the manufacture of gunpowder, heat-resistant glass (ceramic glass), air conditioning chemicals, continuous casting powder for steel extrusion, primary aluminum smelting process, pharmaceuticals and lithium derivatives. We are also a leading supplier of lithium hydroxide, which is primarily used as an input for the lubricating greases industry and for certain cathodes for batteries.

(d) **Industrial chemicals:** The Company produces three industrial chemicals: sodium nitrate, potassium nitrate and potassium chloride. Sodium nitrate is used primarily in the production of glass, explosives, and metal treatment. Potassium nitrate is used in the manufacturing of specialty glass, and it is also an

important raw material to produce of frits for the ceramics and enamel industries. Solar salts, a combination of potassium nitrate and sodium nitrate, are used as a thermal storage medium in concentrated solar power plants. Potassium chloride is a basic chemical used to produce potassium hydroxide, and it is also used oil drilling, and to produce carrageenan.

(e) **Potassium:** The Company produces potassium chloride and potassium sulfate from brines extracted from the Salar de Atacama. Potassium chloride is a commodity fertilizer used to fertilize a variety of crops including corn, rice, sugar, soybean and wheat. Potassium sulfate is a specialty fertilizer used mainly in crops such as vegetables, fruits and industrial crops.

(f) **Other products and services:** The Company also sells other fertilizers and blends, some of which we do not produce, mainly potassium nitrate, potassium sulfate and potassium chloride. This business line also includes revenue from commodities, services, interests, royalties and dividends.

1.5 Other background

(a) Employees

As of December 31, 2024 and 2023, the workforce was as follows:

Employees	As of December 31, 2024			As of December 31, 2023		
	SQM S.A.	Other subsidiaries	Total	SQM S.A.	Other subsidiaries	Total

(1) As reported by DCV, which manages the Company's shareholders' register as of December 31, 2024 and 2023, Inversiones TLC SpA, a subsidiary wholly owned Tianqi Lithium Corporation, is the direct owner of 62,556,568 Series A shares of The Company equivalent to 21.90% of SQM's shares. In addition, as reported by Tianqi Lithium Corporation, it owns 748,490 Series B SQM shares as reported by Inversiones TLC SpA. Accordingly as of December 31, 2024 and 2023, Tianqi Lithium Corporation owns 22.16% of SQM's through Series A shares and ADS holders of Series B shares.

(2) As December 31, 2024 the Sociedad de Inversiones Pampa Calichera S.A. owned 46,600,458 Series A and B shares with 3,103,842 Series A shares held in custody by stockbrokers and as of December 31, 2023 the Sociedad de Inversiones Pampa Calichera S.A. owned 46,600,458 Series A and B shares with 2,348,842 Series A shares held in custody by stockbrokers

Note 2 Basis of presentation for the consolidated financial statements

2.1 Accounting period

These consolidated financial statements cover the following periods:

- (a) Consolidated Statements of Financial Position as of December 31, 2024 and 2023.
- (b) Consolidated Statements of Income for the periods from January 1 to December 31, 2024 and 2023.
- (c) Consolidated Statements of Comprehensive Income from January 1 to December 31, 2024 and 2023.
- (d) Consolidated Statements of Changes in Equity for the years ended December 31, 2024 and 2023.
- (e) Consolidated Statements of Cash Flows for the years ended December 31, 2024 and 2023.

2.2 Consolidated financial statements

The consolidated financial statements of the Group have been prepared in accordance with IFRS accounting standards as issued by the IASB, and represent the complete, explicit and unreserved adoption of these standards.

These consolidated financial statements fairly present the Company's financial position as of December 31, 2024 and 2023 and the results of its operations, changes in equity and cash flows for three years in the period ended December 31, 2024 and 2023.

IFRS establish certain alternatives for their application, those applied by the Company are detailed in this Note and Note 3.

The accounting policies used in preparing these consolidated financial statements comply with each IFRS in effect as of the reporting date.

2.3 Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following:

- (a) Inventories are recorded at the lower of cost and net realizable value.
- (b) Financial derivatives measured at fair value.
- (c) Certain financial investments measured at fair value with an offsetting entry in other comprehensive income.

2.4 Accounting pronouncements

New accounting pronouncements

- (a) The following standards, interpretations and amendments are mandatory for the first time for annual periods beginning on January 1, 2024:

Amendments and improvements	Description	Mandatory for annual periods beginning on or after
Amendments to IAS 1 "Presentation of Financial Statements" about the classification of liabilities.	This amendment clarifies that liabilities are classified as either current or non-current, depending on their rights as of the reporting date. The classification is not affected by the expectations of the entity or events after the reporting date. For example, the receipt of a waiver or non-compliance with an agreement. The amendment also clarifies what IAS 1 means when it refers to the "settlement" of a liability. The amendment should be applied retrospectively in accordance with IAS 8.	01-01-2024
Amendment to IAS 1 "Non-current Liabilities with Covenants".	The amendment improves the information that an entity discloses when its payment terms are deferred, provided it complies with covenants within twelve months of issuing the financial statements.	01-01-2024
Amendment to IFRS 16, "Leases"	Amendments to sale and leaseback transactions, including explanations of how an entity should recognize its right of use leased assets and how the gains or losses arising from sale and leaseback transactions should be recognized in the financial statements.	01-01-2024
Amendments to IAS 7 "Statement of Cash Flows" and IFRS 7 "Financial Instruments: Disclosures" on supplier finance arrangements.	These amendments require disclosures that improve the transparency of supplier finance arrangements and their effects on a company's liabilities, cash flows and exposure to liquidity risk.	01-01-2024

Management determined that the adoption of the aforementioned standards, amendments and interpretations did not significantly impact the Company's consolidated financial statements.

(b) Standards, interpretations and amendments issued that had not become effective for financial statements beginning on January 1, 2024 and which the Company has not adopted early are as follows:

Standards and Interpretations	Description	Mandatory for annual periods beginning on or after
Amendments to IAS 21 - Lack of exchangeability.	This amendment affects an entity that has a transaction in a foreign currency that cannot be exchanged with another currency for a specific purpose as of the measurement date. One currency is exchangeable into another when the other currency can be obtained with a normal administrative delay, and the transaction is performed using a market or exchange mechanism that creates enforceable rights and obligations. This amendment contains instructions regarding the exchange rate to be used when the currency is not exchangeable, as previously described. Early adoption is permitted.	01-01-2025
Amendments to IFRS 9 and IFRS 7 - Classification and Measurement of Financial Instruments. Issued in May 2024	This amendment: - Clarifies the requirements for the timing of recognition and derecognition of certain financial assets and liabilities, introducing a new exception for certain financial liabilities settled through an electronic cash transfer system; - Clarifies and provides additional guidance for assessing whether a financial asset meets the criterion of solely payment of principal and interest (SPPI); - Adds new disclosures for certain instruments with contractual terms that can change cash flows (such as some instruments with features linked to the achievement of environmental, social and governance (ESG) objectives); and - Updates the disclosures for equity instruments at fair value through other comprehensive income (FVOCI).	01-01-2026
Annual Improvements to IFRSs	The following improvements were published in July 2024: -IFRS 1 First-time Adoption of International Financial Reporting Standards. Some cross-references to IFRS 9 in paragraphs B5-B6 regarding the retrospective application exception for hedge accounting were improved. -IFRS 7 Financial Instruments: Disclosures. In relation to disclosures of gains/losses arising from derecognition of financial assets with continuing involvement, a reference to IFRS 13 is incorporated in order to disclose whether there are significant unobservable inputs with an impact on the fair value and, therefore, on part of the gain/loss from derecognition. -IFRS 9 Financial Instruments. A reference to the initial measurement of receivables was amended by eliminating the term "transaction price". -IFRS 10 Consolidated Financial Statements Some improvements were included in the description of the control assessment when there are "de facto agents". -IAS 7 Statement of Cash Flows. Paragraph 37 regarding the concept of "equity method" was amended by eliminating the reference to the "cost method".	01-01-2026
IFRS 18 Presentation and Disclosure in Financial Statements	The new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to: - the structure of the statement of profit or loss; - required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and - enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.	01-01-2027
Amendment to IFRS 9 and IFRS 7: Contracts referencing nature-dependent electricity.	Published in December 2024. This amendment includes: - Clarifying the application of the "own-use" requirements; - Permitting hedge accounting if these contracts are used as hedging instruments; - Adding new disclosure requirements to enable investors to understand the effect of these contracts on a company's financial performance and cash flows.	01-01-2026

Management believes that the adoption of the above standards, amendments and interpretations will not have a significant impact on the Company's financial statements.

2.5 Basis of consolidation

(a) Subsidiaries

The Company established control as the basis of consolidation for its financial statements. The Company controls a subsidiary when it is exposed, or has rights, to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary.

The consolidation of a subsidiary starts when the Group controls it and it is no longer included in the consolidation when control is lost.

Subsidiaries are consolidated through the line by line method, adding items that represent assets, liabilities, income and expenses with a similar content, and eliminating operations between companies within the SQM Group.

Results for dependent companies acquired or disposed of during the period are included in the consolidated accounts from the date on which control is transferred to the Company or until the date when this control ends, as relevant.

To account for an acquisition of a business, the Company uses the acquisition method. Under this method, the acquisition cost is the fair value of assets delivered, equity securities issued and incurred or assumed liabilities at the date of exchange. Assets, liabilities and contingencies identifiable assumed in a business combination are measured initially at fair value at the acquisition date. For each business combination, the Company will measure the non-controlling interest of the acquiree either at fair value or as proportional share of net identifiable assets of the acquiree.

The following tables detail general information as of December 31, 2024 and 2023 on the companies in which the group exercises control:

Subsidiaries	TAX ID No.	Address	Country of Incorporation	Functional Currency	Ownership Interest

- (17) On December 16, 2024, SQM Lab SpA was incorporated.
- (18) In the fourth quarter of 2024, SQM Thailand Limited was liquidated.
- (19) On October of 2024, SQM Japan Lithium Co. Ltd. was incorporated.

(*) On April 30, The Company acquired the total interest ownership in Sichuan Dixin New Energy Co. Ltd. for an amount of ThUS\$ 127,152 (ThUS\$ 12,489 are yet to be paid and it is recognized as a liability at the reporting date) and recognizing an identified intangible asset for ThUS\$ 10,130 (see note 15 on intangible assets). The Company entered this transaction to acquire a battery-grade lithium hydroxide monohydrate plant with a production capacity of approximately 20,000 tons per year for the Company's lithium sulfate salts. See additional details in note 13.2. Assets and liabilities recognized upon acquisition consider the following:

Certain financial statement items	ThUS\$
Property, plant and equipment	101,357
Intangible assets (including identified intangible assets)	12,861
Cash and cash equivalents	1,093
Current assets	33,056
Total liabilities	(21,215)
Total	127,152

2.6 Investments in associates and joint ventures

Investments in joint arrangements are classified as joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement.

(a) Joint operations

The Company recognizes its direct right to the assets, liabilities, income and expenses of the joint arrangement.

(b) Joint ventures and investments in associates

Interests in companies over which joint control is exercised (joint ventures) or where an entity has significant influence (associates) are recognized using the equity method. Significant influence is presumed to exist when the investor owns over 20% of the investee's share capital. Under the equity method, the investment is recognized in the statement of financial position at cost and is adjusted to recognize changes in the Company's share of the net assets of the associate or joint venture since the date of acquisition. The Company's statement of income reflects the portion of the operating results of the associate or joint venture and any changes in other comprehensive income or direct changes in the associate's equity are reflected in the Company's equity. For such purposes, the percentage of ownership interest in the associate is used. At the time of acquisition, the difference between the investment cost and the net fair value of identifiable assets and liabilities of the investee is recognized as goodwill, which is presented as part of the carrying value of the investee and is not amortized. The debit or credit to the income statement reflects the proportional share of the associate's net income (loss).

Unrealized gains from transactions with joint ventures or associates are eliminated in accordance with the Company's percentage interest in such entities. Any unrealized losses are also eliminated, unless that transaction provides evidence that the transferred asset is impaired.

Changes in associate's or joint ventures equity are recognized proportionally with a charge or credit to "Other Reserves" and are classified according to their origin. The reporting dates of the associate or joint ventures, the Company and related policies are similar for equivalent transactions and events in similar circumstances. In the event that significant influence is lost, or the investment is sold, or held for sale, the equity method is suspended, not recognizing the proportional share of the gain or loss. If the resulting value under the equity method is negative, the share of profit or loss is reflected as zero in the consolidated financial statements, unless there is a commitment by the Company to restore the capital position of the Company, in which case the related risk provision and expense are recorded.

Dividends received by these companies are recorded by reducing the value of the investment and are shown in cash flows from operating activities, and the proportional share of the gain or loss recognized in accordance with the equity method is included in the consolidated income statement under "Share of Gains (Losses) of Associates and Joint Ventures Accounted for Using the Equity Method".

Note 3 Significant accounting policies

3.1 Classification of balances as current and non-current

In the consolidated statement of financial position, balances are classified in consideration of their maturity dates; i.e., those maturing within a period equal to or less than 12 months are classified as current counted from the closing date of the consolidated financial statements and those with maturity dates exceeding the aforementioned period are classified as non-current.

The exception to the foregoing relates to deferred taxes, which are classified as non-current, regardless of the maturity they have.

3.2 Functional and presentation currency

The Company's consolidated financial statements are presented in United States dollars, without decimal places, which is the Company's functional and presentation currency and is the currency of the main economic environment in which it operates. Consequently, the term foreign currency is defined as any currency other than the U.S. dollar.

3.3 Accounting policy for foreign currency translation

(a) **SQM group entities:**

The revenue, expenses, assets and liabilities of all entities that have a functional currency other than the presentation currency are converted to the presentation currency as follows:

- Assets and liabilities are converted at the closing exchange rate prevailing on the reporting date.
- Revenues and expenses of each statement of income account are converted at monthly average exchange rates.
- All resulting foreign currency translation gains and losses are recognized as a separate component in translation reserves.

In consolidation, foreign currency differences arising from the translation of a net investment in foreign entities are recorded in shareholder's equity ("foreign currency translation reserve"). At the date of disposal, such foreign currency translation differences are recognized in the statement of income as part of the gain or loss from the sale.

The main exchange rates and UF used to translate monetary assets and liabilities, expressed in foreign currency at the end and average of each period in respect to U.S. dollars, are as follows:

Currencies	Closing exchange rates		Average exchange rates	
	As of December 31, 2024	As of December 31, 2023	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Brazilian real	6.18	4.85	6.10	4.90
New Peruvian sol	3.77	3.70	3.73	3.73
Japanese yen	157.21	140.90	153.66	143.94
Euro	0.96	0.90	0.95	0.92
Mexican peso	20.55	16.92	20.23	17.18
Australian dollar	1.61	1.46	1.58	1.49
Pound Sterling	0.80	0.78	0.79	0.79
South African rand	18.82	18.27	18.19	18.61
Chilean peso	996.46	877.12	983.24	875.06
Chinese yuan	7.31	7.12	7.29	7.15
Indian rupee	85.53	83.21	84.95	83.26
Thai Baht	34.21	34.36	34.13	34.95
Turkish lira	35.33	29.52	34.96	29.09
Korean Won	1,472.30	1,290.70	1,438.07	1,304.17
Indonesian Rupiah	16,138.00	15,399.00	16,035.15	15,502.63
United Arab Emirates dirham	3.67	3.67	3.67	3.67
Polish Zloty	4.12	3.93	4.07	3.97
UF (*)	38.55	41.94	39.07	42.04

(*) US\$ per UF

(b) Transactions and balances

The Company's non-monetary transactions in currencies other than the functional currency (Dollar) are translated to the respective functional currencies of Group entities at the exchange rate on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. All differences are recorded in the statement of income except for all monetary items that provide an effective hedge for a net investment in a foreign operation. These items are recognized in other comprehensive income until disposal of the investment, when they are recognized in the statement of income. Charges and credits attributable to foreign currency translation differences on those hedge monetary items are also recognized in other comprehensive income.

Non-monetary assets and liabilities that are measured at historical cost in a foreign currency are retranslated to the functional currency at the historical exchange rate of the transaction. Non-monetary items measured based on fair value in a foreign currency are translated using the exchange rate at the date on which the fair value is determined.

3.4 Consolidated statement of cash flows

Cash equivalents correspond to highly liquid short-term investments that are easily convertible into known amounts of cash and subject to insignificant risk of changes in their value and mature in less than three months from the date of acquisition of the instrument.

For the purposes of the statement of cash flows, cash and cash equivalents comprise cash and cash equivalents as defined above.

The statement of cash flows present cash transactions performed during the period, determined using the direct method.

The Company's accounting policy is to consider interest paid and finance costs, interest received and dividends received as net cash flows from operations and dividends paid as cash flows from (used in) financing activities.

Other inflows (outflows) of cash from operating activities are composed as follows:

For the period ended	As of December 31, 2024	A As of December 31, 2023
	ThUS\$	ThUS\$
Bank expenses	(11,046)	(15,603)
Fiscal credits	(6,255)	(3,353)
Government grants	13,076	24,387
Value added tax	61,426	(298,076)
Debt issuance costs	(23,091)	-
Total	34,110	(292,645)

3.5 Financial assets accounting policy

Management determines the classification of its financial assets at fair value (either through other comprehensive income, or through profit or loss), and at amortized cost. The classification depends on the business model of the entity to manage the financial assets and the contractual terms of the cash flows.

The initial value of the Company's financial assets valued at fair value through other comprehensive income includes the transaction costs that are directly attributable to acquiring that financial asset on the date the Company commits to acquiring it, whereas the transaction costs for financial assets valued at fair value through profit or loss are expensed. The initial value of trade and other receivables that do not include a significant financial component is their transaction price.

After initial recognition, the Company measures its financial assets according to the Company's business model for managing its financial assets and the contractual terms of its cash flows:

- (a) Financial debt instruments measured at amortized cost. Financial assets that meet the following conditions are included in this category (i) the business model that supports it aims to maintain the financial assets to obtain the contractual cash flows and (ii) the contractual conditions of the financial asset give place, on specified dates, to cash flows that are only payments of the principal and interest on the outstanding principal amount. The Company's financial assets that meet these conditions are: (i) cash equivalents, (ii) related party receivables, (iii) trade debtors and (iv) other receivables.
- (b) Financial instruments at fair value. A financial asset should be measured at fair value through income or fair value through other comprehensive income, depending on the following:
 - (i) Fair value through Other Comprehensive Income: Assets held to collect contractual cash flows and to be sold, where the asset cash flows are only capital and interest payments, are

measured at fair value through other comprehensive income. Changes in book values are through other comprehensive income, except for the recognition of impairment losses, interest income and exchange gains and losses, which are recognized in the income statement. When a financial asset is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to the income statement. Interest income from these financial assets is included in financial income using the effective interest method.

- (ii) Fair value through profit or loss: Assets that do not meet the amortized cost or "Fair value through other comprehensive income" criteria are valued at "Fair value through income".

- (c) Financial equity instruments at fair value through other comprehensive income. Equity instruments that are not classified as held for trading and which the Group has irrevocably chosen to recognize in this category from its initial recognition to the reporting date. Amounts presented in other comprehensive income will not be subsequently transferred to the statement income but to retained earnings when realized.

3.6 Financial assets impairment

The Company evaluates expected credit losses associated with its debt instruments carried at amortized cost. The impairment method used depends on whether there has been a significant increase in credit risk.

The Company assumes that the credit risk of a financial asset has increased significantly when it is more than 30 days past due. It is in default when the financial asset is more than 90 days past due and an individual analysis has concluded that it has a negative credit impairment.

The Company assesses the credit impairment of its receivables as of each reporting date. A financial asset has credit impairment when one or more events have a negative impact on the expected cash flows from it. Evidence of credit impairment for a debtor is as follows:

- Significant financial hardship
- Breach of contract due to default
- Probability of going bankrupt

The Company applies the simplified approach to measure expected credit losses using the lifetime expected loss on all trade receivables. Expected credit losses are measured by grouping receivables by their shared credit risk characteristics and days overdue.

The Company has concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for these assets. Expected loss rates are based on sales payment profiles and historical credit losses within this period. Historical loss rates are adjusted to reflect current expectations and information regarding macroeconomic factors that affect the ability of customers to meet their commitments. Impairment losses on accounts receivable and contract assets are presented as net impairment losses under "Impairment of financial assets and reversal of impairment losses," see Note 22.7. Any subsequent recoveries of financial assets previously charged off are credited to the same line.

The gross value of a financial asset is charged off to the income statement when the Company has no reasonable expectation of recovering all or a portion of it, following an individual analysis prepared by management.

3.7 Financial liabilities

Management accounts for its financial liabilities at amortized cost.

Upon initial recognition, the Company measures its financial liabilities by their fair value less the transaction costs that are directly attributable to the acquisition of the financial liability. The Company subsequently measures its financial liabilities at amortized cost.

Financial liabilities measured at amortized cost are: (i) commercial accounts payable, (ii) other accounts payable and (iii) other financial liabilities.

Amortized cost is based using the effective interest rate method. Amortized cost is calculated by considering any premium or discount on the acquisition and includes transaction costs that are an integral part of the effective interest rate.

3.8 Estimated fair value of financial instruments

The fair value of financial assets and liabilities is estimated using the following information. Although the data represents Management's best estimates, it is subjective and involves significant estimates regarding current economic conditions, market conditions and risk characteristics.

Methodologies and assumptions used depend on the risk terms and characteristics of instruments and include the following as a summary:

Fair value estimation

Financial assets and liabilities measured at fair value consist of forwards hedging the mismatch in the balance sheet and cash flows, options hedging the mismatch in the balance sheet and cross currency swaps to hedge bonds issued in local currency (Peso/UF).

The fair value of the Company's assets and liabilities recognized by cross currency swaps contracts is calculated as the difference between the present value of discounted cash flows of the asset (Peso/UF) and liability (Dollar) parts of the derivative. In the case of the IRSW, the asset value recognized is calculated as the difference between the discounted cash flows of the asset (variable rate) and liability (fixed rate) parts of the derivative. Forwards are calculated as the difference between the strike price of the contract and the spot price plus the forwards points at the date of the contract. Financial options: the value recognized is calculated using the Black-Scholes method.

In the case of CCS, the entry data used for the valuation models are UF, Peso, Dollar and basis swap rates. In the case of fair value calculations for interest rate swaps, the Forward Rate Agreement rate and ICVS 23 Curve (Bloomberg: cash/deposits rates, futures, swaps). In the case of forwards, the forwards curve for the currency in question is used. Finally, for options, the spot price, risk-free rate and volatility of exchange rate are used, all in accordance with the currencies used in each valuation. The financial information used as entry data for the Company's valuation models is obtained from Bloomberg, the well-known financial software company. Conversely, the fair value provided by the counterparties of derivatives contracts is used only as a control and not for valuation purposes.

The effects on results from changes in these values are recognized in financial costs, foreign exchange differences, or in the "Cash flow hedges" section of the statement of comprehensive income, depending on the specific case.

Fair value estimates for disclosure purposes

- Cash equivalent approximates fair value due to the short-term maturities of these instruments.
- Fair value of current trade receivables is considered to be equal to the carrying amount due to the maturity of such accounts at short-term.
- Payables, current lease liabilities and other current financial liabilities fair value equal to book value due to the short-term maturity of these accounts.
- The fair value of the debt (long-term secured and unsecured debentures; bonds denominated in local currency (Peso/UF) and foreign currency (Dollar), borrowings denominated in foreign currency (Dollar) of the Company are calculated at current value of cash flows subtracted from market rates upon valuation, considering the terms of maturity and exchange rates. The UF and Peso rate curves are used as inputs for the valuation model. This information is obtained through from the renowned financial software company, Bloomberg, and the Chilean Association of Banks and Financial Institutions.

3.9 Reclassification of financial instruments

When the Company changes its business model for managing financial assets, it will reclassify all its financial assets affected by the new business model. Financial liabilities cannot be reclassified.

3.10 Financial instruments derecognition

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred; and the control of the financial assets has not been retained.

The Company derecognizes a financial liability when its contractual obligations or a part of these are discharged, paid to the creditor or legally extinguished from the principal responsibility contained in the liability.

3.11 Derivative and hedging financial instruments

Derivative financial instruments are recognized initially at fair value as of the date on which the derivatives contract is signed and, they are subsequently assessed at fair value. The method for recognizing the resulting gain or loss depends on whether the derivative has been designated as an accounting hedge instrument and, if so, it depends on the type of hedging, which may be as follows:

- a) Fair value hedge of assets and liabilities recognized (fair value hedges).
- b) Hedging of a single risk associated with a recognized asset or liability or a highly probable forecast transaction (cash flow hedge).

At the beginning of the transaction, the Company documents the relationship that exists between hedging instruments and hedged items, as well as their objectives for risk management purposes and strategy to conduct the different hedging operations.

The Company also documents its evaluation both at the beginning and at the end of each period if the derivatives used in hedging transactions are highly effective to offset changes in the fair value or in cash flows of hedged items.

The fair value of derivative instruments used for hedging purposes is shown in Note 13.3.

Derivatives that are not designated or do not qualify as hedging derivatives are classified as current assets or liabilities, and changes in the fair value are directly recognized through income.

a) Fair value hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the statement of income, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk. The gain or loss relating to the effective portion of interest rate swaps that hedge fixed rate borrowings is recognized the statement of in income within finance costs, together with changes in the fair value of the hedged fixed rate borrowings attributable to interest rate risk. The gain or loss relating to the ineffective portion is recognized in income within other income or other expenses captions. If the hedge no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortized to income over the period to maturity using a recalculated effective interest rate.

b) Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is initially recognized with a debit or credit to other comprehensive income, while any ineffective portion is immediately recognized to income, as appropriate, depending on the nature of the hedged risk. The amounts accumulated in other comprehensive income are carried over to results when the hedged items are settled or when these have an impact on income.

When a hedging instrument no longer meets the criteria for hedge accounting, any cumulative deferred gain or loss and deferred costs of hedging in equity at that time remains in equity until the forecast transaction occurs.

When the forecast transaction is no longer expected to occur, the cumulative gain or loss and deferred costs of hedging that were reported in other comprehensive income are immediately reclassified to the statement of income.

3.12 Derivative financial instruments not considered as hedges

Derivative financial instruments not considered as hedges are recognized at fair value with the effect in the statement of income for the year. The Company has derivative financial instruments to hedge foreign currency risk exposure.

The Company continually evaluates the existence of embedded derivatives in both its contracts and in its financial instruments. As of December 31, 2024 and 2023, the Company does not have any embedded derivatives.

3.13 Deferred acquisition costs from insurance contracts

Acquisition costs from insurance contracts are classified as prepayments and correspond to insurance contracts in force, recognized using the straight-line method and on an accrual basis independent of payment date. These are recognized under other non-financial assets current.

3.14 Leases

(a) Right-of-use assets

The Company recognizes right-of-use assets on the initial lease date (i.e., the date on which the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, adjusted by any new measurement of the lease liability. The cost of right-of-use assets includes the amount of recognized lease liabilities, direct initial costs incurred and lease payments made on the start date or sooner, less the lease incentives received. Unless the Company is reasonably sure it will take ownership of the

leased asset at the end of the lease period, the assets recognized through right-of-use are depreciated in a straight line during the shortest period of their estimated useful life and lease period. Right-of-use assets are subject to impairment.

(b) Lease liabilities

On the lease start date, the Company recognizes lease liabilities measured at present value of lease payments that will be made during the lease period. Lease payments include fixed payments (including payments that are essentially fixed), less incentives for lease receivables, variable lease payments that are dependent on an index or rate and amounts that are expected to be paid as guaranteed residual value. Lease payments also include the exercise price of a purchase option if the Company is reasonably sure it will exercise this and penalty payments for terminating a lease, if the lease period reflects that the Company will exercise the option to terminate. Variable lease payments that are not dependent on an index or rate are recognized as expenses in the period that produces the event or condition that triggers payment.

When calculating the present value of lease payments, the Company uses the incremental borrowing rate on the initial lease date if the interest rate implicit in the lease cannot be determined easily. After the start date, the lease liability balance will increase to reflect the accumulation of interest and will diminish as lease payments are made. Furthermore, the book value of lease liabilities is remeasured in the event of an amendment, a change in the lease period, a change in the fixed lease payments in substance or a change in the assessment to buy the underlying asset.

Payments made that affect lease liabilities are presented as part of the financing activities in the cash flow statement.

(c) Short-term leases and low-value asset leases

The Company applies the short-term lease recognition exemption to leases with a lease term of 12 months or less starting on the start date and that don't have a purchase option. It also applies the low-value asset lease recognition exemptions to leases less than the limit specified in the respective accounting standard. Lease payments in short-term leases and low-value asset leases are recognized as lineal expenses during the lease term.

(d) Significant judgments in the determination of the lease term for contracts with renewal options.

The Company determines the lease term as the non-cancellable period of the lease, together with periods covered by an option to extend the lease if it is reasonably certain that this will be exercised, or any period covered by an option to terminate the lease, if it is reasonably certain that this will not be exercised.

The Company has the option, under some of its leases, to lease assets on additional terms. The Company applies its judgment when assessing whether it is reasonably certain that it will exercise the option to renovate. In other words, it considers all the relevant factors that create an economic incentive for it to exercise the option to renovate. After the start date, the Company reevaluates the lease term if there is a significant event or change in the circumstances that are under its control and affect its capacity to exercise (or not exercise) the option to renovate.

3.15 Inventory measurement

The method used to determine the cost of inventories is the weighted average monthly cost of warehouse storage. In determining production costs for own products, the company includes the costs of labor, raw materials, materials and supplies used in production, depreciation and maintenance of the goods that participate in the production process, the costs of product movement necessary to maintain stock on location and in the

condition in which they are found, and also includes the indirect costs of each task such as laboratories, process and planning areas, and personnel expenses related to production, among others.

For finished and in-process products, the company has three types of provisions, which are reviewed quarterly:

- (a) **Provision associated with the lower value of stock:** The provision is directly identified with the product that generates it and involves three types: (i) provision of lower realizable value, which corresponds to the difference between the inventory cost of intermediary or finished products, and the sale price minus the necessary costs to bring them to the same conditions and location as the product with which they are compared; (ii) provision for future uncertain use that corresponds to the value of those products in process that are likely not going to be used in sales based on the company's long-term plans; (iii) reprocessing costs of products that are unfeasible for sale due to current specifications.
- (b) **Provision associated with physical differences in inventory:** A provision is made for differences that exceed the tolerance considered in the respective inventory process (physical and annual inventories are taken for the productive units in Chile and the port of Tocopilla; the business subsidiaries depend on the last zero ground obtained, but in general it is at least once a year), these differences are recognized immediately.
- (c) **Potential errors in the determination of stock:** The company has an algorithm (reviewed at least once a year) that corresponds to diverse percentages assigned to each inventory based on the product, location, complexity involved in the associated measurement, rotation and control mechanisms.

Inventories of raw materials, materials and supplies for production are recorded at acquisition cost. Cyclical inventories are performed in warehouses, as well as general inventories every three years. Differences are recognized at the moment they are detected. The company has a provision based on quarterly calculations from percentages associated with each type of material (classification by warehouse and rotation), these percentages use the lower value resulting from deterioration or obsolescence as well as potential losses. This provision is reviewed at least annually, and considers the historical results obtained in the inventory processes.

3.16 Non-controlling interests

Non-controlling interests are recorded in the consolidated statement of financial position within equity but separate from equity attributable to the owners of the Parent.

3.17 Related party transactions

Transactions between the Company and its subsidiaries are part of the Company's normal operations within its scope of business activities. Conditions for such transactions are normally effective for those types of operations with regard to terms and market prices. The maturity conditions vary according to the originating transaction.

3.18 Property, plant and equipment

Property, plant and equipment are stated at acquisition cost, net of the related accumulated depreciation, amortization and impairment losses that they might have experienced.

In addition to the price paid for the acquisition of property, plant and equipment, the Company has considered the following concepts as part of the acquisition cost, as applicable:

- (a) Accrued interest expenses during the construction period that are directly attributable to the acquisition, construction or production of qualifying assets, which are those that require a substantial period prior to being ready for use. The interest rate used is that related to the project's specific financing or, should this not exist, the average financing rate of the investor company.

Financing costs are not capitalized for periods that exceed the normal term of acquisition, construction or installation of an asset, such as delays, interruptions or temporary suspension of the project due to technical, financial or other problems that prevent the asset from reaching a usable condition.

- (b) The future costs that the Company will have to experience, related to the closure of its facilities at the end of their useful life, are included at the present value of disbursements expected to be required to settle the obligation and are recorded as a liability and its subsequent variation is recorded directly in results.

Having initially recognized provisions for closure and refurbishment, the corresponding cost is capitalized as an asset in "Property, plant and equipment" and amortized in line with the amortization criteria for the associated assets.

Construction-in-progress is transferred to property, plant and equipment in operation once the assets are available for use and the related depreciation and amortization begins on that date.

Extension, modernization or improvement costs that represent an increase in productivity, ability or efficiency or an extension of the useful lives of property, plant and equipment are capitalized as a higher cost of the related assets. All the remaining maintenance, preservation and repair expenses are charged to expense as they are incurred.

The replacement of assets, which increase the asset's useful life or its economic capacity, are recorded as a higher value of property, plant and equipment with the related derecognition of replaced or renewed elements.

Gains or losses which are generated from the sale or disposal of property, plant and equipment are recognized as income (loss) and calculated as the difference between the asset's sales value and its net carrying value.

The cost of interest is recognized by applying an average or average weighted interest rate for all financing costs incurred by the Company to the final monthly balances for works underway and comply with the requirements of the required standard.

3.19 Depreciation of property, plant and equipment

Property, plant and equipment are depreciated through the straight-line distribution of cost over the estimated technical useful life of the asset, which is the period in which the Company expects to use the asset. When components of one item of property, plant and equipment have different useful lives, they are recorded as separate assets and depreciated over their expected useful lives. Useful lives and residual values are reviewed annually.

Fixed assets located in the Salar de Atacama consider useful life to be the lesser value between the technical useful life and the years remaining until 2030.

In the case of certain mobile equipment, depreciation is performed depending on the hours of operation.

The useful lives used for the depreciation and amortization of assets included in property, plant and equipment are presented below:

Classes of property, plant and equipment	Minimum life or rate (years)	Maximum life or rate (years)	Life or average rate in years
Mining assets (*)	5	10	8
Energy generating assets	5	15	8
Buildings	3	25	12
Supplies and accessories	4	15	8
Office equipment	5	10	9
Transport equipment	7	20	9
Network and communication equipment	4	15	8
IT equipment	3	11	7
Machinery, plant and equipment	3	28	11
Other fixed assets	3	20	9

(*) Mining equipment includes SQM Australia's exploration assets, which are depreciated on a unit of production basis.

3.20 Goodwill

Goodwill acquired represents the excess in acquisition cost on the fair value of the Company's ownership of the net identifiable assets of the subsidiary on the acquisition date. Goodwill acquired related to the acquisition of subsidiaries is included in the line-item goodwill, which is subject to impairment tests annually or more frequently if events or changes in circumstances indicate that it might be impaired and is stated at cost less accumulated impairment losses. Gains and losses related to the sale of an entity include the carrying value of goodwill related to the entity sold.

This intangible asset is assigned to cash-generating units with the purpose of testing impairment losses. It is allocated based on cash-generating units expected to obtain benefits from the business combination from which the aforementioned goodwill acquired arose.

3.21 Intangible assets other than goodwill

Intangible assets other than goodwill mainly relate to water rights, costs for rights of way for electricity lines, software and licensing costs, the development of computer software and mining property and concession rights.

(a) Water rights

Water rights acquired by the Company relate to water from natural sources and are recorded at acquisition cost. The Company separates water rights into:

- i) Finite rights with amortization using the straight-line method, and
- ii) Indefinite rights, which are not amortized, given that these assets represent rights granted in perpetuity to the Company and subject to an annual impairment assessment.

(b) Rights of way for electric lines

As required for the operation of industrial plants, the Company has paid rights of way to install wires for the different electric lines on third party land.

(c) Computer software

Licenses for IT programs acquired are capitalized based on their acquisition and customization costs. These costs are amortized over their estimated useful lives. The useful lives of IT programs are defined by their contracts or rights.

Expenses related to the development or maintenance of IT programs are recognized as an expense and when incurred. Costs directly related to the production of unique and identifiable IT programs controlled by the Group, and which will probably generate economic benefits that are higher than its costs during more than a year, are recognized as intangible assets. Direct costs include the expenses of employees who develop information technology software and general expenses in accordance with corporate charges received.

The costs of development for IT programs are recognized as assets are amortized over their estimated useful lives.

(d) Mining property and concession rights

The Company holds mining property and concession rights from the Chilean and Western Australian Governments. Property rights from the State of Chile are usually obtained at no initial cost (other than the payment of mining patents and minor recording expenses) and once the rights on these concessions have been obtained, they are retained by the Company while annual patents are paid. Such patents, which are paid annually, are recorded as prepaid assets and amortized over the following twelve months. Amounts attributable to mining concessions acquired from third parties different from the Chilean Government are recorded at acquisition cost within intangible assets.

The finite useful life of mining properties is calculated using the productive unit method, except for the mining properties owned by Corfo, which have been leased to the Company and grant it the right to exclusively exploit them until December 31, 2030.

Minimum and maximum amortization lives or rates of intangible assets:

Estimated useful life or amortization rate	Minimum Life or Rate	Maximum Life or Rate
Water rights	1 year	Indefinite
Rights of way	Indefinite	Indefinite
Corfo Mining properties (1)	6 years	6 years
Mining rights	Unit-production method	
Intellectual property	9 years	14 years
IT programs	1 year	7 years

(1) Mining properties owned by CORFO and leased to the Company, which grant it the exclusive right to exploit them until December 31, 2030.

3.22 Research and development expenses

Research and development expenses are charged to the statement of income in the period in which the expenditure was incurred.

3.23 Exploration and evaluation expenses

The Company holds mining concessions for exploration and exploitation of ore, the Company gives the following treatment to the associated expenses:

Once the rights have been obtained, the Company records the disbursements directly associated with the exploration and evaluation of the deposit in execution as property, plant and equipment (construction in

progress) at its cost. These disbursements include the following items: geological surveys, drilling, borehole extraction and sampling, activities related to the technical assessment and commercial viability of the extraction, and in general, any disbursement directly related to specific projects where the objective is to find ore resources. If the technical studies determine that the ore grade is not economically viable, the asset is directly charged to the statement of income. If determined otherwise, the asset described above is associated with the extractable ore tonnage which is amortized as it is used.

(a) Limestone and metallic exploration

These assets are included in Other non-current non-financial assets, and the portion related to the area to be exploited in the year is reclassified to inventories, if applicable. Costs related to metal exploration are charged to the statement of income in the period in which they are recognized if the project assessed doesn't qualify as advanced exploration otherwise, these are amortized during the development stage.

(b) Exploration and evaluation at the Mt. Holland Project

Exploration and evaluation costs incurred prior to the commencement of mining are presented in Construction in progress, until mining had commenced, subsequently these are reclassified to Mining assets as part of its property, plant and equipment.

3.24 Impairment of non-financial assets

Assets subject to depreciation and amortization are also subject to impairment testing, provided that an event or change in the circumstances indicates that the amounts in the accounting records may not be recoverable, an impairment loss is recognized for the excess of the book value of the asset over its recoverable amount.

For assets other than goodwill, the Group annually assesses whether there is any indication that a previously recognized impairment loss may no longer exist or may have decreased. Should such indications exist, the recoverable amount is estimated.

The recoverable amount of an asset is the higher between the fair value of an asset or cash generating unit less costs of sales and its value in use and is determined for an individual asset unless the asset does not generate any cash inflows that are clearly independent from other assets or groups of assets.

In evaluating value in use, estimated future cash flows are discounted using a pre-tax discount rate that reflects current market assessment, the value of money over time and the specific asset risks.

Impairment losses from continuing operations are recognized with a debit to the statement of income the categories of expenses associated with the impaired asset function.

For assets other than goodwill, a previously recognized impairment loss is only reversed if there have been changes in the estimates used to determine the asset's recoverable amount since the last time an impairment loss was recognized. If this is the case, the carrying value of the asset is increased to its recoverable amount. This increased amount cannot exceed the carrying value that would have been determined, net of depreciation, if an asset impairment loss had not been recognized in prior years. This reversal is recognized with a credit to the statement of income.

Assets with indefinite lives are assessed for impairment annually.

3.25 Minimum dividend

As required by Chilean law and regulations, the dividend policy is established by the Board of Directors and announced at the annual ordinary shareholders' meeting. Shareholder's approval of the dividend policy is not required. However, each year the Board must submit the declaration of the final dividend or dividends in respect of the preceding year, consistent with the then-established dividend policy, to the Annual Ordinary Shareholders' Meeting for approval. As required by the Chilean Companies Act, unless otherwise decided by unanimous vote of the holders of issued shares, the Company must distribute a cash dividend in an amount equal to at least 30% of our consolidated net income for that year unless and to the extent there is a deficit in retained earnings. (See Note 20.5).

3.26 Earnings per share

The basic earnings per share amounts are calculated by dividing the net income for the period attributable to the ordinary owners of the parent by the weighted average number of ordinary shares outstanding during the period.

Earnings per Share	For the year ended December 31	
	2024	2023
(Losses) gains attributable to the owners of the parent	(404,359)	2,012,667
Weighted average number of shares	285,637,916	285,638,456
Basic (losses) earnings per share (US\$)	(1.4156)	7.0462
(Losses) gains attributable to the owners of the parent	(404,359)	2,012,667
Weighted average number of shares	285,637,916	285,638,456
Diluted earnings per share (US\$)	(1.4156)	7.0462
Serie A common share	142,819,012	142,819,552
Serie B common share	142,818,904	142,818,904
Total weighted average number of share	285,637,916	285,638,456

The Company does not have any securities that could potentially dilute earnings per share as of December 31, 2024 and 2023.

3.27 Other provisions

Provisions are recognized when:

- The Company has a present, legal or constructive obligation as the result of a past event.
- It is more likely than not that certain resources must be used, to settle the obligation.
- A reliable estimate can be made of the amount of the obligation.

In the event that the provision or a portion of it is reimbursed, the reimbursement is recognized as a separate asset solely if there is certainty of income. The expense for any provision is presented net of any reimbursements in the consolidated statement of income.

Should the effect of the value of money over time be significant, provisions are discounted using a discount rate before tax that reflects the liability's specific risks. When a discount rate is used, the increase in the provision over time is recognized as a finance cost.

The Company's policy is to maintain provisions to cover risks and expenses based on a better estimate to deal with possible or certain and quantifiable responsibilities from current litigation, compensations or obligations, pending expenses for which the amount has not yet been determined, collaterals and other similar guarantees for which the Company is responsible. These are recorded at the time the responsibility or the obligation that determines the compensation or payment is generated.

3.28 Obligations related to employee termination benefits and pension commitments

Obligations towards the Company's employees comply with the provisions of the collective bargaining agreements in force, which are formalized through collective employment agreements and individual employment.

These obligations are measured using actuarial calculations, according to the projected unit credit method which considers such assumptions as the mortality rate, employee turnover, interest rates, retirement dates, effects related to increases in employees' salaries, as well as the effects on variations in services derived from variations in the inflation rate.

Actuarial losses and gains that may be generated by variations in defined, pre-established obligations are directly recorded in "Other Comprehensive Income".

Actuarial losses and gains have their origin in deviations between the estimate and the actual behavior of actuarial assumptions or in the reformulation of established actuarial assumptions.

The above is applicable except in the United States, where our subsidiary, SQM North America has established pension plans for its retired employees that are calculated by measuring the projected obligation using a net salary progressive rate net of adjustments for inflation, mortality and turnover assumptions, deducting the resulting amounts at present value. The net balance of this obligation is presented under the "Non-current provisions for employee benefits" (refer to Note 18.4).

3.29 Compensation plans

Compensation plans implemented through benefits provided in share-based payments settled in cash are recognized in the financial statements at their fair value, in accordance with IFRS 2. Changes in the fair value of options granted are recognized with a charge to payroll in the statement of income (see Note 18.6).

3.30 Revenue recognition

Revenue is an amount that reflects the consideration that the Company expects to earn in exchange for the sale of goods and services in the regular course of business. Revenue is presented net of value added tax, estimated returns, rebates and discounts and after the elimination of sales among subsidiaries.

Revenues are recognized when the specific conditions for each income stream are met, as follows:

(a) Sale of goods

The sale of goods is recognized when the Company has delivered products to the customer, and there is no obligation pending compliance that could affect the acceptance of products by the customer. The delivery does not occur until products have been shipped to the customer or confirmed as received by the customer, and the related risks of obsolescence and loss have been transferred to the customer and the customer has accepted the products in accordance with the conditions established in the sale, when the acceptance period has ended, or when there is objective evidence that those criteria required for acceptance have been met.

Sales are recognized in consideration of the price set in the sales agreement, net of volume discounts and returns at the date of the sale. Volume discounts are evaluated in consideration of annual expected purchases and in accordance with the criteria defined in agreements.

(b) Sale of services

Revenue associated with the rendering of services is recognized considering the degree of completion of the service as of the date of presentation of the consolidated classified statement of financial position, provided that the result from the transaction can be estimated reliably.

(c) Income from dividends

Income from dividends is recognized when the right to receive the payment is established.

3.31 Finance income and finance costs

Finance income is mainly composed of interest income from financial instruments such as term deposits and mutual fund deposits. Interest income is recognized in the statement of income at amortized cost, using the effective interest rate method.

Finance costs are mainly composed of interest on bank borrowing, interest on bonds issued less interest capitalized for borrowing costs for the acquisition, construction or production or qualifying assets. Borrowing costs and bonds issued are also recognized in the statement of income using the effective interest rate method.

3.32 Current income tax and deferred

Corporate income tax for the year is determined as the sum of current and deferred income taxes from the different consolidated companies.

Current taxes are based on the application of the various types of taxes attributable to taxable income for the period. The Company periodically assesses the positions taken in the determination of taxes with respect to situations in which the applicable tax regulation is subject to interpretation and considers whether it is probable that a tax authority will accept an uncertain tax treatment. A provision is created if it is probable that payment will be required to a taxation authority. The Company measures its tax balances based on the most probable amount or expected value, depending on which method provides a better prediction of the resolution of uncertainty.

Differences between the book value of assets and liabilities and their tax basis generate the balance of deferred tax assets or liabilities, which are calculated using the tax rates expected to be applicable when the assets and liabilities are realized.

In conformity with current tax regulations, the provision for corporate income tax and taxes on mining activity is recognized on an accrual basis, presenting the net balances of accumulated monthly tax provisional payments for the fiscal period and associated credits. The balances of these accounts are presented in current income taxes recoverable or current taxes payable, as applicable.

Current taxes and changes in deferred tax assets and liabilities that do not arise from business combinations are recognized in the statement of net income or in equity in the consolidated statement of financial position, depending on where the gains or losses that caused them were recognized.

Deferred tax assets and liabilities are offset when a legally enforceable right exists to offset tax assets with tax liabilities and the deferred tax is levied by the same tax authority on the same entity.

The recognized deferred tax liabilities refer to the amount of income tax to pay in a future period, related to taxable temporary differences.

The company does not recognize deferred tax liabilities for taxable temporary differences associated with investments in subsidiaries, branches and associates, or with interests in joint ventures, because in accordance with the standard, the following two conditions are jointly met:

- (i) the parent company, investor or participant is able to control the timing of the reversal of the temporary difference; and
- (ii) it is probable that the temporary difference will not be reversed in the foreseeable future.

Recognized deferred tax assets are income taxes recoverable in future periods related to:

- a) deductible temporary differences;
- b) compensation for losses obtained in prior periods, which have not yet been subject to tax deduction; and
- c) compensation for unused credits from prior periods.

The Company recognizes deferred tax assets when it has the certainty that they can be offset with tax income from subsequent periods, unused tax losses or credits to date, but only when this availability of future tax income is probable and can be used for offsetting these unused tax losses or credits.

Moreover, the Company does not recognize deferred tax assets for all the deductible temporary differences that originate from investments in subsidiaries, branches and associates, or from joint ventures, because it is unlikely that they meet the following requirements:

- (i) temporary differences are reversed in the foreseeable future; and
- (ii) there is taxable profit available against which temporary differences can be used.

3.33 Operating segment reporting

IFRS 8 requires that companies adopt a management approach to disclose information on the operations generated by their operating segments. In general, this is the information that management uses internally for the evaluation of segment performance and making the decision on how to allocate resources for this purpose.

An operating segment is a group of assets and operations responsible for providing products or services subject to risks and performance that are different from those of other business segments. A geographical segment is responsible for providing products or services in a given economic environment subject to risks and performance that are different from those of other segments operating in other economic environments.

Allocation of assets and liabilities, to each segment is not possible given that these are associated with more than one segment, except for depreciation, amortization and impairment of assets, which are directly allocated in accordance with the criteria established in the costing process for product inventories to the corresponding segments.

3.34 Primary accounting criteria, estimates and assumptions

Management is responsible for the information contained in these consolidated annual accounts, which expressly indicate that all the principles and criteria included in IFRS, as issued by the IASB, have been applied in full.

In preparing the consolidated financial statements of the Company and its subsidiaries, management has made significant judgments and estimates to quantify certain assets, liabilities, revenues, expenses and commitments included therein. Basically, these estimates refer to:

- Depreciation expense is determined using useful lives estimated on current facts and past experience and take into consideration the expected physical life of the asset, the potential for technological obsolescence, and regulations. (See Notes 3.21, 15 and 16).
- Impairment losses of certain assets - Goodwill and intangible assets that have an indefinite useful life are not amortized and are assessed for impairment on an annual basis, or more frequently if the events or changes in circumstances indicate that these may have deteriorated Other assets, including property, plant and equipment, exploration assets, goodwill and intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that their carrying

amounts exceed their recoverable amounts. If an impairment assessment is required, the assessment of fair value or value in use often requires estimates and assumptions such as discount rates, exchange rates, commodity prices, future capital requirements and future operating performance. Changes in such estimates could impact on the recoverable values of these assets. Estimates are reviewed regularly by management (See Notes 15 and 16).

- Assumptions used in calculating the actuarial amount of pension-related and severance indemnity payment benefit commitments (See Note 18).
- Contingencies – The amount recognized as a provision, including legal, contractual, constructive and other exposures or obligations, is the best estimate of the consideration required to settle the related liability, including any related interest charges, considering the risks and uncertainties surrounding the obligation. In addition, contingencies will only be resolved when one or more future events occur or fail to occur. Therefore, the assessment of contingencies inherently involves the exercise of significant judgment and estimates of the outcome of future events. The Company assesses its liabilities and contingencies based upon the best information available, relevant tax laws and other appropriate requirements (See Note 21). If the Company is unable to rationally estimate the obligation or concluded no loss is probable but it is reasonably possible that a loss may be incurred, no provision is recorded but disclosed in the notes to the consolidated financial statements.
- Volume determination for certain in-process and finished products is based on topographical measurements and technical studies that cover the different variables (density for bulk inventories and density and porosity for the remaining stock, among others), and related allowance.
- Estimates for obsolescence provisions to ensure that the carrying value of inventory is not in excess of the net realizable inventory valuation. (See Note 11).

Even though these estimates have been made on the basis of the best information available on the date of preparation of these consolidated financial statements, certain events may occur in the future and oblige their amendment (upwards or downwards) over the next few years, which would be made prospectively.

3.35 Government grants

The Company recognizes an unconditional government grant in the income statement as part of other income when the associated cash flows are received.

3.36 Environment

In general, the company follows the criterion that the amounts allocated to environmental protection and improvement are considered as environmental expenditure. However, the amounts of certain items are considered as property, plant and equipment where appropriate.

Note 4 Financial risk management

4.1 Financial risk management policy

The Company's financial risk management policy is focused on safeguarding the stability and sustainability of the Company and its subsidiaries regarding all such relevant financial uncertainty components.

The Company's operations are subject to certain financial risk factors that may affect its financial position or results. The most significant risk exposures are market risk, liquidity risk, currency risk, credit risk, and interest rate risk, among others.

The financial risk management structure includes identifying, determining, analyzing, quantifying, measuring and controlling these events. Management and in particular, Finance Management, is responsible for constantly assessing the financial risk.

4.2 Risk Factors

(a) Credit risk

A global economic contraction may have potentially negative effects on the financial assets of the Company, which are primarily made up of financial investments and trade receivables, and the impact on of our customers could extend the payment terms of the Company's receivables by increasing its exposure to credit risk. Although measures are taken to minimize the risk, this global economic situation could mean losses with adverse material effects on the business, financial position or statement income of the Company's operations.

Trade receivables: to mitigate credit risk, the Company maintains active control of collection and requires the use of credit insurance. Credit insurance covering the risk of insolvency and unpaid invoices correspond to 90% of all receivables with third parties. The credit risk associated with receivables is analyzed in Note 13.2 b) and the related accounting policy can be found in Note 3.6.

Concentrations of credit risk with regard to trade receivables are reduced, owing to the Company's large number of clients and their distribution around the globe.

No significant modifications have been made during the period to risk models or parameters used in comparison to December 31, 2023, and no modifications have been made to contractual cash flows that have been significant during this period. In December 2023, cash flows received from insurance claims were included in the determination of the allowance for doubtful accounts. The effect of this change was not significant for the financial statements as of December 31, 2023.

Bank promissory notes: Negotiable promissory notes issued by a bank, payable upon maturity at the request of clients to guarantee the Company's collection. Bank promissory notes are accepted based on the classification used by the Industrial and Commercial Bank of China Limited (ICBC), which provides a list of accepted banks for clearing and/or collection of these documents based on their credit rating.

The classification used for bank promissory notes is as follows:

- S: Large banks
- T: Small-to-medium-sized banks
- T1: Financial services companies
- Others

ICBC Classification	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
S	5,894	112,545
T	13,626	13,218
T1	12,744	168
Others	7,476	-
Total	39,740	125,931

Financial investments: correspond to time deposits whose maturity date is greater than 90 days and less than 360 days from the date of investment, so they are not exposed to excessive market risks. The counterparty risk in implementation of financial operations is assessed on an ongoing basis for all financial institutions in which the Company holds financial investments.

The credit quality of financial assets that are not past due or impaired can be evaluated by reference to external credit ratings (if they are available) or historical information on counterparty late payment rates.

The following financial assets correspond to time deposits of less than 90 days and investment funds held in cash and cash equivalents as of December 31, 2024.

(b) Exchange risk

The functional currency of the company is the US dollar, due to its influence on the determination of price levels, its relation to the cost of sales and considering that a significant part of the Company's business is conducted in this currency. However, the global nature of the Company's business generates an exposure to exchange rate variations of several currencies with the US dollar. Therefore, the Company maintains hedge contracts to mitigate the exposure generated by its main mismatches (net between assets and liabilities) in currencies other than the US dollar against the exchange rate variation, updating these contracts periodically depending on the amount of mismatches to be covered in these currencies. Occasionally, subject to the approval of the Board, the Company ensures short-term cash flows from certain specific line items in currencies other than the US dollar.

A significant portion of the Company's costs, especially salary payments, are associated with the Peso. Therefore, an increase or decrease in its exchange rate with the US dollar will provoke a respective decrease or increase in these accounting costs, which would be reflected in the Company's statement income. By the quarter of 2024, approximately US\$831 million accumulated in expenses are associated with the Peso.

As of December 31, 2024, the Company held derivative instruments classified as hedges of foreign exchange risks associated with 100% of all the bond obligations denominated in UF, for a net liability fair value of US\$25.83 million. This air is explained primarily by the USD/CLP exchange rate observed at the end of the period. As of December 31, 2023, this value corresponds to a net asset amounting US\$ 2.52 million.

Furthermore, as of December 31, 2024, the Company held derivative instruments classified as hedges of foreign exchange risks associated with 100% of all nominative time deposits in UF and in pesos, at a net asset fair value of US 15.40 million. As of December 31, 2023, a net liability fair value was recognized for an amount of US\$18.30 million of net liabilities.

To ensure the difference between its assets and liabilities, the Company held the following derivative contracts as of December 31, 2024 (as the absolute value of the sum of their notional amounts): US\$ 5.90 million in Chilean peso/dollar derivative contracts, US\$ 40.35 million in euro/dollar derivative contracts, US\$ 28.92 million in South African rand/dollar derivative contracts, US\$ 302.65 million in Chinese renminbi/dollar derivative contracts, US\$ 7.79 million in Australian dollar/dollar derivative contracts and US\$ 8.00 million in other currencies.

These derivative contracts are held with domestic and foreign banks, which have the following credit ratings as of December 31, 2024.

Financial institution	Financial assets	Rating		
		Moody's	S&P	Fitch
MUFG	Derivative	P-1	-	F1
Merrill Lynch International	Derivative	P-1	A-2	F1+

Banco de Chile	Derivative	P-1	A-1	-
Barclays	Derivative	P-2	A-2	F1
HSBC	Derivative	P-2	A-2	F1+

(c) Interest rate risk

Interest rate fluctuations, primarily due to the uncertain future behavior of markets, may have a material impact on the financial results of the Company. Significant increases in the rate could make it difficult to access financing at attractive rates for the Company's investment projects.

The Company maintains current and non-current financial debt at fixed rates and SOFR rate plus spread.

As of December 31, 2024, approximately 7.1% of the Company's financial obligations are subject to variations in the SOFR rate. The long-term loans subject to SOFR plus a spread are held with Bank of Nova Scotia and Banco Santander/Kexim. The SOFR exposure is being hedged through derivatives.

(d) Liquidity risk

Liquidity risk relates to the funds needed to comply with payment obligations. The Company's objective is to maintain financial flexibility through a comfortable balance between fund requirements and cash flows from regular business operations, bank borrowings, bonds, short-term investments and marketable securities, among others. For this purpose, the Company keeps a high liquidity ratio¹, which enables it to cover current obligations with clearance. (As of December 31, 2024, this was 2.51 and 2.50 for December 31, 2023).

The Company has an important capital expense program which is subject to change over time.

On the other hand, world financial markets go through periods of contraction and expansion that are unforeseeable in the long-term and may affect The Company's access to financial resources. Such factors may have a material adverse impact on the Company's business, financial position and results of operations.

The Company constantly monitors the matching of its obligations with its investments, taking due care of the maturities of both, from a conservative perspective, as part of this financial risk management strategy. As of December 31, 2024, the Company had unused, available revolving credit facilities with banks, for a total of US\$1,676 million.

Cash and cash equivalents are invested in highly liquid mutual funds with an AAA risk rating.

¹ All current assets divided by all current liabilities.

The following table shows the maturity profile of the financial liabilities according to their contractual flows.

As of December 31, 2024 (Figures expressed in millions of US dollars)	Nature of undiscounted cash flows				
	Carrying amount	Less than 1 year	1 to 5 years	Over 5 years	Total
Bank borrowings	984.80	907.07	77.49	71.89	1,056.45

Total	5,242.65	1,915.48	1,108.89	2,801.06	5,825.43

(1) Leases subject to variability are not included.

As of December 31, 2024, the nominal value of the contracted cash flows in US dollars of the CCS contracts were ThUS\$ 374,140 (ThUS\$ 504,393 as of December 31, 2023).

4.3 Financial risk management

The Company documents and maintains methods for qualitatively measuring the effectiveness and efficiency of financial risk management strategies. These methods are consistent with SQM Group's risk management profile.

Note 5 Separate information on the main office, parent entity and joint action agreements

5.1 Parent's stand-alone assets and liabilities

Parent's stand-alone assets and liabilities	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Assets	9,794,433	9,751,095
Liabilities	(4,633,614)	(4,220,420)
Equity	5,160,819	5,530,675

5.2 Parent entity

Pursuant to Article 99 of the Securities Market Law, the CMF may determine that a company does not have a controlling entity in accordance with the distribution and dispersion of its ownership. On November 30, 2018, the CMF issued the ordinary letter No. 32,131 whereby it determined that the Pampa Group do not exert decisive power over the management of the Company since it does not have a predominance in the ownership that allows it to make management decisions. Therefore, the CMF has determined not to consider Pampa Group the controlling entity of the Company and that the Company does not have a controlling entity given its current ownership structure.

Note 6 Board of Directors, Senior Management and Key management personnel

6.1 Remuneration of the Board of Directors and Senior Management

(a) Board of directors

SQM S.A. is managed by a Board of Directors which is composed of 8 directors, who are elected for a three-year period. The Board of Directors was elected during the ordinary shareholders' meeting held on April 25, 2024, which included the election of two independent directors. Subsequent to such election, the following is the integration of the Company's committees:

- Directors' Committee: This committee is comprised by Gina Ocqueteau Tacchini, Antonio Gil Nieves and Hernán Büchi Buc, with Ms. Ocqueteau and Mr. Gil as independent members.
- The Company's Health, Safety and Environment Committee: This committee is comprised of Georges de Bourguignon, Patricio Contesse Fica and Gonzalo Guerrero Yamamoto.
- Corporate Governance Committee: This committee is comprised of Patricio Contesse Fica, Hernán Büchi Buc and Xu Tieying.

During the periods covered by these financial statements, there are no pending receivable and payable balances between the Company, its directors or members of Senior Management, other than those related to remuneration, fee allowances and profit-sharing. There were no transactions between the Company, its directors and senior management between January and December 2024.

(b) Board of Directors' Compensation

Board members' compensation for 2024, that is from April 25, 2024 to April 26, 2025, was determined by the Annual General Shareholders Meeting held on April 25, 2024. It is as follows:

- (i) The payment of a fixed, gross and monthly amount of UF 800 in favor of the Chairman of the Board of Directors, of UF 700 in favor of the vice-president of the board of directors and of UF 600 in favor of the remaining six directors and regardless of the number of Board of Directors' Meetings held or not held during the related month.
- (ii) A variable gross amount payable to the Chairman and Vice President of the board of Directors, equivalent to 0.12% of net income before tax earned by the Company (the "Profit") during the respective business year for each; and
- (iii) A variable gross amount payable to each Company director, excluding the Chairman and Vice President of the board of directors, equivalent to 0.06% of net income before tax earned by the Company during the respective business year.

For calculation of the variable compensation for 2024 that directors will be entitled to receive, the upper threshold will be set at 110% of the amount paid to the Company's directors as variable compensation for the 2023 business year.

Compensation of the Board for 2023, that is from April 25, 2023 to April 25, 2024, was determined by the Annual General Shareholders Meeting held on April 25, 2023. It is as follows:

- (iv) The payment of a fixed, gross and monthly amount of UF 800 in favor of the Chairman of the Board of Directors, of UF 700 in favor of the vice-president of the board of directors and of UF 600 in favor of the remaining six directors and regardless of the number of Board of Directors' Meetings held or not held during the related month.
- (v) A variable gross amount payable to the Chairman and Vice President of the board of directors equivalent to 0.12% of the net liquid income that the Company effectively obtains during the respective business year for each; and
- (vi) A variable gross amount payable in local currency to each Company director, excluding the Chairman and Vice President of the Company, equivalent to 0.06% of the net liquid income that the Company effectively obtains during the respective business year.

Net income for the 2023 fiscal year will be considered for the calculation of variable compensation for 2023. The amount of variable compensation for 2023 will be capped at 110% of the amount paid to the Company's directors for variable compensation in 2022.

These fixed and variable amounts for both periods shall not be challenged and those expressed in percentage terms shall be paid immediately after the respective annual general shareholders meeting approves the financial statements, the annual report, the account inspectors report and the external auditors report for the respective year.

Accordingly, the compensation and profit sharing paid to members of the Directors' Committee and the directors as of December 31, 2024, amounted to ThUS\$ 7,653 and as of December 31, 2023 to ThUS\$ 7,516.

(c) Directors' Committee compensation

Compensation for the Board of Directors is the same for both 2023 and 2024, as follows:

- (i) The payment of a fixed, gross and monthly amount of UF 200 in favor of each of the 3 directors who were members of the Directors' Committee, regardless of the number of meetings of the Directors' Committee that have or have not been held during the month concerned.
- (ii) The payment in domestic currency and in favor of each of the 3 directors of a variable and gross amount equivalent to 0.02% of total net income from the respective business year 2023 business year, and 0.02% of the net income before tax obtained by the Company during the respective business year for 2024.

For calculation of the variable compensation for 2024 that directors will be entitled to receive, the upper threshold will be set at 110% of the amount paid to the Company's directors as variable compensation for the 2023 business year.

Profit for the 2023 fiscal year will be considered for the calculation of variable compensation for 2023. The amount of variable compensation for 2023 will be capped at 110% of the amount paid to the Company's directors for variable compensation in 2022.

These fixed and variable amounts for both periods shall not be challenged and those expressed in percentage terms shall be paid immediately after the respective annual general shareholders meeting approves the financial statements, the annual report, the account inspectors report and the external auditors report for the respective year.

(d) Health, Safety and Environmental Matters Committee:

The remuneration of this committee for the 2023 period was composed of the payment of a fixed, gross, monthly amount of UF 100 for each of the 3 directors on the committee regardless of the number of meetings it has held. For the 2024 period, this remuneration remains unchanged.

(e) Corporate Governance Committee

The remuneration for this committee for the 2023 period was composed of the payment of a fixed, gross, monthly amount of UF 100 for each of the 3 directors on the committees regardless of the number of meetings it has held. For the 2024 period, this remuneration remains unchanged.

(f) Guarantees constituted in favor of the directors

No guarantees have been constituted in favor of the directors.

(g) Senior management compensation:

- (i) This includes a monthly fixed salary and variable performance bonuses. (See Note 6.2)

- (ii) The Company has an annual bonus plan based on goal achievement and individual contribution to the Company's results. These incentives are structured as a minimum and maximum number of gross monthly salaries and are paid once a year.
 - (iii) In addition, there are retention bonuses for its executives (see Note 18.6)
- (h) Guarantees pledged in favor of the Company's management

No guarantees have been pledged in favor of the Company's management.

- (i) Pensions, life insurance, paid leave, shares in earnings, incentives, disability loans, other than those mentioned in the above points.

The Company's Management and Directors do not receive or have not received any benefit during the ended December 31, 2024 and the year ended December 31, 2023 or compensation for the concept of pensions, life insurance, paid time off, profit sharing, incentives, or benefits due to disability other than those mentioned in the preceding points.

6.2 Key management personnel compensation

As of December 31, 2024 and 2023, the number of the key management personnel is 176 and 153, respectively.

Key management personnel compensation	For the period ended December 31, 2024	For the period ended December 31, 2023
	ThUS\$	ThUS\$
Key management personnel compensation	31,061	37,418

Please also see the description of the compensation for executives in Note 18.6.

9.4 Disclosure of interests in joint ventures

a) Transactions conducted in 2024

- On March 27, 2024, the Company acquired 100% interest ownership in SQM Vitas Perú S.A.C., starting its consolidation in the second quarter of 2024. The purchase price was for ThUS\$ 10,116.
- During the first quarter of 2024, the share percentage in Pirra Lithium Pty Ltd increased to 40% for an amount of ThUS\$ 3,544.
- On May 9, 2024, the company acquired an additional 30.57% of Azure Minerals for ThUS\$356,846 through SH Mining Pty Ltd., bringing total interest to 50%. As of December 31, 2023, the Company held a 19.43% interest, presented in other non-current financial assets. Further details are available in the description in Note 13.1.

b) Transactions conducted in 2023

- On December 19, 2023, the joint venture SQM Vitas Fzco sold its 100% interest in SQM Vitas Brasil, generating an effect on the consolidated financial statements of a loss of ThUS\$2.6. Prior to the sale of Vitas Brasil, Vitas Brasil distributed dividends to SQM Vitas Fzco for ThUS\$14,282. Subsequently, in 2024 SQM Vitas Fzco distributed and paid dividends to the Company in the amount of ThUS\$12,500.
- During the fourth quarter of 2023, the Company made an investment of ThUS\$3,544 in Pirra Lithium Pty Ltd with an equity interest of 37.5%. The Company has the right to nominate a director and anti-dilution rights in terms of its shareholding. In addition, it has the right to nominate a member of the technical committee in charge of exploration plans and budgets.
- On December 19, 2023, the Company made an agreement with SQM Vitas to acquire 50% of the SQM Vitas Peru joint venture, which will be completed during the second quarter of 2024 subject to compliance with certain regulatory requirements.

9.5 Joint Operations.

In 2017, the Company acquired 50% of assets of the Mt Holland lithium project in Western Australia. The Mt Holland lithium project consists of designing, constructing and operating a mine, concentrator and refinery to produce lithium hydroxide.

As of December 31, 2024, a total of US\$840.9 million has been contributed to the Mt Holland lithium project.

Note 10 Cash and cash equivalents

10.1 Types of cash and cash equivalents

As of December 31, 2024 and 2023, cash and cash equivalents are detailed as follows:

Cash	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Cash on hand	663	33
Cash in banks	925,380	676,282
Other demand deposits	-	709
Total Cash	926,043	677,024

Cash equivalents	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Short-term deposits, classified as cash equivalents	322,500	23,545
Short-term investments, classified as cash equivalents	129,308	340,800
Total cash equivalents	451,808	364,345
Total cash and cash equivalents	1,377,851	1,041,369

10.2 Short-term investments, classified as cash equivalents

As of December 31, 2024 and 2023, the short-term investments classified as cash equivalents relate to mutual funds (investment liquidity funds) for investments in:

Institution	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Legg Mason - Western Asset Institutional Cash Reserves	122,337	312,924
JP Morgan US dollar Liquidity Fund Institutional	1,974	22,845
Banco Crédito e Inversiones	4,997	5,031
Total	129,308	340,800

Short-term investments are highly liquid mutual funds that are basically invested in short-term fixed rate notes in the U.S. and in Chile market.

10.3 Amount restricted cash balances

The Company has granted a guarantee consisting of financial instruments, specified in deposits, custody and administration to Banco de Chile, for its subsidiary Isapre Norte Grande Ltda., in compliance with the provisions of the Superintendence of Health, which regulates social security health institutions.

According to the regulations of the Superintendence of Health, this guarantee is for the total amount payable to its affiliates and medical providers. Banco de Chile reports the current value of the guarantee to the Superintendence of Health and Isapre Norte Grande Ltda. on a daily basis.

As of December 31, 2024 and 2023 pledged assets are as follows:

Restricted cash balances	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Isapre Norte Grande Ltda.	942	950
Total	942	950

10.4 Short-term deposits, classified as cash equivalents

The detail at the end of each balance date is as follows:

Receiver of the deposit	Type of deposit	Original Currency	Interest Rate	Placement date	Expiration date	Principal	Interest accrued to-date	As of December 31, 2024

Total						23,490	55	23,545

Note 11 Inventories

The composition of inventory at each period-end is as follows:

Type of inventory	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Raw material	58,212	61,098
Production supplies	91,914	77,810
Products-in-progress	698,134	744,217
Finished product	853,925	891,469
Total	1,702,185	1,774,594

As of December 31, 2024, the Company held caliche stockpiles, solutions in solar ponds and intermediary salts amounting ThUS\$ 462,451 and as of December 31, 2023 was ThUS\$ 503,318 (including products in progress). As of December 31, 2024, bulk inventories recognized within work in progress were ThUS\$ 249,105, while as of December 31, 2023 this value amounted to ThUS\$ 221,559. As of December 31, 2024, bulk inventories recognized as part of finished products amounted to ThUS\$ 138,625, while as of December 31, 2023, this balance was ThUS\$ 164,029.

As of December 31, 2024 and 2023, inventory allowances amounted to ThUS\$ 114,632 and ThUS\$ 133,768, respectively. For finished and in-process products, recognized allowances include the provision associated with the lower value of stock (considers lower realizable value, uncertain future use, reprocessing costs of off-specification products, etc.), provision for inventory differences and the provision for potential errors in the determination of inventories (e.g., errors in topography, grade, moisture, etc.). (See Note 3.15).

For raw materials, supplies, materials and parts, the lower value provision was associated with the proportion of defective materials and potential differences.

The breakdown of inventory allowances is detailed as follows:

Type of inventory	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Raw material and supplies for production	5,082	7,724
Products in progress	75,100	104,970
Finished product	34,450	21,074
Total	114,632	133,768

The Company has not pledged inventory as collateral for the periods indicated above.

As of December 31, 2024 and 2023, movements in provisions are detailed as follows:

Reconciliation	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Beginning balance	133,768	104,057
Decrease (increase) in carrying amount	(14,517)	32,926
Additional provision for differences in inventories	171	455
Provision used	(4,790)	(3,670)
Total changes	(19,136)	29,711
Final balance	114,632	133,768

For further details, see accounting policy for inventory measurement in Note 3.15

Note 12 Related party disclosures

12.1 Related party disclosures

Balances pending at the period end are not guaranteed, accrue no interest and are settled in cash, no guarantees have been delivered or received for trade and other receivables due from related parties or trade and other payables due to related parties.

12.2 Relationships between the parent and the entity

Pursuant to Article 99 of Law of the Securities Market Law, the CMF may determine that a company does not have a controlling entity in accordance with the distribution and dispersion of its ownership. On November 30, 2018, the CMF issued the ordinary letter No. 32,131 whereby it determined that Pampa Group, do not exert decisive power over the management of the Company since it does not have a predominance in the ownership that allows it to make management decisions. Therefore, the CMF has determined not to consider Pampa Group as the controlling entity of the Company and that the Company does not have a controlling entity given its current ownership structure.

12.3 Detailed identification of related parties and subsidiaries

As of December 31, 2024 and 2023, the detail of entities that are identified as subsidiaries or related parties of the SQM Group is as follows:

Bank of Nova Scotia	51,025	353,592
Sumitomo Mitsui Banking	-	91,884
KBC Bank	22,397	-
Banco Estado	90,975	-
Total	1,061,262	1,316,797

- (1) Corresponds to term deposits whose maturity date is greater than 90 days and less than 360 days from the investment date constituted in the aforementioned financial institutions.
- (2) Correspond to forwards and options that were not classified as hedging instruments (See detail in Note 13.3).
- (3) As of December 31, 2024, there are no collateral guarantees. As of December 31, 2023, collateral guarantees were recorded for an amount of MUS\$5,590
- (4) During the first quarter of 2023, the Company made an investment of ThUS\$13,480 to acquire a 19.99% interest in Azure Minerals Limited (a company listed on the Australian Stock Exchange). In the third and fourth quarters, the Company made additional investments of ThUS\$12,904 and ThUS\$4,317, respectively, to maintain its percentage of ownership.

On May 9, 2024, the Company acquired an additional share in this entity, reaching a 50% ownership stake (for more details, see Note 9.4, section (a)). Consequently, this investment was reclassified under the joint ventures category. At the time of reclassification, the cumulative valuation recorded in the reserve for gains and losses on financial assets was transferred to retained earnings, totaling MUS\$186,809. This amount reflects the total change in the fair value assessment from the initial acquisition of 19.99% to reaching the 50% ownership stake.

- (5) In the first quarter of 2024, the Company invested an additional ThUS\$ 4,380 in Altilium Metals Ltd., bringing the total investment to ThUS\$ 12,000 and increasing its interest in the associate to 11%. During the third quarter of 2023, the Company invested ThUS\$ 7,620 to acquire a 3% interest in Altilium Metals Ltd.
- (6) In the first quarter of 2024, the Company contributed ThUS\$ 1,285 to acquire a 14.86% interest in Salinity Solutions Ltd. During the third quarter of 2023, the Company contributed ThUS\$ 3,000 to acquire a 6.82% interest in Electric Era Technologies Inc.
- (7) During the third quarter of 2024 and as a result of the Company's loss of significant influence over this investment (for further details see note 8.3 letter a), the investment in SAS Adionics previously held as investment in associates was reclassified to other non-current financial assets when the Company irrevocably classified it as equity financial assets measured at fair value through other comprehensive income.

Considering that these investments (5) (6) and (7) are recent, their carrying amount is estimated to approximate their fair value.

13.2 Trade and other receivables

Trade and other receivables	As of December 31, 2024			As of December 31, 2023

(1) During the third quarter of 2022, the Company signed an agreement for an option to potentially acquire a battery-grade lithium hydroxide monohydrate plant with a production capacity of approximately 20,000 tons per year from lithium sulfate salts. In addition, the transaction secures rights to adjacent land for future expansion.

The transaction became effective in April 2024, with the acquisition of all the shares of Sichuan Dixin New Energy Co. Ltd. and the recognition of an intangible asset for ThUS\$ 10,130 (see note 15, Intangible assets). Regarding the deposit of CNY 204.5 million (ThUS\$ 28,152) granted to the seller in the first quarter of 2023, ThUS\$ 16,071 has been reimbursed with the remaining amount being used as a guarantee while certain requirements established in the contract are fulfilled.

As of December 31, 2024 and 2023, the renegotiated portfolio represented 0% of total trade receivables.

On August 2023, the Company recouped the CCS with Santander Bank who had hedged the Series Q bond, by moving the UF/USD exchange rate upwards. This change increased the USD value of the bond by ThUS\$16,440 and its interest payable. Santander Bank paid the company ThUS\$17,320.

(*) The balances in the “Total Realized” column consider the effects of the contracts in effect from January 1 to December 31, 2024, and from January 1 to December 31, 2023.

O	58,748	UF	02/01/2030
P	134,228	UF	01/15/2028
Q	123,370	UF	01/06/2030

Effectiveness

The Company uses CCS, Forwards and IRS to hedge the potential financial risk associated with exchange rate and interest rate volatility. The objective is to hedge the exchange rate and inflation financial risks associated with bond obligations, exchange rate financial risks associated with investments in Chilean pesos, exchange rate financial risk associated with projects under construction in Australian dollars and interest rate financial risk associated with bank loans. Hedges are documented and qualitatively assessed to demonstrate their effectiveness based on a comparison of their critical terms.

The hedges used by the Company as of the reporting date are highly effective given that the amounts, currencies, exchange dates and rates of the hedged item and the hedge are aligned, maintaining a close economic relationship.

13.4 Financial liabilities

Other current and non-current financial liabilities

As of December 31, 2024 and 2023, the detail is as follows:

Other current and non-current financial liabilities	As of December 31, 2024			As of December 31, 2023

Total financial liabilities	1,657,928	3,661,383	5,319,311	1,724,324	3,270,388	4,994,712

13.7 Fair value measurement of finance assets and liabilities

The fair value hierarchy is detailed as follows:

- (a) **Level 1:** The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.
- (b) **Level 2:** The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- (c) **Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

Fair value measurement of assets and liabilities	As of December 31, 2024			Measurement Methodology

Total changes	(21)	7,619	-	(950)	5,678	12,326
Closing balance	18,299	25,458	-	855	28,581	73,193

The Company's lease activities included the following aspects:

- The nature of the Company's lease activities is related to contracts focused primarily on business operations, mainly rights-of-use to equipment and real estate,
- The Company does not estimate any significant future cash outflows that would potentially expose the Company, and these are likewise not reflected in the measurement of lease liabilities, related to concepts such as: (i) Variable lease payments, (ii) Expansion options and termination options, (iii) Guaranteed residual value and (iv) Leases not yet undertaken but committed by the Company.
- These are not subject to restrictions or agreements imposed by contracts.

There were no sales transactions with leasebacks in the period.

14.2 Lease liabilities

Lease liabilities	As of December 31, 2024		As of December 31, 2023	
	Current	Non-Current	Current	Non-Current
	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Lease liabilities	23,011	60,801	18,192	56,966
Total	23,011	60,801	18,192	56,966

(a) As of December 31, 2024 and 2023, current lease liabilities are analyzed as follows:

(1) The net balance of “Other Increases (Decreases)” corresponds to all those items that are reclassified to or from “Property, Plant and Equipment” and they can have the following origin: (i) work in progress which is expensed to statement of income, forming part of operating costs or other expenses per function, as appropriate; (ii) the variation representing the purchase and use of materials and spare parts; (iii) projects corresponding mainly to exploration expenditures and ground studies that are reclassified to the item other non-current financial assets; (iv) software that is reclassified to “Intangibles (v) Provisions related to the investment plan and assets related to closing the site.

(2) See Note 22.5. Corresponds to impairment of specific assets, identified and related to the iodine business, for which it was defined these will not be considered to be used in the operation due to their specific characteristics.

16.3 Detail of property, plant and equipment pledged as guarantee

There are no restrictions in title or guarantees for compliance with obligations that affect property, plant and equipment.

16.4 Cost of capitalized interest, property, plant and equipment

The rates and costs for capitalized interest in the period of property, plant and equipment are detailed as follows:

Capitalized interest costs	December 31, 2024	December 31, 2023
	ThUS\$	ThUS\$
Weighted average capitalization rate of capitalized interest costs	5%	5%
Amount of interest costs capitalized in the period ThUS\$	67,126	43,331

Note 17 Other current and non-current non-financial assets

As of December 31, 2024 and 2023, the detail of “Other Current and Non-current Assets” is as follows:

Other non-financial assets, current	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Domestic Value Added Tax	125,963	63,973
Foreign Value Added Tax	26,315	24,889
Prepaid mining licenses	3,326	1,299
Prepaid insurance	12,589	15,022
Other prepayments	1,391	3,204
Reimbursement of Value Added Tax to exporters	24,601	19,929
Other taxes	4,189	6,142
Other assets	2,331	2,292
Total	200,705	136,750

Other non-financial assets, non-current	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Exploration and evaluation expenses	65,510	57,458
Guarantee deposits	942	950
Foreign VAT (1)	289,921	308,084
Other non-current assets	7,793	7,208
Total	364,166	373,700

(1) Value-added taxes to be recovered from the commercial office of SQM Shanghai Chemicals Co. Ltd., where that recovery is expected to take longer than 12 months.

Movements in expenditure on exploration projects and ground studies as of December 31, 2024 and 2023:

Conciliation	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Opening balance	57,458	44,023
Changes		
Additions	10,701	12,002
Reclassifications from/to short-term (inventory)	(197)	1,049
Amortization of ground studies	(733)	(2,131)
Reclassification from construction in progress	(1,719)	2,515
Total changes	8,052	13,435
Ending balance (*)	65,510	57,458

As of the presentation date, no revaluations of assets for exploration and assessment of mineral resources have been conducted.

(*) This corresponds to the sum of expenditures for economically feasible exploration and exploration under operation (long-term).

Mineral resource exploration, evaluation and Exploitation expenditure

Given the nature of operations of the Company and the type of exploration it undertakes, disbursements for exploration can be found in 4 stages: Execution, economically feasible, not economically feasible and in exploitation:

(a) Not economically feasible: Exploration and evaluation disbursements, once finalized and concluded to be not economically feasible, will be charged to income. As of December 31, 2024 and 2023, there were no disbursements for this concept.

(b) Execution: Disbursements for exploration and evaluation under implementation and therefore prior to determination of economic feasibility, are presented as part of property, plant and equipment as constructions in progress. As of December 31, 2024 and 2023, this amounts to ThUS\$14,787 and ThUS\$9,062.

(c) Economically feasible: Exploration and assessment expenditures resulting in studies concluding that their economic feasibility is viable are classified under “Other non-current non-financial assets”.

Prospecting	Type of Exploration	As of December 31, 2024	As of December 31, 2023
		ThUS\$	ThUS\$
Chile (1)	Metallic/Non-Metallic	59,826	50,844
Total		59,826	50,844

(1) The value presented for Chile is composed as of December 2024 for ThUS 12,084 corresponding to non-metallic explorations and evaluations and ThUS\$ 47,742 associated with metallic explorations. In December 2023, the amounts of non-metallic and metallic explorations were ThUS\$ 13,803 and ThUS\$ 37,041, respectively.

Prospecting conciliation	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Opening balance	50,844	36,327
Additions	10,701	12,002
Reclassifications from Exploration in execution - Chile	(1,719)	2,515
Reclassifications to Exploration in Exploitation - Chile	-	-
Total changes	8,982	14,517
Total	59,826	50,844

(d) In Exploitation: Caliche exploration disbursements that are found in this area are amortized based on the material exploited, the portion that is expected to be exploited in the following 12 months is presented as current assets in the “Inventories in process” and the remaining portion is classified as “Other Non-current Non-Financial Assets”.

Note 18 Employee benefits

18.1 Provisions for employee benefits

Classes of benefits and expenses by employee	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Current		
Performance bonds and operational targets	31,546	23,946
Total	31,546	23,946
Non-current		
Profit sharing and bonuses	26,970	18,428
Severance indemnity payments	38,637	43,578
Total	65,607	62,006

18.2 Policies on defined benefit plan

This policy is applied to all benefits received for services provided by the Company's employees. This is divided as follows:

- a) Short-term benefits for active employees are represented by salaries, social welfare benefits, paid time off, sickness and other types of leave, profit sharing and incentives and non-monetary benefits; e.g., healthcare service, housing, subsidized or free goods or services. These will be paid in a term which does not exceed twelve months. The Company maintains incentive programs for its employees, which are calculated based on the net result at the close of each period by applying a factor obtained from an evaluation based on their personal performance, the Company's performance and other short-term and long-term indicators.
- b) Staff severance indemnities are agreed and payable based on the final salary, calculated in accordance with each year of service to the Company, with certain maximum limits in respect of either the number of years or in monetary terms. In general, this benefit is payable when the employee or worker ceases to provide his/her services to the Company and there are a number of different circumstances through which a person can be eligible for it, as indicated in the respective agreements; e.g. retirement, dismissal, voluntary retirement, incapacity or disability, death, etc. See Note 18.3.
- c) Obligations after employee retirement, described in Note 18.4.
- d) Retention bonuses for a group of Company executives, described in Note 18.6.

18.3 Other long-term benefits

The actuarial assessment method has been used to calculate the Company's obligations with respect to staff severance indemnities, which relate to defined benefit plans consisting of days of remuneration per year served at the time of retirement under conditions agreed in the respective agreements established between the Company and its employees.

Under this benefit plan, the Company retains the obligation to pay staff severance indemnities related to retirement, without establishing a separate fund with specific assets, which is referred to as *not funded*.

Benefit payment conditions

The staff severance indemnity benefit relates to remuneration days for years worked for the Company without a limit being imposed in regard of amount of salary or years of service. It applies when employees cease to work for the Company because they are made redundant or in the event of their death. This benefit is applicable up to a maximum age of 65 for men and 60 for women, which are the usual retirement ages according to the Chilean pensions system as established in Decree Law 3,500 of 1980.

Methodology

The determination of the defined benefit obligation is made under the requirements of IAS 19 "Employee benefits".

18.4 Post-employment benefit obligations

Our subsidiary SQM NA, together with its employees established a pension plan until 2002 called the "SQM North America Retirement Income Plan". This obligation is calculated measuring the expected future forecast staff severance indemnity obligation using a net salary gradual rate of restatements for inflation, mortality and turnover assumptions, discounting the resulting amounts at present value using the interest rate defined by the authorities.

For workers under contract, since 2003, SQM NA offers benefits related to pension plans based on the 401-K system to its employees, which does not generate obligations for the Company.

As of December 31, 2024 and 2023, the value of assets associated with the SQM NA pension plan amounts to ThUS\$5,266 and ThUS\$5,095, respectively.

Reconciliation of changes in benefit obligations	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Benefit obligations at the start of the year	287	279
Interest cost	12	12
Actuarial loss	54	180
Benefits paid	(81)	(185)
Total	272	286

Reconciliation of changes in plan assets	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Fair value of plan assets at the start of the year	5,383	4,983
Real return (loss) on plan assets	236	585
Benefits paid	(81)	(185)
Fair value of plan assets at the end of the year	5,538	5,383
Net non-current assets	5,266	5,095
Items not yet recognized as components of net periodic pension costs:		
Net actuarial gain at the start of the year	249	59
Gains	(49)	190
Adjustment to recognize the minimum pension obligation	200	249

Service cost or benefits received during the year	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Financial cost	12	12
Real loss on plan assets	(231)	(214)
Net periodic pension expenses	(219)	(202)

18.5 Staff severance indemnities

As of December 31, 2024 and 2023, severance indemnities calculated at the actuarial value are as follows:

Staff severance indemnities	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Opening balance	(43,578)	(34,899)
Current cost of service	(1,889)	(4,624)
Interest cost	(2,549)	(2,236)
Actuarial gain loss	3,149	(5,947)
Exchange rate difference	5,039	769
Benefits paid during the year	1,191	3,359
Total	(38,637)	(43,578)

(a) Actuarial assumptions

The liability recorded for staff severance indemnity is valued at the actuarial value method, using the following actuarial assumptions:

Actuarial assumptions	As of December 31, 2024	As of December 31, 2023	Annual/Years
Mortality rate	RV-2020/CB-2020	RV - 2020/CB-2020	
Discount interest rate	5.75%	5.32%	
Inflation rate	3.00%	3.00%	
Voluntary retirement rate:			
Men	3.82%	3.82%	Annual
Women	3.82%	3.82%	Annual
Salary increase	4.01%	4.01%	Annual
Retirement age:			
Men	65	65	Years
Women	60	60	Years

(b) Sensitivity analysis of assumptions

As of December 31, 2024 and 2023, the Company has conducted a sensitivity analysis of the main assumptions of the actuarial calculation, determining the following:

Sensitivity analysis as of December 31, 2024	Effect + 100 basis points	Effect - 100 basis points
	ThUS\$	ThUS\$
Discount rate	(2,352)	2,647
Employee turnover rate	(309)	345

Sensitivity analysis as of December 31, 2023	Effect + 100 basis points	Effect - 100 basis points
	ThUS\$	ThUS\$
Discount rate	(2,575)	2,898
Employee turnover rate	(338)	378

Sensitivity relates to an increase/decrease of 100 basis points.

18.6 Executive compensation plan

The Company currently has a compensation plan with the purpose of motivating the Company's executives and encouraging them to remain with the Company. There are two compensation plans in effect as of December 31, 2024:

I) Financial target compensation plan

(a) Plan characteristics

This compensation plan is paid in cash.

(b) Plan participants and payment dates

A total of 40 Company executives are entitled to this benefit, provided they remain with the Company until year end of 2025. The payment dates, where relevant, will be during the first quarter of 2026.

This compensation plan was approved by the Board and was first applied on January 1, 2022. The liability related to this compensation plan amounts to ThUS\$ 26,621 and ThUS\$ 18,428 as of December 31, 2024 and 2023 respectively. The income statement was charged with ThUS\$ 8,193 and ThUS\$ 9,993 during the periods ended December 31, 2024 and 2023, respectively.

Note 19 Provisions and other non-financial liabilities

19.1 Types of provisions

Types of provisions	As of December 31, 2024			As of December 31, 2023		
	Current	Non-current	Total	Current	Non-current	Total
	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$	ThUS\$
Provision for legal complaints (1)	8,957	106	9,063	106	1,195	1,301
Provision for dismantling, restoration and rehabilitation cost (2)	-	53,011	53,011	-	58,459	58,459
Other provisions current (3)	302,240	200	302,440	392,216	796	393,012
Total	311,197	53,317	364,514	392,322	60,450	452,772

(1) These provisions correspond to legal expenses of issues pending resolution.

(2) Sernageomin commitments for the restoration of the location of the production sites have been incorporated. In addition to SQM Australia Pty. This cost value is calculated at discounted present value, using flows associated with plans with an evaluation horizon that fluctuates between 8 and 25 years for potassium-lithium operations and 11 to 22 years for nitrate-iodine operations. The rates used to discount future cash flows are based on market rates for the aforementioned terms.

(3) See Note 19.2.

19.2 Description of other provisions

Current provisions, other short-term provisions	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Rent under lease contract (1)	265,054	354,205
Provision for additional tax related to foreign loans	2,602	1,641
End of agreement bonus	5,279	6,979
Other bonuses to workers	7,701	6,933
Other bonuses, general staff	2,912	-
Directors' per diem allowance	5,143	4,676
Miscellaneous provisions	13,549	17,782
Total	302,240	392,216

(1) Payment Obligations for the lease contract with CORFO: These correspond to the obligations assumed in the Lease Agreement. Our subsidiary SQM Salar holds exclusive rights to exploit the mineral resources in an area covering approximately 140,000 hectares of land in the Salar de Atacama in northern Chile, of which SQM Salar is only entitled to exploit the mineral resources in 81,920 hectares. These rights are owned by Corfo and leased to SQM Salar pursuant to the Lease Agreement. Corfo cannot unilaterally amend the Lease Agreement and the Project Agreement, and the rights to exploit the resources cannot be transferred. The Lease Agreement establishes that SQM Salar is responsible for making quarterly lease payments to Corfo according to specified percentages of the value of production of minerals extracted from the Salar de Atacama brines, maintaining Corfo's rights over the Mining Exploitation Concessions and making annual payments to the Chilean government for such concession rights. The Lease Agreement was entered into in 1993 and expires on December 31, 2030.

On January 17, 2018, SQM and CORFO reached an agreement to end an arbitration process directed by the arbitrator, Mr. Héctor Humeres Noguera, in case 1954-2014 of the Arbitration and Mediation Center of Santiago Chamber of Commerce and other cases related to it.

The agreement signed in January 2018 and amended in 2020, includes important amendments to the lease agreement and project agreement signed between CORFO and SQM in 1993. The main modifications became effective on April 10, 2018 and require (i) higher lease payments as a result of increased lease rates associated with the sale of the different products produced in the Salar de Atacama, including lithium carbonate, lithium hydroxide and potassium chloride; (ii) SQM Salar commits to contribute between US\$10.8 and US\$18.9 million per year to research and development efforts, between US\$10 and US\$15 million per year to the communities near the Salar de Atacama basin, and to annually contribute 1.7% of SQM Salar's total annual sales to regional development; (iii) Corfo authorization for CCHEN to establish a total production and sales limit for lithium products produced in the Salar de Atacama of up to 349,553 metric tons of lithium metal equivalent (1,860,671 tons of lithium carbonate equivalent), which is in addition to the approximately 64,816 metric tons of lithium metal equivalent (345,015 tons of lithium carbonate equivalent) remaining from the originally authorized amount; (iv) provisions relating to the return of real estate and movable property leased to Corfo, the transfer of environmental permits to Corfo at no cost and the granting of purchase options to Corfo for production facilities and water rights in the Salar de Atacama upon termination of Corfo agreements; and (v) prohibitions on the sale of lithium brine extracted from leased mining concessions.

The fee structure is as follows:

Price US\$/MT Li ₂ CO ₃	Lease rental rate
\$0 - \$4,000	6.8%
\$4,000 - \$5,000	8.0%
\$5,000 - \$6,000	10.0%
\$6,000 - \$7,000	17.0%
\$7,000 - \$10,000	25.0%
> \$10,000	40.0%

Price US\$/MT LiOH	Lease rental rate
\$0 - \$5,000	6.8%
Over \$5,000 - \$6,000	8.0%
Over \$6,000 - \$7,000	10.0%
Over \$7,000 - \$10,000	17.0%
Over \$10,000 - \$12,000	25.0%
Over \$12,000	40.0%

Price US\$/MT KCl	Lease rental rate
\$0 - \$300	3.0%
Over \$300 - \$400	7.0%
Over \$400 - \$500	10.0%
Over \$500 - \$600	15.0%
Over \$600	20.0%

On May 31, 2024, the Company reported having entered into an association agreement with Codelco to develop extractive and productive activities to produce lithium products, potassium products and other products extracted from Corfo's properties in the Salar de Atacama, through the merger by incorporation of Codelco's subsidiary, Minera Tarar SpA, into the Company's subsidiary, SQM Salar SpA, subject to the terms established in the Association Agreement.

The effectiveness of the association agreement is subject to a series of conditions precedent, as well as the execution of contracts with Corfo to (i) increase the amount of lithium that SQM Salar SpA can exploit from the Salar de Atacama between the years 2025 and 2030 and (ii) establish the right to exploit lithium from the Salar de Atacama between the years 2031 and 2060.

To date there are no impacts to the consolidated financial statements arising from this agreement.

Accrued vacations	34,796	35,902
Other current liabilities	353	994
Total	128,039	187,305

(1) Deferred income corresponds mainly to payments received in advance for the sale of goods, which will be recognized in income in the short term.

Note 20 Disclosures on equity

The detail and movements of equity accounts are shown in the consolidated statement of changes in equity.

20.1 Capital management

The main object of capital management relative to the administration of the Company's financial debt and equity is to ensure the regular conduct of operations and business continuity in the long term, with the constant intention of maintaining an adequate level of liquidity and in compliance with the financial safeguards established in the debt contracts in force. Within this framework, decisions are made in order to maximize the value of the company.

Capital management must comply with, among others, the limits contemplated in the Financing Policy approved by the Shareholders' Meeting, which establishes a maximum consolidated indebtedness level of 1 times the debt-to-equity ratio. This limit can be exceeded only if the Company's management has first obtained express approval at an Extraordinary Shareholders' Meeting.

The Company's controls over capital management are based on the following ratios:

Capital Management	As of December 31, 2024	As of December 31, 2023	Description (1)	Calculation (1)
Net Financial Debt/cash (ThUS\$)	2,303,673	2,086,717	Financial Debt – Financial Resources	Other current Financial Liabilities + Other Non-Current Financial Liabilities – Cash and Cash Equivalents – Other Current Financial Assets – Hedging Assets, non-current
Liquidity	2.51	2.50	Current Assets divided by Current Liabilities	Total Current Assets / Total Current Liabilities
ROE	(7.65) %	36.28%	Net income for the year divided by Total Equity	Net income for the year / Equity
Adjusted EBITDA (ThUS\$)	1,483,571	3,180,071	Adjusted EBITDA	EBITDA – Other income – Other gains (losses) - Share of Profit of associates and joint ventures accounted for using the equity method + Other expenses by function + Net impairment gains on reversal (losses) of financial assets – Finance income – Currency differences, Net income + Depreciation and Amortization Expense adjustments + Finance Costs + Income Tax
EBITDA (ThUS\$)	1,514,382	3,226,202	EBITDA	(Gross Profit – Administrative Expenses) / (Total Assets – Cash and Cash Equivalents – Other Current Financial Assets – Other Non-Current Financial Assets – Equity accounted Investments) (LTM)
ROA	13.60%	32.20%	Adjusted EBITDA – Depreciation divided by Total Assets net of financial resources less related parties' investments	Net Financial Debt / Total Equity
Indebtedness	0.44	0.37	Net Financial Debt on Equity	

The Company's capital requirements change according to variables such as: working capital needs, new investment financing and dividends, among others. The Company manages its capital structure and makes adjustments based on the predominant economic conditions so as to mitigate the risks associated with adverse market conditions and take advantage of the opportunities there may be to improve the liquidity position of the Company. Also, the Company is also committed to provide quarterly financial information.

There have been no changes in the capital management objectives or policy within the years reported in this document, no breaches of external requirements of capital imposed have been recorded. There are no contractual capital investment commitments.

20.2 Operational restrictions and financial limits

Bond issuance contracts in the local market require the Company to maintain a Total Borrowing Ratio no higher than 1 for Series H, Series O and Series Q bonds, calculated over the last consecutive 12 months.

Capital management must ensure that the Borrowing Ratio remains below 1.0. As of December 31, 2024 this ratio was 0.44.

The financial restrictions with respect to the bonds issued by the Company for the periods ended December 31, 2024 and 2023.

Fulfilled YES/NO	yes	yes	yes	yes

Bond issuance contracts in foreign markets require that the Company does not merge, or dispose of, or encumber all or a significant portion of its assets, unless all of the following conditions are met: (i) the legal successor is an entity constituted under the laws of Chile or the United States, which assumes all the obligations of the Company in a supplemental indenture, (ii) immediately after the merger or disposal or encumbrance there is no default by the issuer, and (iii) the issuer has provided a legal opinion indicating that the merger or disposal or encumbrance and the supplemental indenture comply with the requirements of the original indenture.

The Company and its subsidiaries are complying with all the aforementioned limitations, restrictions and obligations.

20.3 Disclosures on share capital

Issued share capital is divided into Series A shares and Series B shares. All such shares are nominative, have no par value and are fully issued, subscribed and paid.

Series B shares may not exceed 50% of the total issued, subscribed and paid-in shares of the Company and have a limited voting right, in that all of them can only elect one director of the Company, regardless of their equity interest and preferences:

- (a) require the calling of an Ordinary or Extraordinary Shareholders' Meeting when requested by Series B shareholders representing at least 5% of the issued shares thereof; and
- (b) require the calling of an extraordinary meeting of the board of directors, without the president being able to qualify the need for such a request, when so requested by the director who has been elected by the shareholders of said Series B.

The limitation and preferences of Series B shares have a duration of 50 consecutive and continuous years as of September 3, 1993.

The Series A shares have the preference of being able to exclude the director elected by the Series B shareholders in the voting process in which the president of the board of directors and of the Company must be elected and which follows the one in which the tie that allows such exclusion resulted.

The preference of Series A shares will have a term of 50 consecutive and continuous years as of September 3, 1993. The form of the titles of the shares, their issuance, exchange, disablement, loss, replacement, assignment and other circumstances thereof shall be governed by the provisions of Law No, 18,046 and its regulations.

20.5 Dividend policies

As required by Article 79 of the Chilean Companies Act, unless otherwise decided by unanimous vote of the holders of issued and subscribed shares, a publicly traded corporation must annually distribute a cash dividend to its shareholders, prorated based on their shares or the proportion established in the company's bylaws if there are preferred shares, with at least 30% of our consolidated net income for each year.

Dividend policy for commercial year 2024

The company's dividend policy for the 2024 business year was agreed upon by the Board of Directors on April 25, 2024. On that occasion, the following was decided:

- (a) Distribute and pay a dividend to the respective shareholders as a percentage of the profits representing 30% of profits for 2024.
- (b) Notwithstanding the aforementioned, the percentage indicated in (a) above may be increased if the Company's Board of Directors deems that such increase does not materially and adversely affect the Company's ability to make its investments and to comply with the estimates on future cash use, also considering the following financial parameters:
 - (i) 100% of the net income for 2024 if all the following financial parameters are met: (a) "all current assets" divided by "all current liabilities" is equal to or greater than 2.5 times, and (b) the sum of "all current liabilities" and "all non-current liabilities", less "cash equivalents", less "other current financial assets", all of the above divided by "total equity" in equal or less than 0.8 times.
 - (ii) 80% of the net income for 2024 if all the following financial parameters are met: (a) "all current assets" divided by "all current liabilities" is equal to or greater than 2.0 times, and (b) the sum of "all current liabilities" and "all non-current liabilities", less "cash equivalents", less "other current financial assets", all of the above divided by "total equity" in equal or less than 0.9 times.
 - (iii) 60% of the net income for 2024 if all the following financial parameters are met: (a) "all current assets" divided by "all current liabilities" is equal to or greater than 1.5 times, and (b) the sum of

“all current liabilities” and “all non-current liabilities”, less “cash equivalents”, less “other current financial assets”, all of the above divided by “total equity” in equal or less than 1.0 times.

- (c) Distribute and pay dividends in 2024 and the first quarter of 2025, dividends, which will be charged against the aforementioned final dividend.
- (d) In the ordinary meeting to be held in 2025, the Company’s Board of Directors will propose a final dividend discounting the amount of dividends previously distributed, considering that it does not materially and negatively affect the Company’s ability to make its investments, meet its obligations and, in general, comply with the investment and financing policy approved by the ordinary shareholders’ meeting.
- (e) Any remaining amount from the net income from 2024 can be retained and used to finance the Company’s own operations or one or more of its investment projects, notwithstanding a possible distribution of dividends charged to accumulated earnings that might be approved by the shareholders’ meeting or the possible future capitalization of all or part of it.
- (f) The payment of additional dividends is not being considered.

It must be expressly stated that this dividends policy details the intention of the Company’s Board of Directors and its fulfillment depends on the actual net income obtained, as well as on the results indicated by the projections the Company makes from time to time or on the existence of particular conditions, as appropriate. In any case, if the dividend policy set forth by the Board of Directors should undergo any substantial change, the Company must communicate it as a material event.

20.6 Final dividends

On April 25, 2024, the 49th ordinary general shareholders' meeting of the Company was held, at which it was agreed to distribute and pay an amount of US\$0.21339 per share, which the Company must payment to complete the amount of US\$2.11386 as a final dividend. Such final dividend already considers the first dividend of US\$0.78760 per share, the second dividend of US\$0.60940 per share and the third dividend of US\$0.50347 per share, which were paid during 2023.

20.7 Potential and provisional dividends

Dividends discounted from equity were as follows:

Dividends	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Interim dividend	-	542,847
Final dividend	-	920,819
Dividend according to policy	-	60,953
Owners of the Parent	-	1,524,619
Dividend eventual	-	-
Dividend according to policy	5,909	6,266
Non-controlling interests	5,909	6,266
Dividends discounted from equity for the period	5,909	1,530,885

Note 21 Contingencies and restrictions

In accordance with note 19.1, the Company recognizes a provision for those lawsuits in which there is a probability that the judgments will be unfavorable to the Company. The Company is party to the following lawsuits and other relevant legal actions:

21.1 Lawsuits and other relevant events

- (a) In January 2018, the company Transportes Buen Destino S.A. filed an arbitration claim under CAM rules against SQM Salar for controversies resulting from the execution of transport contracts for lithium brine and transport of salts. The amount of the claim is close to US\$ 3 million. On August 6, 2024, SQM Salar was sentenced to pay CLP\$ 80 million plus indexation. On August 13, 2024, SQM Salar and the Company filed a complaint appeal before the Court of Appeals of Santiago, which is pending.
- (b) On April 6, 2021, Empresa Eléctrica Cochrane SpA requested the constitution of arbitration to resolve a dispute in relation to electricity supply contracts signed on March 30, 2012, and February 1, 2013. On January 17, 2022, the Company filed a claim for early termination of the electricity supply contracts against Empresa Eléctrica Cochrane SpA. On November 26, 2024, the arbitral tribunal upheld the claim of Empresa Eléctrica Cochrane SpA for the period between 2021 and 2023, with the amount to be determined in the mandatory compliance phase of the ruling. The arbitral tribunal also determined that Empresa Eléctrica Cochrane SpA failed to meet its information delivery obligations under the electricity supply contracts, although it dismissed the Company's early termination claim.
- (c) In October 2021, the Company requested the constitution of an arbitration against Chilena Consolidada Seguros Generales S.A. to resolve differences in relation to the interpretation and execution of the directors' and officers' liability insurance policy. On December 14, 2023, the arbitrator accepted the Company's claim in its entirety and ordered the defendant to pay US\$ 32.2 million. The case is currently before the Court of Appeals to hear the appeals and the to hear the cassation and appeal appeals filed by the defendant.
- (d) In February 2022, the company Montajes Eléctricos y Construcciones RER Limitada filed a claim for damages before the 21st Civil Court of Santiago against SQM Industrial S.A. for its alleged liability derived from the breach of an electrical installation contract. The case is awaiting a decision verdict from the court. The amount of the lawsuit is approximately ThUS\$ 542.
- (e) In March 2023, Mr. Josué Merari Trujillo Montejano filed a lawsuit against SQM Comercial de México, S.A. de C.V. for damages for third-party civil liability for the death of his brother Mr. Manuel Agustín Trujillo Montejano, before the First Instance Judge of the Civil Branch of the city of Zapopan, Mexico. The lawsuit is currently under discussion. The amount of the lawsuit is approximately ThUS\$ 330.
- (f) In May 2023, the heirs of Sami Al Taweel, a shareholder of Abu Dhabi Fertilizer Industries Company LLC ("Adfert"), filed a claim against SQM Corporation NV, other shareholders and former officers and directors of Adfert appointed by SQM Corporation NV, with the Settlement Center of the Abu Dhabi Commercial Court of First Instance, which alleges a debt of AED 73.5 million. The lawsuit is being heard by the Abu Dhabi.
- (g) In May 2023, Mr. Luis Guillermo Benítez Peña and 17 other employees filed a lawsuit against a contractor, the Company and six other companies with the Labor Court of San Miguel for indirect dismissal, annulment of dismissal and payment of employment benefits. The proceeding is in the ruling stage. On August 28, 2024, a ruling was issued rejecting the claim against the Company. On January 21, 2025, one of the main defendants filed an appeal for unification of jurisprudence, which is currently pending. The amount of the lawsuit is approximately MUS\$358.

- (h) In January 2024, Mr. José Luis Carreño Soto filed a lawsuit for protection of fundamental rights against a contractor company and the Company before the Labor Court of Antofagasta. On December 3, 2024, the plaintiff and the main defendant signed an agreement, and the plaintiff completely withdrew the lawsuit, thus ending the trial.
- (i) In February 2024, Mr. Emiliano Malebrán Pallauta, Mr. Rubén Valenzuela González and Mr. José Aguilera Flores filed a lawsuit against the Company through the Labor Court of Iquique for protection of fundamental rights and secondarily for wrongful dismissal and collection of unpaid wages and severance pay. On January 13, 2025, the court ruled partially in favor of the claim and ordered the Company to pay the sum of MUS\$263. On January 24, 2025, the Company filed an appeal for annulment, which is still pending.
- (j) In February 2024, Mr. Manuel Jesús Lobos Cortés filed a lawsuit against the Company through the Labor Court of Iquique for damages caused by occupational illness. The case is awaiting the issuance of a ruling. The lawsuit totals approximately ThUS\$279.
- (k) In September 2024, the subsidiary Sichuan Dixin New Energy Co., Ltd. was notified of a civil lawsuit filed by Hebei Leheng Energy Saving Equipment Co., Ltd. in its capacity as joint and several co-debtor for disputes arising from a construction contract between the plaintiff and the defendant Xinyu Xinyihe New Material Technology Co., Ltd. The amount of the claim is approximately MUS\$2. The case is being heard in the People's Court of Dongpo District, Meishan, Sichuan Province. The second trial hearing is suspended and the date for its resumption has not yet been set.

The Company and its subsidiaries have been involved and will probably continue to be involved either as plaintiffs or defendants in certain judicial proceedings that have been and will be heard by the arbitration or ordinary courts of justice that will make the final decision. Those proceedings that are regulated by the appropriate legal regulations are intended to exercise or oppose certain actions or exceptions related to certain mining claims either granted or to be granted and that do not or will not affect in an essential manner the development of the Company and its subsidiaries.

Soquimich Comercial S.A., subsidiaries have been involved and will probably continue being involved either as plaintiff or defendant in certain judicial proceedings through which it intends to collect and receive the amounts owed, the total nominal value of which is approximately US\$ 1.05 million.

The Company and its subsidiaries have made efforts and continues making efforts to obtain payment of certain amounts that are still owed to the Company due to its activities. Such amounts will continue to be required using judicial or non-judicial means by the plaintiffs, and the actions and exercise related to these are currently in full force and effect.

21.2 Administrative - Environmental contingencies

- (a) In November 2016, the SMA filed charges against SQM Salar for the extraction of brine beyond the authorized amount, progressive damage to the vitality of algarrobo trees, incomplete information delivery, and modification of monitoring plan variables, among others. SQM Salar submitted a compliance program, which was approved by the SMA on August 29, 2022. A claim was filed regarding this program with the Environmental Court of Antofagasta by the Council of Atacameño Peoples. On June 11, 2024, the Environmental Court of Antofagasta agreed to reject the claim in its entirety. SQM Salar is currently implementing the compliance program, which is expected to be completed by mid-2025. The SMA will determine whether the program has been satisfactorily implemented and decide if the administrative sanctioning procedure should be concluded.

- (b) Through the resolution of April 14, 2020, the General Water Directorate imposed a fine of 4,180 monthly tax units (UTM) on SQM Salar for alleged violations of article 294 of the Water Code. This resolution was appealed, and the outcome is still pending.
- (c) In May 2024, the General Water Directorate of the Antofagasta Region initiated a sanctioning procedure against SQM Salar for alleged violations of article 294 of the Water Code at the solar evaporation ponds of the Atacama Salt Flat operation. SQM presented defenses rejecting the alleged non-compliance, and the resolution from the General Water Directorate is still pending.
- (d) On May 30, 2024, Albemarle Limited submitted an exceptional review request to the Environmental Assessment Service of the Antofagasta Region regarding the environmental qualification resolutions regulating its operation and that of SQM Salar, in accordance with article 25 quinquies of Environmental Framework Law No. 19.300. The procedure is in its initial stage, and the Environmental Assessment Service ruling on the admissibility of the request is still pending. As such, it could either proceed or be declared inadmissible and closed.
- (e) In July 2024, a criminal complaint was filed for alleged environmental non-compliance in the Atacama Salt Flat, which may be investigated under article 308 of the Criminal Code. The complaint is being handled by the Calama Public Prosecutor's Office, based on the information presented in the exceptional review request for environmental qualification resolutions filed by Albemarle. The case is still under investigation.
- (f) Through the resolution of October 15, 2024, the General Water Directorate imposed a fine of 1,285 monthly tax units (UTM) on SQM Salar for alleged violations of articles 5 and 6 of DGA Resolution No. 1.238 regarding the monitoring and reporting system for effective extractions at the groundwater extraction facilities. This resolution was appealed, and the outcome is still pending.

21.3 Tax Contingencies

Claims for the application of the specific tax on mining activities associated with lithium exploitation.

The Chilean Internal Revenue Service (SII) has sought to extend the specific tax on mining activities to lithium mining, which cannot be concessioned under the legal system. As of December 31, 2023, the SII had collected a total of US\$986.3 million from SQM, which SQM has paid, in the specific tax on mining activities applied to lithium for tax years 2012 to 2023 (financial years 2011 to 2022). SQM Salar has filed seven tax claims against the SII. Both amounts, which have already been paid by SQM Salar, totaled US\$986.3 million as of December 31, 2024, including US\$59.5 million in over-assessed amounts, US\$818.0 million in disputed taxes (net of the corporate income tax impact), and US\$108.8 million in interest and penalties. On April 5, 2024, the Santiago Court of Appeals issued a ruling on one of the tax claims, case No. 312-2022, overturning the ruling previously issued by the Santiago Metropolitan Region Tax and Customs Court, which had upheld SQM Salar's action for annulment on public law grounds regarding tax assessments for tax years 2017 and 2018. Although this ruling by the Santiago Court of Appeals does not affect the other claims filed by SQM Salar against the SII and is still subject to appeal by SQM Salar, it prompted a review of the accounting treatment of the tax claims by the Company's Board of Directors. As a result, the Company recognized a tax expense of US\$1,106.2 million for 2024 (US\$926.7 million for financial years 2011 to 2022, US\$162.8 million for the financial year 2023, and US\$16.7 million for financial year 2024). This expense reflects the potential impact of the Santiago Court of Appeals ruling on the tax claims. As of December 31, 2024, and December 31, 2023, the Company recorded non-current tax receivables of US\$59.5 million and US\$986.3 million, respectively.

The claims are as follows.

- (a) On August 26, 2016, a tax claim was filed before the Third Tax and Customs Court of the Metropolitan Region against IRS assessments 169, 170, 171 and 172, for the tax years 2012 to 2014. The amount in

- dispute is US\$ 17.8 million, where (i) US\$ 11.5 million is the tax claim, after its effect on corporate income taxes and (ii) US\$ 6.3 million is associated interest and penalties. On October 30, 2024, a ruling was issued rejecting the tax claim and the deadline to file an appeal is pending.
- (b) On March 24, 2017, a tax claim was filed before the Third Tax and Customs Court of the Metropolitan Region against resolution 156 issued by the Chilean IRS for the tax year 2015. The amount in dispute is US\$ 3.2 million is the tax claim, after its effect on corporate income taxes. On November 4, 2024, a ruling was issued rejecting the tax claim, and the deadline to file an appeal is pending.
 - (c) On March 24, 2017, a tax claim was filed before the Third Tax and Customs Court of the Metropolitan Region against liquidation No. 207 issued by the Chilean IRS, relating to the 2016 tax year. The amount involved is MMUS\$ 5.5 of which (i) MMUS\$ 1.2 relates to amounts paid in excess, (ii) MMUS\$ 3.8 relates to the tax claimed (net of the effect on corporate tax), and (iii) MMUS\$ 0.5 relates to interest and penalties. On October 30, 2024, a ruling was issued rejecting the tax claim and the deadline to file an appeal is pending.
 - (d) On July 15, 2021, SQM Salar filed before the First Tax and Customs Court of the Metropolitan Region a tax annulment and claim against assessments 65 and 66 for the tax years 2017 and 2018. The amount in dispute is US\$ 63.9 million, where (i) US\$ 17.6 million is overpaid taxes, (ii) US\$ 30.2 million is tax claimed net of corporate income tax, and (iii) US\$ 16.1 million is associated interest and penalties. On November 7, 2022, the First Tax and Customs Court upheld SQM Salar's claim and ordered the annulment of these tax assessments. On April 5, 2024, the Santiago Court of Appeals reversed the first instance ruling insofar as it accepted the annulment suit aimed at challenging the liquidations, accepting the claim only in terms of the miscalculated items recognized by the Chilean IRS.
 - (e) On June 30, 2023, SQM Salar filed before the First Tax and Customs Court of the Metropolitan Region a tax annulment and claim against assessment 23 for the tax year 2019. The amount in dispute is US\$ 36.7 million, where (i) US\$ 9.7 million is overpaid taxes, and (ii) US\$ 27.0 million is the tax claim, after its effect on corporate income taxes. The trial is currently at the discussion stage.
 - (f) On January 19, 2024, SQM Salar filed with the Third Tax and Customs Court of the Metropolitan Region, a tax annulment and claim against Resolution No. 56/2023 for the tax years 2020 and 2021. The amount in dispute is US\$ 20.7 million, where US\$ 5.6 million is overpaid taxes and US\$ 15.1 million is the tax claim, after its effect on corporate income taxes. The case is currently at the discussion stage.
 - (g) On January 19, 2024, SQM Salar filed before the Third Tax and Customs Court of the Metropolitan Region a tax annulment and claim against assessment 1 for the tax year 2022. The amount in dispute is US\$ 53.5 million, restated to the date of payment, of which US\$ 14.4 million is overpaid taxes, US\$ 36.1 million is the tax claim, after its effect on corporate income taxes and US\$ 3 million is associated interest and penalties. The trial is currently at the discussion stage.
 - (h) On August 14, 2024, SQM Salar filed an annulment lawsuit on public law grounds and a tax claim before the Santiago Metropolitan Region Third Tax and Customs Court against Settlement No. 67 for the tax year 2023. The disputed amount totals MMUS\$785, updated to the date on which the payment was made, of which MMUS\$10.9 correspond to over-assessed amounts, MMUS\$691.1 corresponds to the claimed tax, and MMUS\$83 corresponds to interest and penalties. The case is in the discussion phase.

The details of resolutions and settlements with pending claims are provided below:

The Chilean IRS has not issued a settlement for differences on specific mining tax with respect to the 2024 tax year (2023 business year). If the Chilean IRS uses criteria similar to that used in previous years, then it may issue settlements in the future covering this year. The Company's estimate for the amount that could be settled by the SII, corresponding to the business year 2023 and 2024, amounts to MUS\$ 179.4 (net of first category tax), without considering interest and penalties.

Others claims.

- (a) Exploraciones Mineras S.A. has filed a tax claim with the First Tax and Customs Court of the Metropolitan Region against Resolution Ex. No. 1130 issued by the Tax Department No. 2 of the Chilean IRS for East Santiago on April 30, 2019, which disallowed the tax loss of US\$3.8 million declared in the 2016 tax year. On January 31, 2025, the First Tax and Customs Court partially accepted the claim, and the ruling is expected to be appealed by Exploraciones Mineras S.A. within the coming days.
- (b) SQM Salar maintains a tax claim with the Fourth Tax and Customs Court of the Metropolitan Region, due to the rejection of expenses for donations in the amount of ThUS\$209.1. The case is awaiting the issuance of the resolution that receives the case as evidence.
- (c) SQM Salar has filed a tax claim with the First Tax and Customs Court of the Metropolitan Region against Resolution Ex. DGC 17200 No. 152 of August 30, 2022, which disallowed the donation expense under Article 21 of the Income Tax Law. The case amounts to ThUS\$319.4 and is awaiting the issuance of the resolution that receives the case as evidence.
- (d) SQM Nitratos has filed a tax claim before the Santiago Metropolitan Region First Tax and Customs Court against Tax Settlement No. 15, dated August 30, 2022, which rejected a donation expense deduction under article 21 of the Income Tax Law. The disputed amount is MUS\$319.4, and the case is pending a ruling on the evidence phase.
- (e) The Company has also filed a tax claim before the Santiago Metropolitan Region First Tax and Customs Court against Tax Settlement No. 16, dated August 30, 2022, which rejected a donation expense deduction under article 21 of the Income Tax Law. These donations were made to the same recipient institutions as those in the previous tax settlement. The disputed amount is MUS\$511, and the case is pending a ruling on the evidence phase.
- (f) On December 19, 2024, the SII issued settlements No. 484280, 484282, 484286, 484288, 484289, 484290, 484291, 484293, and 484294, through which it re-determined the mandatory monthly provisional payments for the specific tax on mining activities on SQM Salar's lithium extraction revenue for the periods from January to September 2024, for a total amount of MMUS\$78.3, include penalties and interest amounting MMUS\$25.3. SQM Salar appealed these settlements through a voluntary administrative request for reconsideration, which is still pending resolution.

21.4 Association with Codelco

On July 26, 2024, Inversiones TLC SpA, a subsidiary of Tianqi, filed an appeal of illegality before the Court of Appeals of Santiago against the ordinary ruling No. 74.987 issued on June 18, 2024 by the CMF, which determined that the association between SQM and Codelco, reported as an material event on May 31, 2024, does not require approval by the Company's extraordinary shareholders' meeting. The Company became a party to these proceedings on August 1, 2024. The proceeding is awaiting pleadings before the Court of Appeals of Santiago, a court that on various occasions has decided not to grant Tianqi's requests to suspend the effects of the association. Additionally, there are other legal procedures against entities other than the Company or SQM Salar which, if successful, could delay or nullify SQM and Codelco's partnership.

21.5 Other matters

The Company is required to be in compliance with all applicable laws and regulations in Chile and internationally with respect to anti-corruption, anti-money laundering and other regulatory matters, including the Foreign Corrupt Practices Act (FCPA). The Company has received a request for information and subpoena from the SEC requesting information related to our business operations, compliance program, and allegations of potential violations of the FCPA and other anti-corruption laws. The SEC has said that the investigation is a non-public, fact-finding inquiry and we are not aware that any conclusion has been reached by the SEC. Management has undertaken an internal review to identify information to respond to the SEC's request thus actively cooperating in the review.

21.6 Indirect guarantees

As of December 31, 2024, there are no indirect guarantees.

Note 22 Gains (losses) from operating activities in the statement of income of expenses, included according to their nature.

22.1 Revenue from operating activities customer activities

The Group derives revenues from the sale of goods (which are recognized at one point in time) and from the provision of services (which are recognized over time) and are distributed among the following geographical areas and main product and service lines:

(a) Geographic areas:

For the period ended December 31, 2024							
Geographic areas	Specialty plant nutrition	Iodine and derivatives	Lithium and derivatives	Potassium	Industrial chemicals	Other	Total ThUS\$
Chile	110,282	2,012	600	36,506	1,129	21,022	171,551

Other finance income	21,086	4,614
Other finance interests	710	4,199
Total	103,642	122,726

Note 23 Reportable segments

23.1 Reportable segments

(a) **General information:**

The amount of each item presented in each operating segment is equal to that reported to the highest authority that makes decisions regarding the operation, in order to decide on the allocation of resources to the defined segments and to assess its performance.

These operating segments mentioned are consistent with the way the Company is managed and how results will be reported by the Company. These segments reflect separate operating results that are regularly reviewed by the executive responsible for operational decisions in order to make decisions about the resources to be allocated to the segment and assess its performance (See Note 23.2).

The performance of each segment is measured based on net income and revenues. Inter-segment sales are made using terms and conditions at current market rates.

(b) **Factors used to identify segments on which a report should be presented:**

The segments covered in the report are strategic business units that offer different products and services. These are managed separately because each business requires different technology and marketing strategies.

(c) **Description of the types of products and services from which each reportable segment obtains its income from ordinary activities**

The operating segments are as follows:

- (i) Specialty plant nutrients
- (ii) Iodine and its derivatives
- (iii) Lithium and its derivatives
- (iv) Industrial chemicals
- (v) Potassium
- (vi) Other products and services

(d) **Description of income sources for all the other segments**

Information regarding assets, liabilities, profits and expenses that cannot be assigned to the segments indicated in Note 23.2 and 23.3 due to the nature of production processes, is included under the "Unallocated amounts" category of the disclosed information.

(e) **Description of the nature of the differences between measurements of results of reportable segments and the result of the entity before the expense or income tax expense of incomes and discontinued operations**

The information reported in the segments is extracted from the Company's consolidated financial statements and therefore there is no need to prepare reconciliations between the data mentioned above and those reported in the respective segments, according to what is stated in paragraph 28 of IFRS 8, "Operating Segments".

For the allocation of inventory valuation costs, we identify the direct expenses (can be directly allocated to products) and the common expenses (belong to co-production processes, for example common leaching expenses for production of Iodine and Nitrates), Direct costs are directly allocated to the product and the common costs are distributed according to percentages that consider different variables in their determination, such as margins, rotation of inventories, revenue, production etc.

The allocation of other common costs that are not included in the inventory valuation process, but go straight to the cost of sales, use similar criteria: the costs associated with a product or sales in particular are assigned to that particular product or sales, and the common costs associated with different products or business lines are allocated according to the sales.

(f) **Description of the nature of the differences between measurements of assets of reportable segments and the Company's assets**

Assets are not shown classified by segments, as this information is not readily available, some of these assets are not separable by the type of activity by which they are affected since this information is not used by management in decision-making with respect to resources to be allocated to each defined segment. All assets are disclosed in the "unallocated amounts" category.

(g) **Description of the nature of the differences between measurements of liabilities of reportable segments and the Company's liabilities**

Liabilities are not shown classified by segments, as this information is not readily available, some of these liabilities are not separable by the type of activity by which they are affected, since this information is not used by management in decision-making regarding resources to be allocated to each defined segment. All liabilities are disclosed in the "unallocated amounts" category.

23.2 Reportable segment disclosures:

23.4 Disclosures on geographical areas

As indicated in paragraph 33 of IFRS 8, the entity discloses geographical information on its revenue from operating activities with external customers and from non-current assets that are not financial instruments, deferred income tax assets, assets related to post-employment benefits or rights derived from insurance contracts.

23.5 Disclosures on main customers

With respect to the degree of dependency of the Company on its customers, in accordance with paragraph 34 of IFRS 8, the Company has no external customers who individually represent 10% or more of its revenue.

(b) Functional and presentation currency

The functional currency of these companies corresponds to the currency of the country of origin of each entity, and its presentation currency is the dollar.

(c) Reasons to use one presentation currency and a different functional currency

- A relevant portion of the revenues of these subsidiaries are associated with the local currency.
- The cost structure of these companies is affected by the local currency.

b) Effects of changes in foreign currency exchange rates on the statement of net income and other comprehensive income.

Foreign currency exchange rate changes	For the period from January to December of the year	
	2024	2023
	ThUS\$	ThUS\$
Foreign currency translation loss	(8,607)	(22,293)
Foreign currency translation reserve	(34,516)	3,177
Total	(43,123)	(19,116)

The average and closing exchange rate for foreign currency is disclosed in Note 3.3

Note 26 Income tax and deferred taxes

Tax receivables as of December 31, 2024 and 2023, are as follows:

26.1 Current and non-current tax assets

(a) Current

Current tax assets	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Monthly provisional income tax payments, Chilean companies (1)	133,898	584,382
Monthly provisional income tax payments, foreign companies	12,859	26,741
Corporate tax credits (2)	4,603	1,918
1st category tax absorbed by tax losses (3)	-	1,872
Taxes in recovery process (1)	431,783	22,120
Total	583,143	637,033

(b) Non-current

Non-current tax assets	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Total tax paid by SQM Salar (see note 21.3)	59,541	986,274
Total	59,541	986,274

- (1) The provisional monthly payments of Chilean companies and recoverable taxes are presented net of the specific tax liability for lithium mining activities, amounting to US\$179.5 million. See Note 21.3 Tax contingencies.
- (2) These credits are available for companies and are related to corporate tax payments in April of the following year. These credits include, among others, credits for training expenses (SENCE) and credits in Chile for taxes paid abroad.
- (3) This concept corresponds to the tax loss absorption determined by the company at the end of the year, which must be attributed to the dividends received during the year.

26.2 Current tax liabilities

Current tax liabilities	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Chilean income tax	24,687	636
Foreign company income tax	55,154	20,254
Total	79,841	20,890

- (1) Income tax in Chile is presented net of provisional monthly payments by Chilean companies for an amount of US\$90.9 million.
- (2) The income tax of foreign subsidiaries is presented net of provisional monthly payments by companies for an amount of US\$66.9 million.

Income tax is calculated based on the profit or loss for tax purposes that is applied to the effective tax rate applicable in Chile. As established by Law No. 21,713 is 27%.

The Specific mining tax is determined by applying the taxable rate to the net operating income obtained, according to the chart in force. The Company currently provisioned 5% for mining royalties that involve operations in the Salar de Atacama the SQM Salar SpA., and 5.44% for caliche the SQM Nitratos S.A. extraction operations.

The income tax rate for the main countries where the Company operates is presented below:

Country	Income tax	Income tax
	2024	2023
Spain	25%	25%
Belgium	25%	25%
Mexico	30%	30%
United States	21% +2.5%	21% + 3%
South Africa	27%	27%
South Korea	24% (2)	24% (2)
China	25%+12% (1)	25%+12% (1)
Austria	30%	30%

- (1) Additional tax of 12% on VAT payable and the corporate rate in Sichuan is 15%.
- (2) Sliding scale from 9% to 24% of taxable income.

26.3 Income tax and deferred taxes

(e) Deferred taxes related to benefits for tax losses

The Company's tax loss carryforwards were mainly generated by losses incurred in foreign subsidiaries.

As of December 31, 2024 and 2023, tax loss carryforwards are detailed as follows:

Deferred taxes related to benefits for tax losses	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Chile	44,525	16,087
Foreign	84,598	58,260
Total	129,123	74,347

The tax losses as of December 31, 2024, which are the basis for these deferred taxes, correspond mainly to SQM Salar SpA., SQM Potasio SpA., Orcoma SpA., SCM Búfalo, SQM North América Corp., Sichuan Dixin New Energy Co. Ltd., SQM Comercial Perú S.A.C. and SQM Australia Pty Ltd.

(f) Movements in deferred tax assets and liabilities

Movements in deferred tax assets and liabilities as of December 31 2024 and 2023 are detailed as follows:

Movements in deferred tax assets and liabilities	Assets (liabilities)	
	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Deferred tax assets and liabilities, net opening balance	(92,452)	314,646
Increase (decrease) in deferred taxes in profit or loss	(101,614)	(346,391)
Increase (decrease) deferred taxes in equity	53,251	(60,707)
Total	(140,815)	(92,452)

(g) Disclosures on income tax (expenses) benefit

Current and deferred tax (expenses) benefits are detailed as follows:

Disclosures on income tax (expense) benefits	(Expense) Income	
	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Current income tax (expense) benefit		
Current tax (expenses)	(164,276)	(440,884)
Deferred (expense) benefit from taxes related to the origination and reversal of temporary differences	(101,614)	(346,391)
Current income tax expense, net, total	(265,890)	(787,275)
(Expenses) for specific taxes on lithium-related mining activity (see note 21.3)	(1,106,159)	-
Income tax expense	(1,372,049)	(787,275)

Income tax (expenses) benefits for foreign and domestic parties are detailed as follows:

Income tax (expense) benefit	(Expense) Income	
	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Current income tax benefit (expense) by foreign and domestic parties, net		
Current income tax (expenses), foreign parties, net	(71,477)	(120,893)
Current income tax (expenses), domestic, net	(92,799)	(319,991)
(Expenses) for specific taxes on lithium-related mining activity (see note 21.3)	(1,106,159)	-
Current income tax expense, net, total	(1,270,435)	(440,884)
Deferred tax benefit (expense) by foreign and domestic parties, net		
Current income tax (expense) benefit, foreign parties, net	73,935	(34,014)
Current income tax (expense) benefit, domestic, net	(175,549)	(312,377)
Deferred tax expense, net, total	(101,614)	(346,391)
Income tax expense	(1,372,049)	(787,275)

(h) Disclosures on the tax effects of other comprehensive income components:

Income tax related to other income and expense components with a charge or credit to net equity	As of December 31, 2024		
	Amount before taxes (expense) gain	(Expense) income for income taxes	Amount after taxes
	ThUS\$	ThUS\$	ThUS\$
Income (losses) from defined benefit plans	3,148	(860)	2,288
Cash flow hedge	11,293	(3,049)	8,244
Reserve for gains (losses) from financial assets measured at fair value through other comprehensive income	3,520	(2,723)	797
Total	17,961	(6,632)	11,329

Income tax related to other income and expense components with a charge or credit to net equity	For the period ended December 31, 2023		
	Amount before taxes (expense) gain	(Expense) income for income taxes	Amount after taxes
	ThUS\$	ThUS\$	ThUS\$
(Losses) gains from defined benefit plans	(5,843)	1,582	(4,261)
Cash flow hedge	18,692	(5,047)	13,645
Reserve for gains (losses) from financial assets measured at fair value through other comprehensive income	190,509	(57,242)	133,267
Total	203,358	(60,707)	142,651

(i) Explanation of the relationship between (expense) benefit for tax purposes and accounting income.

Based on IAS 12, paragraph 81, letter “c”, the company has estimated that the method that discloses the most significant information for users of the financial statements is the numeric conciliation between the tax benefit (expense) and the result of multiplying the accounting profit by the current rate in Chile. The aforementioned choice is based on the fact that the Company and subsidiaries established in Chile generate a large part of the Company’s tax benefit (expense).

Reconciliation between the tax benefit (expense) and the tax calculated by multiplying income before taxes by the Chilean corporate income tax rate.

Income Tax Expense (Benefit)	(Expense) Benefit	
	As of December 31, 2024	As of December 31, 2023
	ThUS\$	ThUS\$
Consolidated income before taxes	974,414	2,807,018
Statutory Income tax rate in Chile	27%	27%
Tax expense using the statutory tax rate	(263,092)	(757,895)
Net effect of royalty tax payments	(4,453)	(6,889)
Net effect from payment of the specific tax on lithium-related mining activities (see note 21.3) (1)	(1,102,111)	-
Net effect of other additional taxes	(25,377)	-
Tax effect of income from regular activities exempt from taxation and dividends from abroad	1,030	(1,457)
Tax rate effect of non-tax-deductible expenses for determining taxable profit (loss)	(5,013)	3,509
Effect due to the difference in tax rates related to abroad subsidiaries	7,682	(24,748)
Effect of recognizing tax losses	14,750	-
Other tax effects from reconciliation between accounting profit and tax expense (2)	4,535	205
Tax expense using the effective tax rate	(1,372,049)	(787,275)

- (1) The net effects of the payment of the specific tax on the mining activity applied to lithium are presented with the deferred tax on the mining activity applied to lithium in the amount of ThUS\$ 4,049.
- (2) The other tax effects from the reconciliation between accounting income and tax expenses include deferred taxes from the initiation of operations in Australia.

Pillar Two legislation, promoted by the OECD in its BEPS program, has been enacted in some jurisdictions where the Company operates. The Company is evaluating and documenting its potential exposure to income taxes under this new legislation. However, the Company does not anticipate significant exposure to Pillar Two supplementary taxes.

(j) Tax periods potentially subject to verification:

The Group's Companies are potentially subject to income tax audits by tax authorities in each country. These audits are limited to a number of interim tax periods, which, in general, when they elapse, give rise to the expiration of these inspections.

Tax audits, due to their nature, are often complex and may require several years. Below, we provide a summary of tax periods that are potentially subject to verification, in accordance with the tax regulations in force in the country of origin:

(i) Chile

According to article 200 of Decree Law No 830, the taxes will be reviewed for any deficiencies in terms of payment and to generate any taxes that might arise. There is a 3-year prescriptive period for such review, dating from the expiration of the legal deadline when payment should have been made. This prescriptive period can be extended to 6 years for the revision of taxes subject to declaration, when such declaration has not been filed or has been presented with maliciously false information.

(ii) United States

In the United States, the tax authority may review tax returns for up to 3 years from the expiration date of the tax return. In the event that an omission or error is detected in the tax return of sales or cost of sales, the review can be extended for a period of up to 6 years.

(iii) Mexico:

In Mexico, the tax authority can review tax returns up to 5 years from the expiration date of the tax return.

(iv) Spain:

In Spain, the tax authority can review tax returns up to 4 years from the expiration date of the tax return.

(v) Belgium:

In Belgium, the tax authority may review tax returns for up to 3 years from the expiration date of the tax return if no tax losses exist. In the event of detecting an omission or error in the tax return, the review can be extended for a period of up to 5 years.

(vi) South Africa:

In South Africa, the tax authority may review tax returns for up to 3 years from the expiration date of the tax return. In the event that an omission or error in the tax return is detected, the review can be extended for a period of up to 5 years.

(vii) China:

Tax returns up to 3 years old from the due date of the return can be reviewed, in special circumstances this can be extended to 5 years. When tax evasion or fraud is involved, the tax authorities will pursue the collection of tax and there is no time limit.

(viii) South Korea:

Tax returns up to 5 years old from the due date of the return can be reviewed, but this can be extended to 7 years for cross-border transactions. Failure to file the tax return on the legal due date will result in this deadline being extended by up to 5 years and 10 years for cross-border transactions. When tax evasion or fraud is involved, it will be extended by up to 10 years and 15 years for cross-border transactions.

(ix) Australia:

Tax returns may be audited in accordance with the Australian Taxation Office (ATO) up to 4 years from their filing date or due date, whichever is earlier.

Nota 27 Environment

27.1 Disclosures of disbursements related to the environment

The Company is currently operating under an Environmental Management System (EMS) that has allowed it to strengthen its environmental performance through the effective application of the Company's Sustainable Development Policy. In 2020, the company announced an ambitious Sustainable Development Plan, which establishes specific aspirations internal goals that seek to make SQM a leader in sustainability around the world. The main goals proposed are:

- i) A 65% reduction in the use of fresh water by the year 2040 and 40% by 2030, with respect to BAU (Business as usual).
- ii) A 50% reduction in brine extraction from the Salar de Atacama by 2030, starting with 20% by November 2020, compared to the environmental permit.
- iii) Ensure that all our products are carbon neutral by 2040 and in the case of lithium and potassium chloride, this goal is for 2030.
- iv) Stimulate more and better instances for dialog with the communities near the operations.

During the year 2024 we have been making progress with each of these aspirations, starting with quarterly management of sustainability indicators and monitoring them on a quarterly basis. This has helped us to identify initiatives that help us to achieve these aspirations.

The Company carries out environmental follow-up and monitoring plans based on specialized scientific studies. Follow-up on relevant variables defined for each project enables the Company to verify the status, for example, of vegetation, flora, fauna and aquatic life in the ecosystems to protect. Follow-up plans are supported by a broad control network that includes monitoring points such as meteorological stations and wells, satellite images, plots for recording the status of vegetation and fauna, etc. The activities comprised in these plans are reported regularly to authorities based on the Company's commitments made through resolutions that approve different SQM projects. For the specific case of the Salar de Atacama, the Company has implemented an online platform (www.sqmsenlinea.com), which enables any person to access all the environmental information compiled by the Company in keeping with its commitments.

In this context, the Company maintains environmental monitoring across the systems where it operates, which is supported by numerous studies that integrate diverse scientific efforts from prestigious research centers on a national and international level, such as the Spanish National Research Council (CSIC) and the Universidad Católica del Norte.

27.2 Detailed information on disbursements related to the environment

The cumulative disbursements by the Company and its subsidiaries as of December 31, 2024, on investment projects associated with environmental issues that affect production processes and verify compliance with regulations and laws governing industrial processes and facilities total ThUS\$ 47,153. The principal environmental expenses are as follows:

- Environmental departments **44%**: Implementation of environmental commitments related to projects approved in the SEIA and development of new projects.
- Other environmental expenses **56%**: Expenses associated with standardization, procedures, consultancy and compliance with business programs that minimize its effects on the environment.

The main disbursements for the years by subsidiary and project are as follows:

Parent Company or Subsidiary	Project	Disbursement description	Reason for Disbursement	Asset / Expense	Amount disbursed during the year ended December 31, 2024	Amount disbursed during the year ended December 31, 2023	Future amount to be disbursed	Exact or Estimated Date of Disbursement
Miscellaneous	Environment - Operating Area	Environment - Operating Area	Not classified	Expense	20,565	16,326	16,174	12/31/2025
SQM S.A.	01-F000100 - EIA Pampa Blanca Maritime Project	EIA Pampa Blanca Maritime Project	Environmental processing	Expense	45	97	-	12/31/2024
SQM S.A.	01-F000300 - Reopening of the Pampa Blanca Project - Iodide Plant	The project consists of the reopening of the Pampa Blanca iodide plant.	Sustainability: Environment and Risk Prevention	Assets	943	846	-	12/31/2024

SQM Industrial S.A.	04-1038600 - Monitoring NV Extractions	The project considers a monitoring and transmission system for effective extractions and dynamic levels in extraction wells owned by SQM, which supply the Nueva Victoria site.	Sustainability: Environment and Risk Prevention	Assets	-	18	-	12/31/2024
SQM Industrial S.A.	04-1055800 - Elena 13 Energy Modificaton	The project consists of removing power lines and posts.	Sustainability: Environment and Risk Prevention	Assets	73	11	56	12/31/2025
SQM Industrial S.A.	04-1061300 - Reduction of water lost due to solar evaporation	The project will install a floating recycled polypropylene protective cover (Hexa-cover) over three water storage ponds in SV that will reduce water losses.	Sustainability: Environment and Risk Prevention	Assets	-	78	-	12/31/2024
SQM Industrial S.A.	04-1061600 - Improvements and Cleaning Nueva Victoria Industrial Yard	The project will clean two industrial yards in Nueva Victoria; the first is the operative yard, while the second is a non-standard yard.	Sustainability: Environment and Risk Prevention	Expense	-	148	-	12/31/2024
SQM Industrial S.A.	04-1062400 - NV Tarp Analytic Video	The project will install cameras to visually register drivers in the Nueva Victoria coating machine area.	Sustainability: Environment and Risk Prevention	Assets	-	13	-	12/31/2024
SQM Industrial S.A.	04-1080800 - Implementation of environmental commitments, Tente en el Aire Project 2024-2025.	Implementation of environmental commitments, Tente en el Aire Project 2024-2025.	Sustainability: Environment and Risk Prevention	Assets	2,040	-	1,759	12/31/2026
SQM Industrial S.A.	04-1081000 - Road Repair, Llamara.	Road Repair, Llamara.	Sustainability: Environment and Risk Prevention	Assets	-	-	1,760	12/31/2026
SQM Industrial S.A.	04-1081200 - Implementación de sistema de Implementation of a monitoring and control system for sectorized irrigation in pile crown.	Implementation of a monitoring and control system for sectorized irrigation in pile crown.	Sustainability: Environment and Risk Prevention	Assets	-	-	360	12/31/2025
SQM Industrial S.A.	04-1082700 - Construction of TEA Solar Evaporation Ponds.	Construcción Pozas de Evaporación Solar TEA.	Sustainability: Environment and Risk Prevention	Assets	582	-	287	12/31/2025
SQM Industrial S.A.	04-J013500 - Handling of equipment associated with PCBs	This project consists of dealing with all the oils and components that contain 50ppm or more of Polychlorobiphenyls (PCB) by 2025 at the latest.	Sustainability: Environment and Risk Prevention	Assets	-	-	276	12/31/2025
Subtotal					2,695	268	4,498	

Parent Company or Subsidiary	Project	Disbursement description	Reason for Disbursement	Asset / Expense	Amount disbursed during the year ended December 31, 2024	Amount disbursed during the year ended December 31, 2023	Future amount to be disbursed	Exact or Estimated Date of Disbursement
SQM Industrial S.A.	04-J015800 - Other 2019 industry regularizations	The project will prepare and process sectorial permits for favorable reports to construct in Coya Sur (CS).	Sustainability: Environment and Risk Prevention	Expense	39	4	-	12/31/2024
SQM Industrial S.A.	04-J022700 - DIA integration of Coya Sur site	The project consists of the preparation and processing of an Environmental Impact Declaration (DIA) to extend the useful life of the NPT2 plant and incorporate fuel with KNO3. Prepare and process a DIA for the expansion and updating of Coya Sur.	Environmental processing	Expense	149	211	180	12/31/2025
SQM Industrial S.A.	04-J022800 - Light pollution adjustment (DS 43) INDUSTRIAL	The project considers the installation and standardization of Coya Sur and Maria Elena lighting fixtures.	Rationale: Risk Prevention and Environment	Asset	324	750	287	12/31/2025
SQM Industrial S.A.	04-J023700 - Regularization Hazardous Substances Decree SQM Industrial	The project involves improving the hazardous substance pond facilities at CS and improvements to the hazardous substance storage facilities at CS and ME, in accordance with the Adaptation Plan for Hazardous Substances Regulation DS 43.	Environmental processing	Assets	20	4	-	12/31/2024
SQM Industrial S.A.	04-J028700 Implementation of electromobility pilot project for the transportation of people	A light electric vehicle pilot project to compile experiences and gather operational data and strategic designs to determine the requirements for a future implementation of a vehicle fleet. Control of variables including autonomy, charge times, vehicle wear and tear, user experience and driving safety.	Sustainability: Environment and Risk	Assets	3	-	66	12/31/2025
SQM Industrial S.A.	04-J029000 - Assembly of pilot solar thermal power plant	The project will implement a solar pilot plant to generate thermal energy for heating solutions in NPT3.	Sustainability: Environment and Risk Prevention	Expense	-	27	-	12/31/2024
SQM Industrial S.A.	04-J029100 - Sustainability program support	The project includes the acquisition of equipment and machines for the separation and reuse of waste in Nueva Victoria.	Sustainability: Environment and Risk Prevention	Assets	-	17	-	12/31/2024
SQM Industrial S.A.	04-J029200 - Electric ground transportation	The project consists of an e-mobility pilot with an electric truck.	Sustainability: Environment and Risk Prevention	Assets	-	158	-	12/31/2024
SQM Industrial S.A.	04-J031700 - Standardization of Prilling and Drying Plant as per DS-43 and RCA	Switching of lights in the prilling and drying plants to comply with DS43 requirements.	Sustainability: Environment and Risk Prevention	Assets	52	61	-	12/31/2024
SQM Industrial S.A.	04-J039600 - Energy Efficiency in CS - Audits, Energy Performance Measurement and Studies.	Energy Efficiency in CS - Audits, Energy Performance Measurement and Studies.	Sustainability: Environment and Risk Prevention	Expense	8	-	329	12/31/2026

SQM Salar SpA	19-A014900 - M1 and lithium chemical plant digitalization	M1 and lithium chemical plant digitalization	Rationale: Risk Prevention and Environment Sustainability:	Expense	2,212	-	668	06/01/2025
SQM Salar SpA	19-C012800 - Capture of CO2	This project consists of taking advantage of CO2 emissions for the production and/or purification of Lithium Carbonate.	Environment and Risk Prevention Sustainability:	Assets	866	1,642	2,277	12/31/2025
SQM Salar SpA	19-C013700 - Thermosolar plant study	This project consists of evaluating thermal solar energy use in VPOPL operations as a replacement to fossil fuels.	Environment and Risk Prevention Sustainability:	Expense	-	-	29	06/30/2025
SQM Salar SpA	19-C014600 - Support and Improvements to Plant Electrical Circuits and Lighting	The project consists of improving lighting in the Lithium Carbonate plant, improving electrical circuits, updating them and improving the lights.	Environment and Risk Prevention Sustainability:	Assets	5	-	66	06/30/2025
SQM Salar SpA	19-C016500 - Pond flowmeters and levels	This project takes responsibility for an opportunity to improve the speed of data analysis and efficiency in decision-making.	Environment and Risk Prevention Sustainability:	Assets	23	25	125	06/30/2025
SQM Salar SpA	19-C018500 - PCA maintenance	PCA maintenance	Environment and Risk Prevention Sustainability:	Assets	-	-	57	06/30/2025
SQM Salar SpA	19-C018600 - Facility Improvements, Automation and control	The project will automate the control systems for monitoring the Lithium Carbonate plant.	Environment and Risk Prevention Sustainability:	Assets	8	5	18	06/30/2025
SQM Salar SpA	19-C022800 - Implementation of Restrooms in TAR Plant	The project involves the implementation of definitive bathrooms in the TAR plant, which must include bathrooms, showers and a men's and women's changing room.	Environment and Risk Prevention Sustainability:	Assets	-	24	35	03/31/2025
SQM Salar SpA	19-C022900 - Improved Safety Conditions in Lithium Carbonate Plant ISO 45001	The project consists of improving the conditions and operability of emergency showers in PQL and other safety devices necessary for ISO 45001 certification.	Environment and Risk Prevention Sustainability:	Assets	-	61	-	12/31/2024
SQM Salar SpA	19-C023000 - Structural modification and compliance with standard DS43	Comply with DS43 through structural modifications and union of both warehouses, installation of new ventilation points, certifications and engineering at the Carmen Chemical Plant.	Environmental processing Sustainability:	Assets	-	398	832	03/31/2025
SQM Salar SpA	19-C023500 - Compliance with standard DS594 - Li2CO3 and modification of PT construction	Comply with DS594 through structural modifications that allow the facilities to provide the sanitary conditions to support the increase in staffing at the El Carmen Lithium Chemical Plant.	Environmental processing Sustainability:	Assets	114	167	470	03/31/2025
SQM Salar SpA	19-C023800 - Installation and structural adaptations L3 - DS43	Comply with DS43 through structural, electrical and access modifications and the creation of rack support for satellite carts at the Carmen Chemical Plant.	Environment and Risk Prevention Sustainability:	Assets	123	150	574	03/31/2025
SQM Salar SpA	19-C024200 - Water and energy meters - pilot plants	Water and energy meters - pilot plants	Environment and Risk Prevention Sustainability:	Assets	64	-	30	12/31/2025

Note 28 Events occurred after the reporting date

28.1 Authorization of the financial statements

The consolidated financial statements of the Company and its subsidiaries, prepared in accordance with IAS for the year ended December 31, 2024 were approved and authorized for issue by the Board of Directors on March 04, 2025.

28.2 Disclosures on events occurring after the reporting date

- (a) On January 14, 2024, SQM Australia Pty Ltd acquired an additional 30,000,000 ordinary shares in Pirra Resources Limited for a total price of AUD 4,200,000 (ThUS\$2,613). As a result of this transaction, the Company's stake in Pirra Resources Limited increased to 80%.
- (b) On February 25, 2025, the Company announced that the Board of Directors has agreed to call an annual general meeting at 10:00 on Thursday, April 24, 2025. The Board of Directors also agreed that the voting instruction card for holders of ADRs of SQM Series B shares, regarding the matters to be discussed at the meeting, will be provided to the Bank of New York Mellon, as depository bank, at 16:00 on Wednesday, March 26, 2025.

Management is not aware of any significant events that occurred between December 31, 2024 and the date of issuance of these consolidated financial statements that may significantly affect them.
