CORPORATE PRESENTATION

August 2026

Customary note regarding forward-looking statements

This presentation release contains “forward-looking statements” within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as: “anticipate,” “plan,” “believe,” “estimate,” “expect,” “strategy,” “should,” “will” and similar references to future periods. Examples of forward-looking statements include, among others, statements we make concerning the Company’s capital expenditures, financing sources, Sustainable Development Plan, Salar Futuro project, partnership with Codelco, business outlook, future economic performance, anticipated profitability, revenues, expenses, or other financial items, anticipated cost synergies and product or service line growth.

Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are estimates that reflect the best judgment of SQM management based on currently available information. Because forward-looking statements relate to the future, they involve a number of risks, uncertainties and other factors that are outside of our control and could cause actual results to differ materially from those stated in such statements, including our ability to successfully implement the Sustainable Development Plan. Therefore, you should not rely on any of these forward-looking statements. Readers are referred to the documents filed by SQM with the United States Securities and Exchange Commission, specifically other important risk factors that could cause actual results to differ from those contained in the forward-looking statements. All forward-looking statements are based on information available to SQM on the date hereof and SQM assumes no obligation to update such statements, whether as a result of new information, future developments or otherwise, except as required by law.

SQM at a Glance: Strong Performance Across All Business Lines

LTM[1] Revenues: US$6.7 billion | LTM[1] Adjusted EBITDA[2]: US$3.1 billion

LTM[1] Adjusted EBITDA Margin : 46% | NFD[3]/LTM[1] Adjusted EBITDA: 0.3x

% REVENUES[4]

Lithium and derivatives	Specialty Plants Nutrition	Iodine and derivatives	Potassium	Industrial chemicals
64%	16%	16%	2%	1%

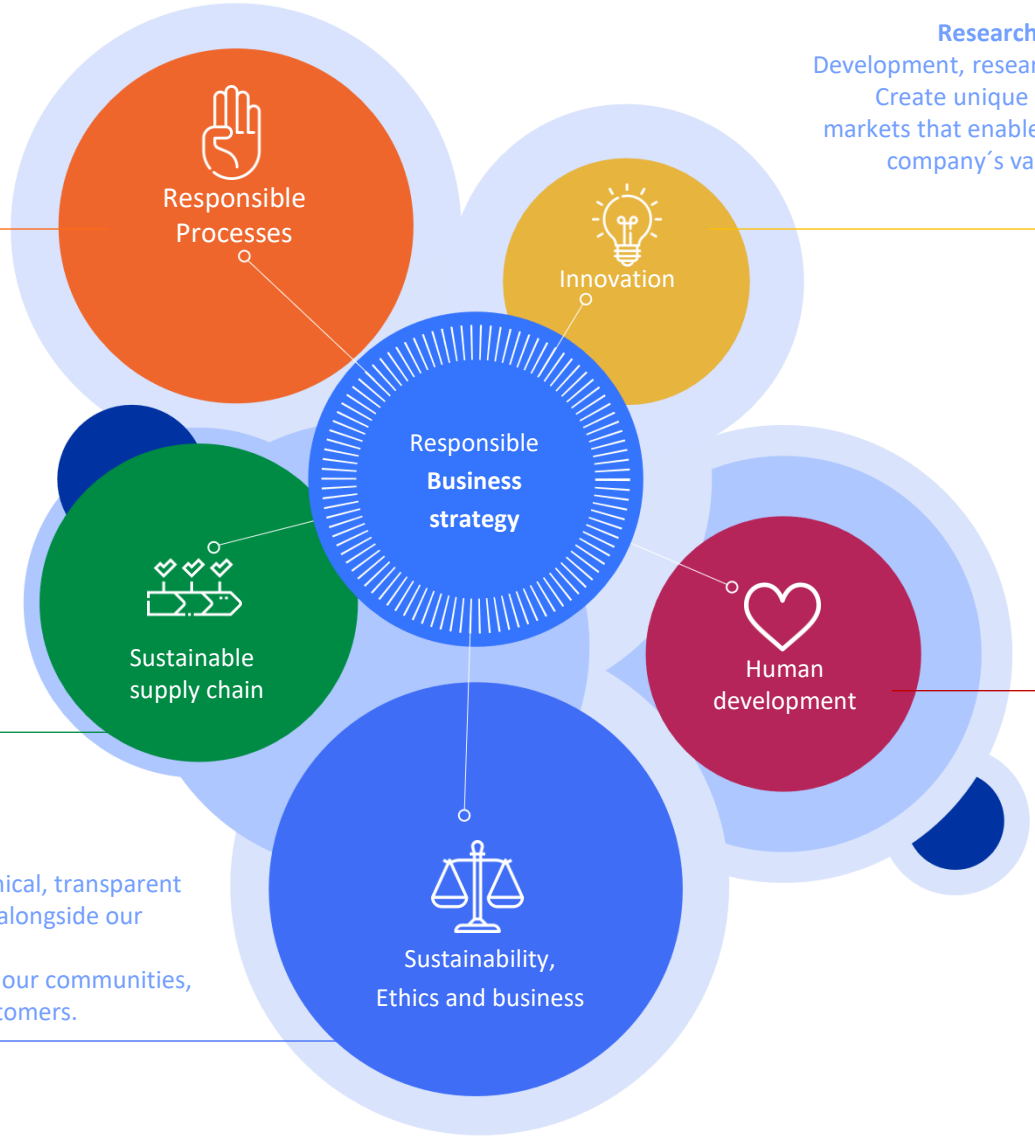

[1] LTM: Last twelve months ending June 30, 2026.
[2] Adjusted EBITDA = gross profit - administrative expenses + depreciation and amortization. Adjusted EBITDA margin = Adjusted EBITDA/revenues.
[3] NFD: Net Financial Debt and EBITDA as of June 30, 2026.
[4] Additional 1% that is not shown in charts are revenues that come from sales of third-party specialty and commodity fertilizers traded globally.

Responsible Business Strategy

Business Responsibility
Sustainability, Ethics and
Human Rights

We are a global company and understand the responsibility involved with our work.

We focus on long-term business continuity and are committed to sustainable development in harmony with the environment, business ethics, and respect for and promotion of human rights in accordance with national and international regulations.

Responsible Processes
Reduce our ecological footprint and protect ecosystems.

Research and Development
Development, research and innovation. Create unique solutions for global markets that enable us to enhance the company´s value in a sustainable manner.

Human Development a Social Value Proposition
Offer effective solutions to contribute to the progress and wellbeing of the world and its people.

Sustainable Supply Chain
Integrate sustainability throughout the supply chain.

Business Viability
Build a progressive, ethical, transparent and inclusive business alongside our stakeholders.
Co-build our path with our communities, human capital and customers.

Our Commitment to Sustainability

As part of our commitment to sustainability, the Company participates in a range of recognized indices and ratings to assess and benchmark its Environmental, Social and Governance (ESG) performance. These include, among others:

- ✓ **Dow Jones Sustainability Index (DJSI):** 73 points (2025)
- ✓ **MSCI ESG Rating:** A (2025)
- ✓ **FTSE Russell:** Score of 3.6/5 (2025), including inclusion in the FTSE4Good Index
- ✓ **CDP:** Division-level assessments in 2025, with a score of B for Iodine–Plant Nutrition and C for Lithium
- ✓ **IRMA:** Achievement of the IRMA 75 Standard at the Salar de Atacama facility
- ✓ **EcoVadis:** Silver Medal (Corporate rating), with a score of 69 points

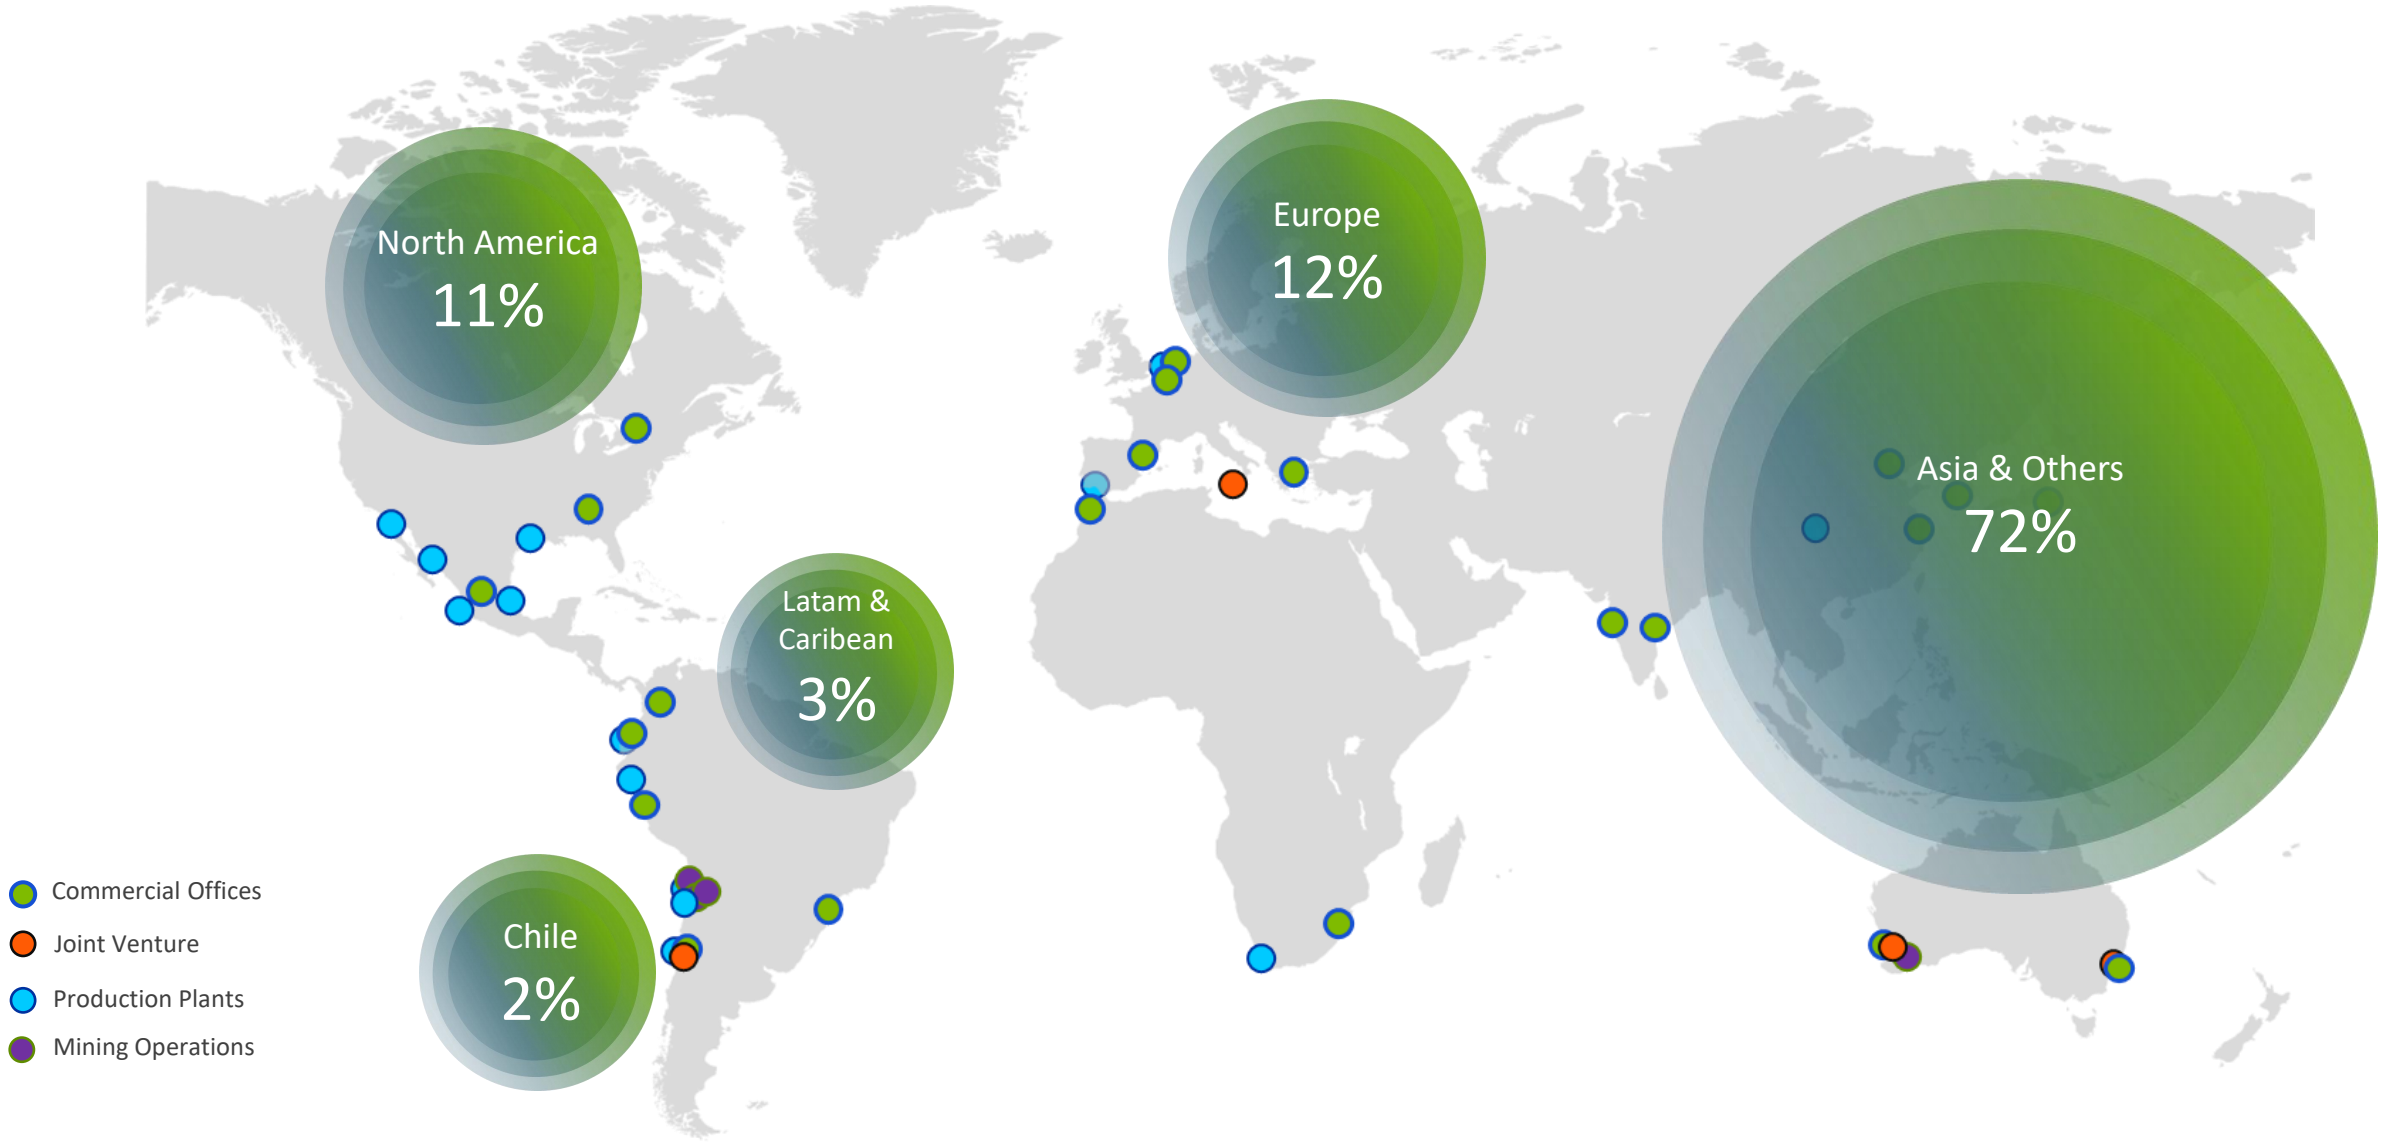

Key targets fro Novandino include:

- Brine extraction reduction: **50%** reduction of net brine extraction compared to permitted levels by 2028 (~1600 L/s to 822 L/s – in 2025, we achieved 1017 L/s).
- Water reduction: **50%** reduction of continental water usage compared to permitted levels by 2030 (420 L/s to 120 L/s – in 2025, we achieved 104 L/s)
- Greenhouse Gas (GHG) emissions reduction: **46.2%** reduction of absolute Scope 1 and Scope 2 GHG emissions by 2031 (base year 2021), and **55%** reduction of Scope 3 GHG emissions per metric ton of lithium carbonate equivalent produced by 2031.

Key targets of the Iodine–Plant Nutrition Division include:

- Water reduction: Reduction of continental water use from **100% to 60%** by 2035 through initiatives that promote the use of seawater (base year 2025).
- Greenhouse Gas (GHG) emissions reduction: **30%** reduction of Scope 1 and Scope 2 GHG emissions intensity (tCO_2e per ton produced) by 2035 (base year 2023).

Global Presence and Diversified Sales Channels

Note: Revenues for the last twelve months ending June 30, 2026.

Revenues Contribution per Business Line US$ million

Earnings per Share

US$2.31

Gross Profit Contribution per Business Line US$ million

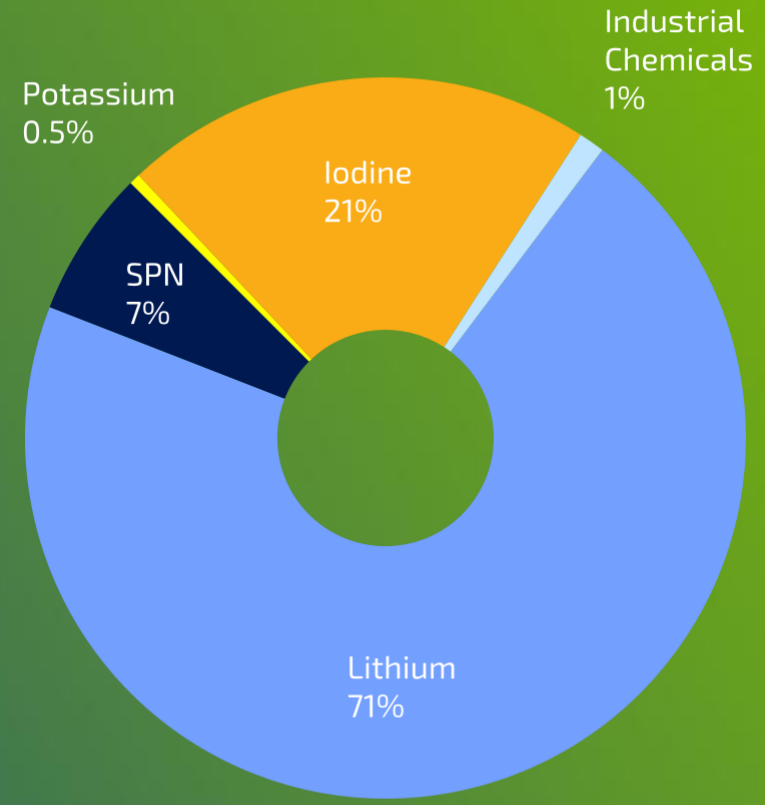

Note: Adjusted EBITDA = gross profit - administrative expenses + depreciation and amortization. Adjusted EBITDA margin = Adjusted EBITDA/revenues

Main Business Line Results – Key Drivers 2Q 2026 vs 2Q 2025

- Lithium: strong sales volumes (+59%), with higher year-on-year average sales prices (+152%)

- Iodine: higher sales volumes (+9%) with record average sales prices (+3%)

- SPN: higher sales volumes (+14%) and higher average sales prices (+8%)

LTM[1] Gross Profit Contribution

[1]Last twelve months as of June 30, 2026.

Lithium: Strong Prices and Record Sales Volumes of 84.1 ktons LCE in Total

Lithium and derivatives

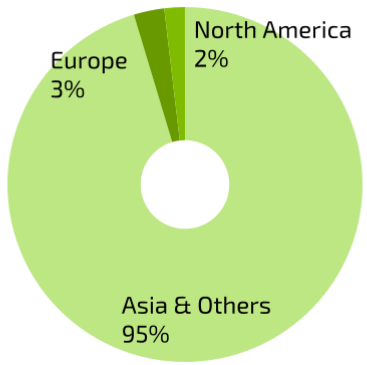

LTM[1] Revenue: US$4,305 million

LTM[1] Gross Profit US$2,003 million

Global Lithium Market

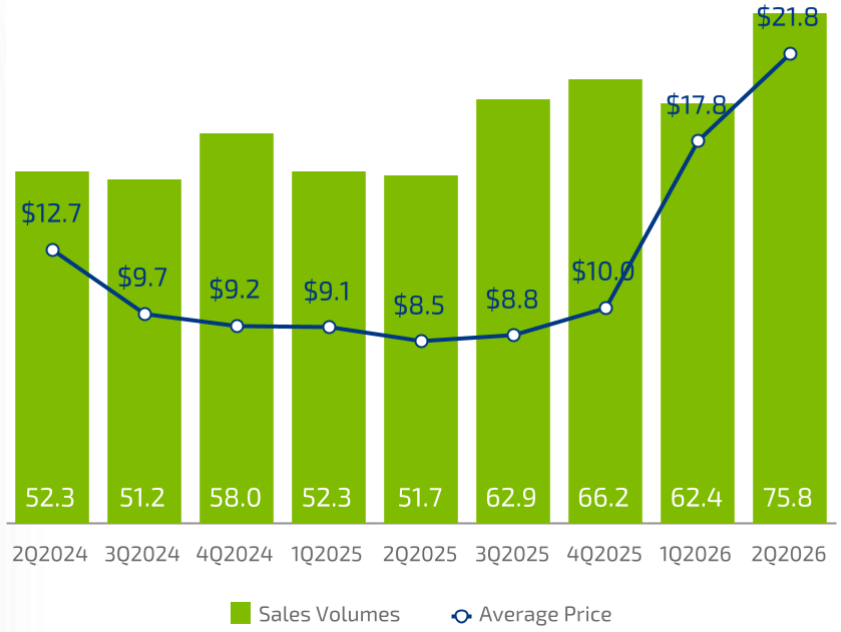

- We expect global lithium market demand to be over 2.1 million MT in 2026.
- Current market dynamics indicate a tight supply-demand balance through most of 2026.

LTM[1] Geographic Sales Distribution

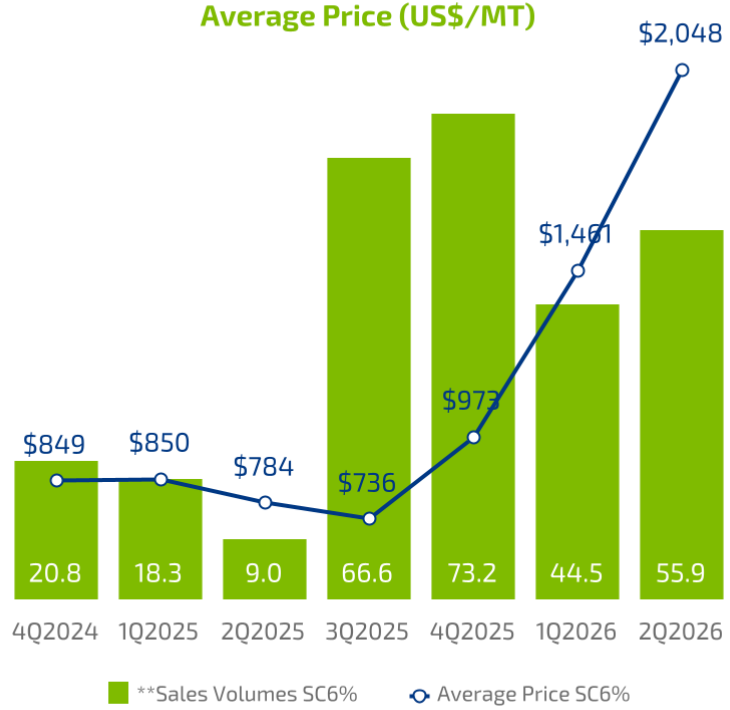

[1] Last twelve months ended June 30, 2026.

Quarterly Sales Volumes (kMT) & Average Price (US$/kg)

***Quarterly SC6% Sales Volumes (kMT) & Average Price (US$/MT)**

Novandino

- Estimated production for 2026 of approximately 280-290 ktons LCE.
- Currently converting our lithium hydroxide plant in Chile into a dual-purpose facility capable of producing either lithium carbonate or lithium hydroxide to be ready in mid-2027.
- We expect to surpass 300 ktons LCE of production capacity by 2027.

International Lithium Division

- Estimated production for 2026 of 170-185ktons of spodumene concentrate (SC6%).
- Expansion of the Mt Holland mining and concentrator announced in July 2026, to reach spodumene concentrate production capacity of approximately 350 ktons (SC6%) per year attributable to SQM by 2030.
- Andover lithium project advancing along with multiple lithium exploration projects in Australia, Namibia & Canada

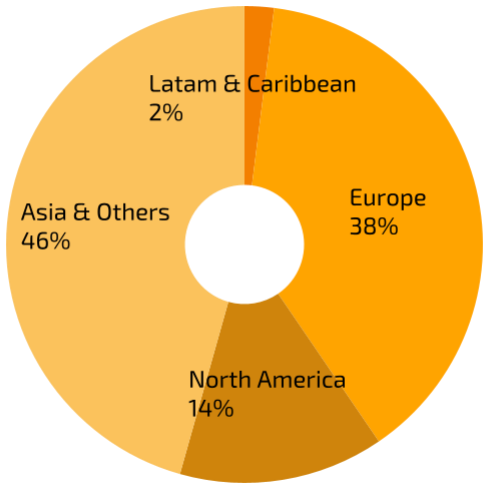

**Reflects Spodumene Concentrate (SC6%) sales prices.*
***LiOH (in LCE) sales volumes are presented in SC6% units, using the corresponding lithium content conversion factor (6.74x).*

Iodine and Derivatives: Capturing Demand Growth in High Price Environment

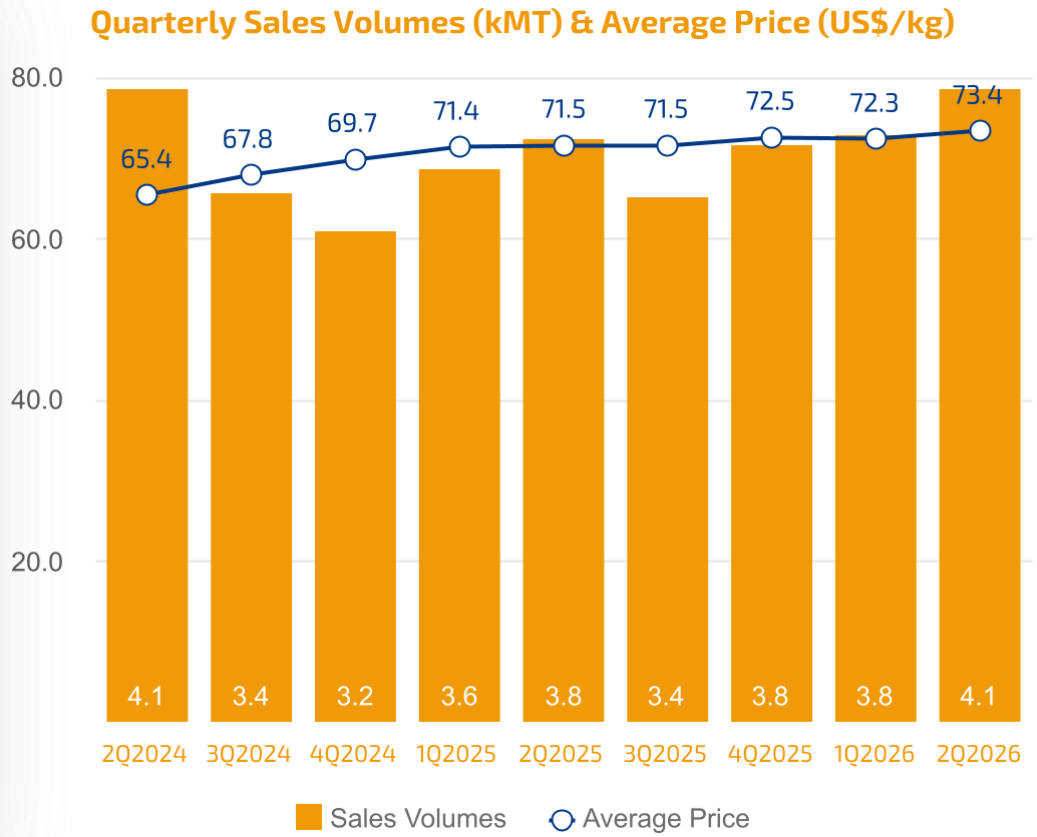

Iodine and derivatives

LTM[1] Revenue: US$1,095 million

LTM[1] Gross Profit US$599 million

~37% Market Share[2]

Global Iodine Market

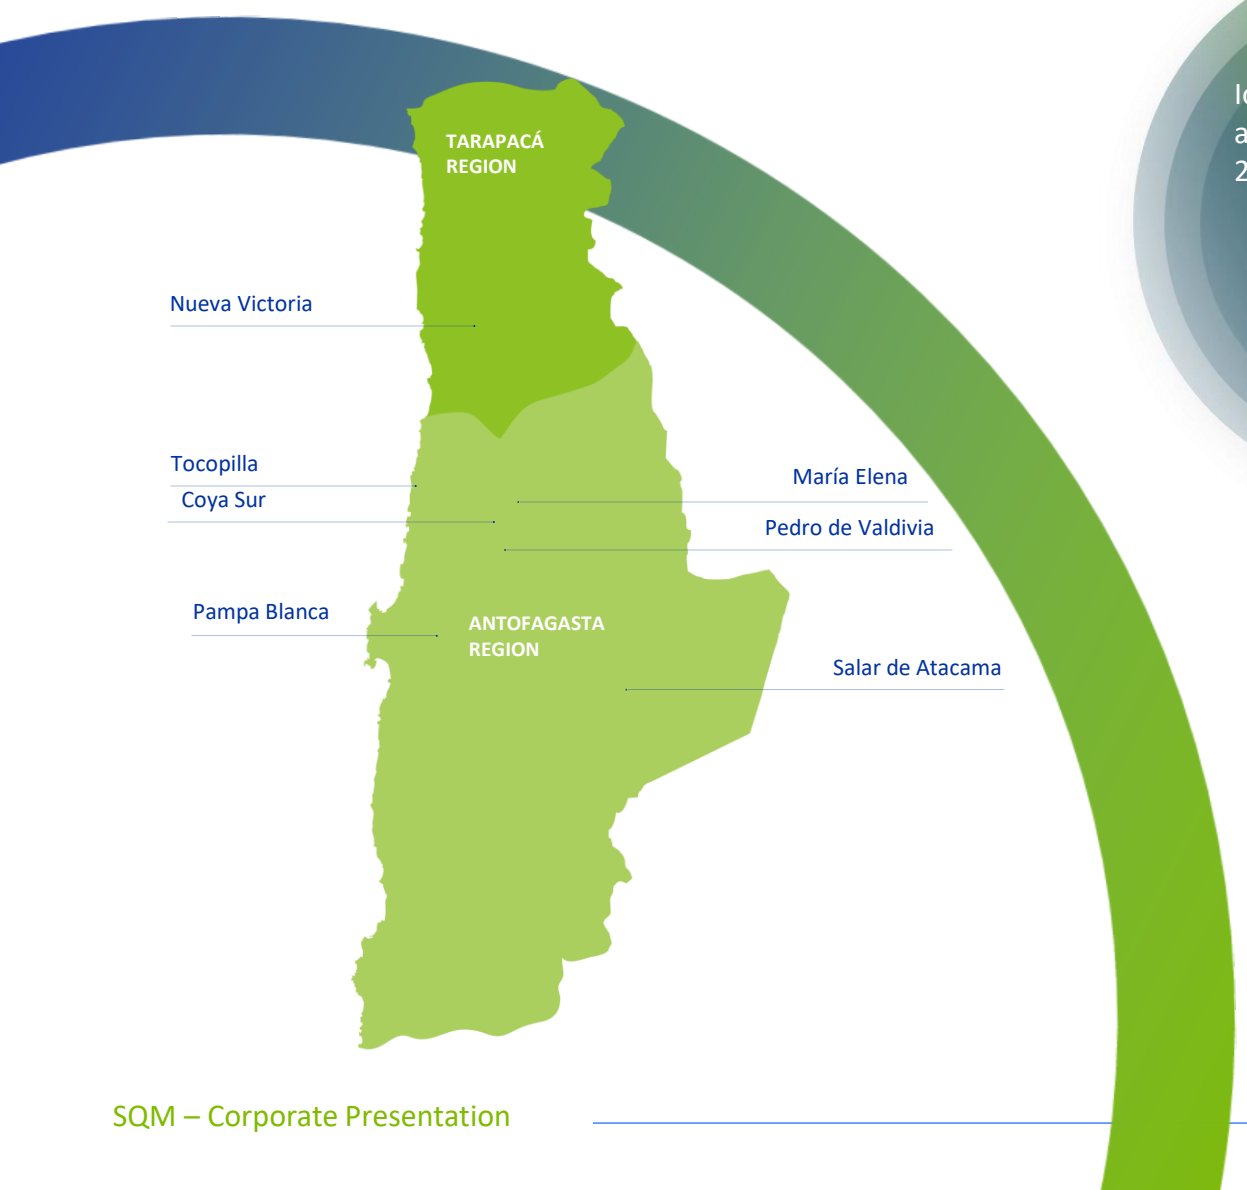

- We expect the market demand to grow approx. 3%-4% in 2026 vs 2025.
- Market demand primarily driven by the x-ray contrast media applications.

SQM Iodine & Derivatives

- For 2026, we expect similar or slightly higher sales volumes than 2025.
- We continue to see prices at a high level due to current balance between supply and demand.
- Investment in expanding production capacity continues with the construction of our Seawater Pipeline, which is currently under commissioning.

[1] Last twelve months ended June 30, 2026.
[2] Market share as of December 31, 2025. Market share percentages have been developed by us using internal and external sources and reflect our best current estimates, which have not been confirmed by independent sources.

Iodine - Plant Nutrition Division: Maintaining Leading Position & Supporting Future Growth

Iodine production of approximately 15,500 MT in 2026 from operations:

- Nueva Victoria
- Pampa Blanca
- Maria Elena
- Pedro de Valdivia

Greenfield project (Pampa Orcoma) adding additional iodine capacity, using seawater, projecting 2,500 MT in the coming years.

Nueva Victoria: 900 l/s seawater pipeline currently under commissioning (project TEA).

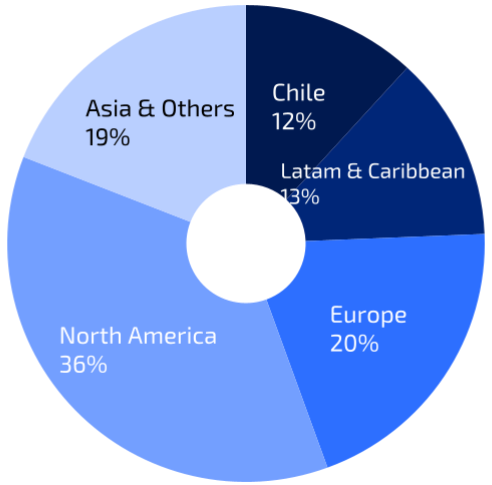

IODINE PLANT NUTRITION | SQM

Specialty Plant Nutrition: Increased Sales Volumes for 2026 Covering Undersupplied Markets

Specialty Plant Nutrition

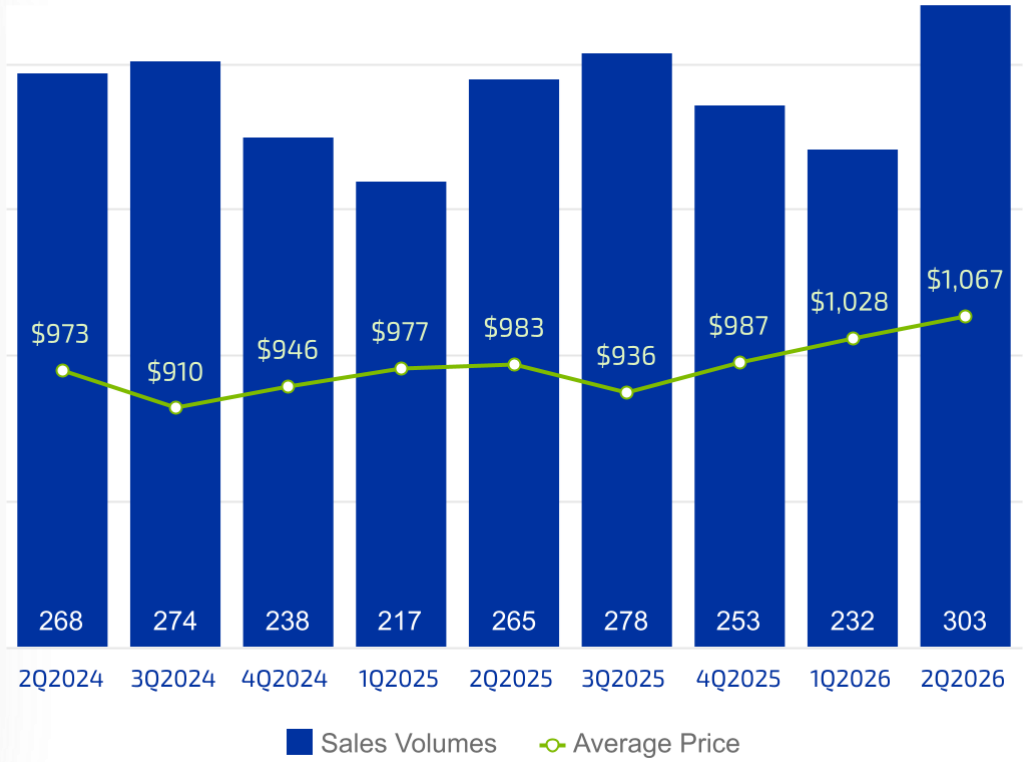

LTM[1] Revenue: US$1,072 million

LTM[1] Gross Profit US$187 million

~39% Market Share[2]

Quarterly Sales Volumes (kMT) & Average Price (US$/MT)

SPN market outlook

- For 2026, due to the ongoing conflict in the middle east, we expect sales volume growth of close to 10% compared to 2025.
- We are strengthening our Specialty Blends and Others business units to strategically allocate supply in the most attractive markets.

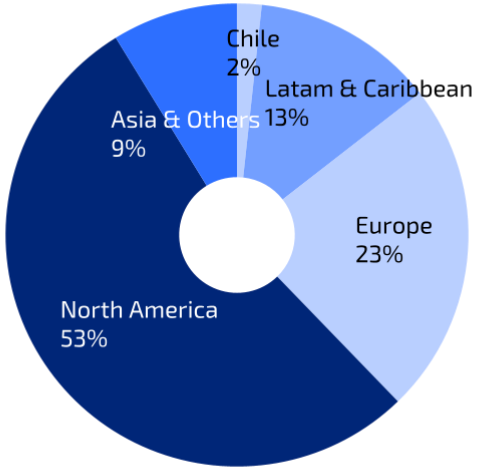

[1] Last twelve months ended June 30, 2026.
[2] Market share as of December 31, 2025. Market share percentages have been developed by us using internal and external sources and reflect our best current estimates, which have not been confirmed by independent sources.

Industrial Chemicals: Stable Outlook

Industrial Chemicals

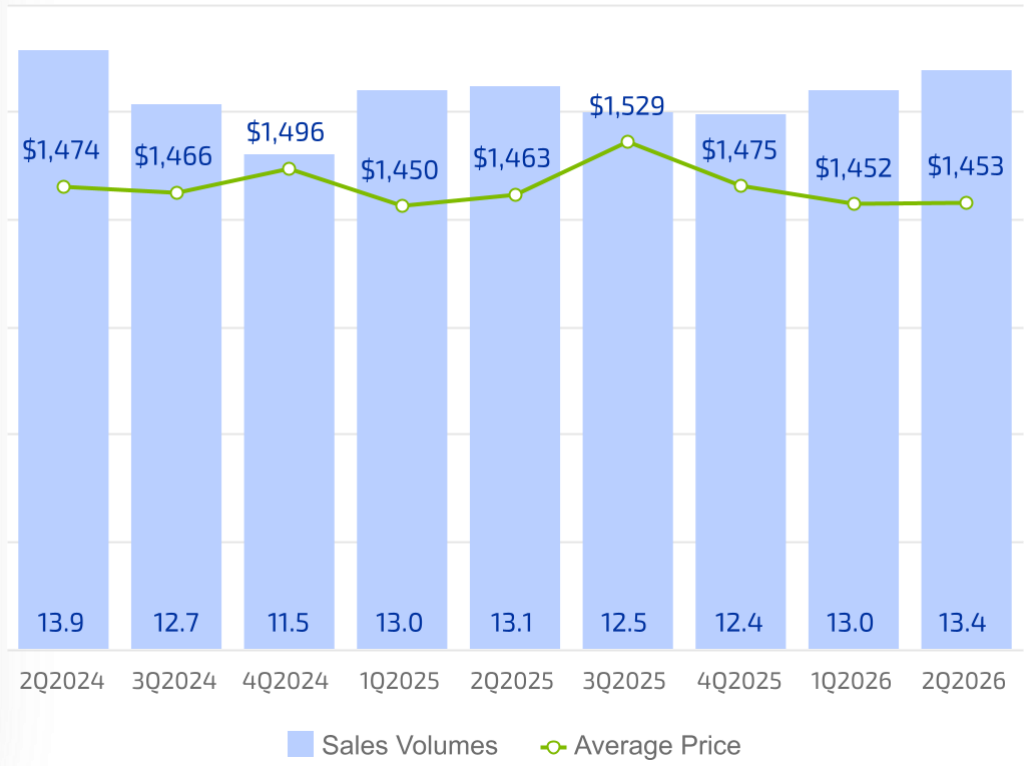

LTM[1] Revenue: US$76 million

LTM[1] Gross Profit US$33 million

~13% Market Share[2]

Quarterly Sales Volumes (kMT) & Average Price (US$/MT)

Global Industrial Chemicals Market

- Industrial potassium nitrate market prices remains relatively stable.

SQM

- For 2026 we expect stable sales volumes in an stable price level environment.

[1] Last twelve months ended June 30, 2026.

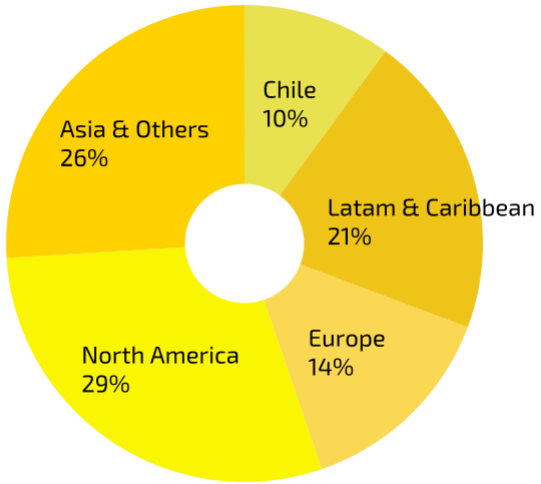

[2]Market share for the as of December 31, 2025. Estimated figure represents share for the industrial potassium nitrate market. Market share percentages have been developed by us using internal and external sources and reflect our best current estimates, which have not been confirmed by independent sources.

Potassium: Demand Recovery and Strong Average Price

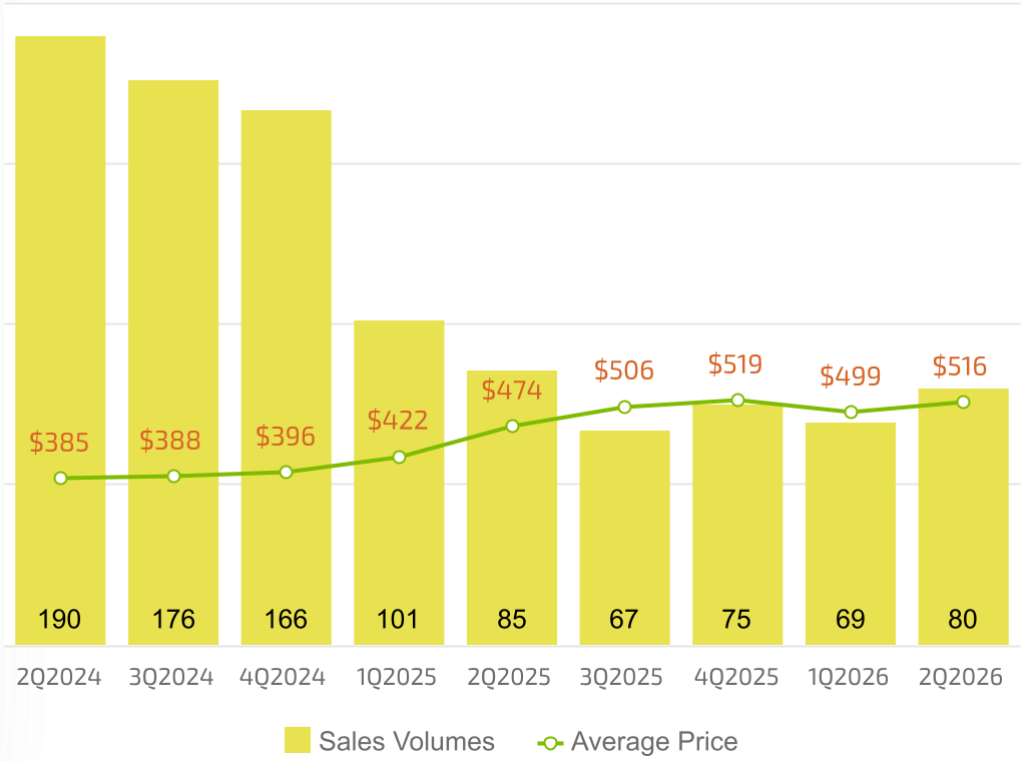

Potassium

LTM[1] Revenue: US$148 million

LTM[1] Gross Profit US$14 million

Quarterly Sales Volumes (kMT) & Average Price (US$/MT)

Global Potash Market

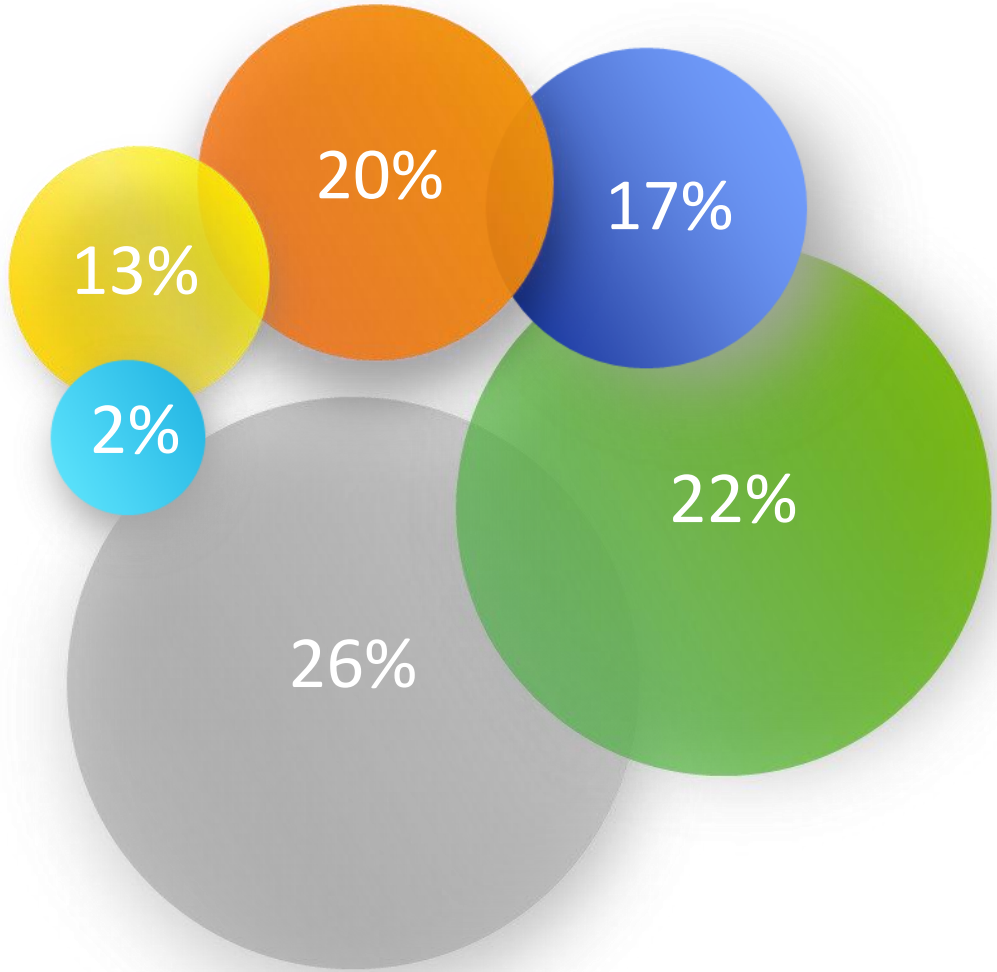

- Healthy market demand and stable pricing environment.

[1] Last twelve months ended June 30, 2026.

Ownership & Dividends: Delivering Robust Growth and Profitability

2025 Dividend Policy of 30%

Ownership Structure[1]

Updated Production Allowance*

Total production quota 2025-2030: 1,658,209 LCE

Total production quota 2031-2060: 9,900,080 LCE

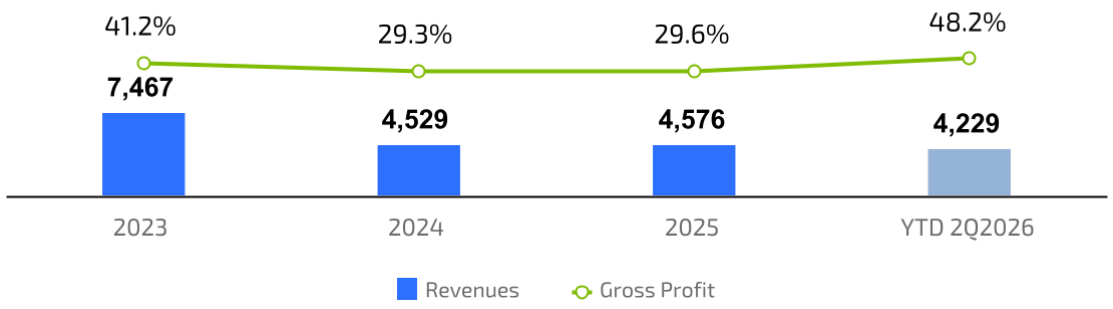

Updated Contribution to the Development & Communities*

- 0.87% of sales minus US$2 million, and additionally 0.3% of sales to the Antofagasta Regional Government;
- 0.2% of sales to the Municipality of San Pedro de Atacama;
- 0.1% of sales to the Municipality of Antofagasta;
- 0.1% of sales to the Municipality of María Elena;
- Fund One, composed of a variable amount between US$10 million and US$15 million per year, determined based on the previous year's average lithium carbonate price (benefits Communities), plus 0.1% of sales with no cap and an additional US$1 million per year;
- Fund Two for US$9 million per year (benefits Communities);
- Intergenerational Fund for US$1 million per year (benefits Communities); and
- Fund Four equivalent to 0.13% of sales with no cap, with a minimum of US$2 million, plus an additional US$500,000 per year (benefits Communities).

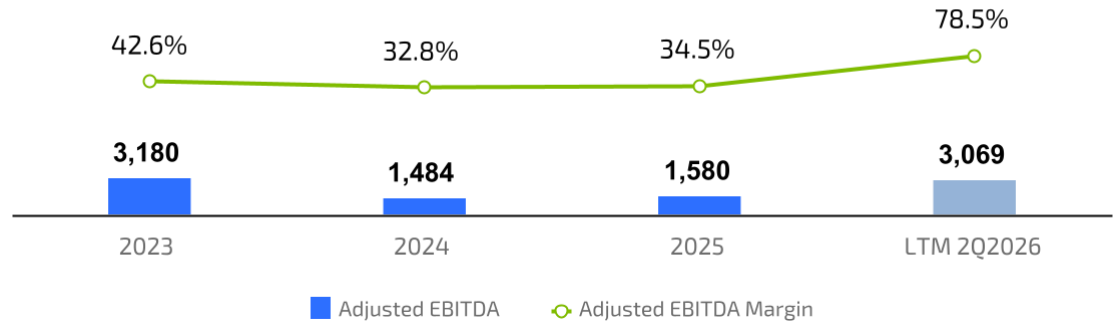

**Updated as of December 27, 2025, as a result of the Agreement with Codelco. For more information, please see Note 2.7 of our Consolidated Financial Statements and at the box "SQM-CODELCO Agreement Information" on our website.*

Extensive Track Record of Strong Financial Metrics and Profitability Supported by Solid Credit Metrics

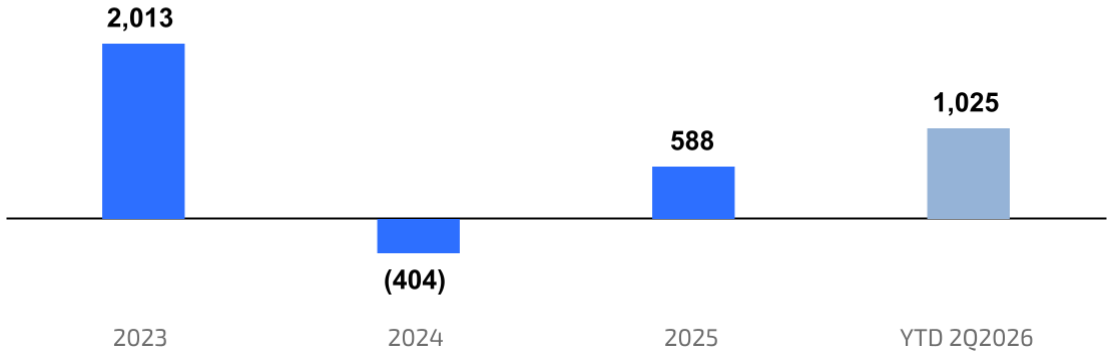

Revenue (US$ MM) & Gross Profit Margin (%) Evolution

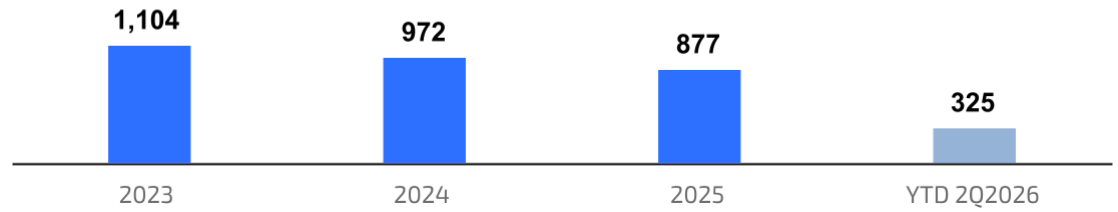

Adjusted EBITDA[1] (US$ MM) & Adjusted EBITDA Margin [2] (%) Evolution

Net Income[3] (US$ MM) Evolution

Capex (US$ MM) Evolution

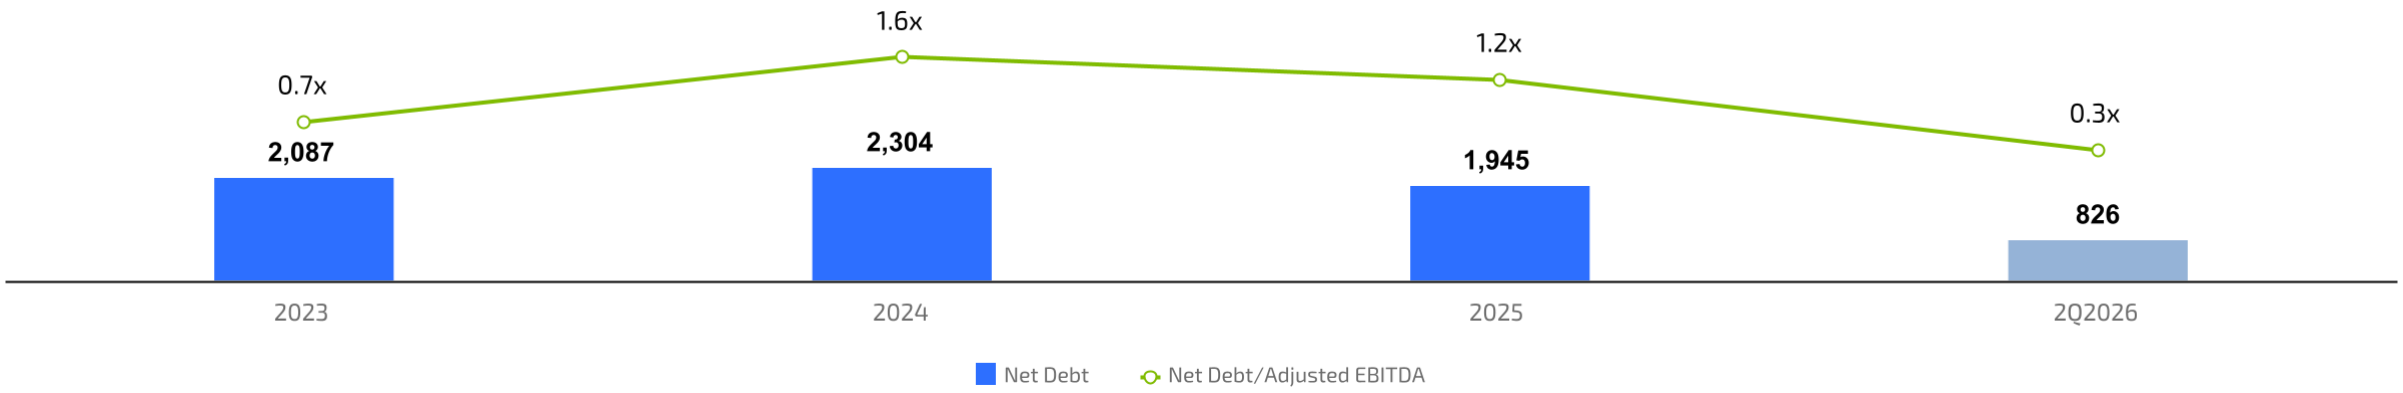

(1) We define 'Adjusted EBITDA' as EBITDA minus other income minus other gains (losses) minus share of profit of associates and joint ventures accounted for using the equity method plus other expenses by function plus net impairment gains on reversal (losses) of financial assets minus finance income minus foreign currency translation differences. In addition, we define 'EBITDA' as profit for the period plus depreciation and amortization expenses plus finance costs plus income tax expense.

(2) Adjusted EBITDA margin = Adjusted EBITDA/revenues.

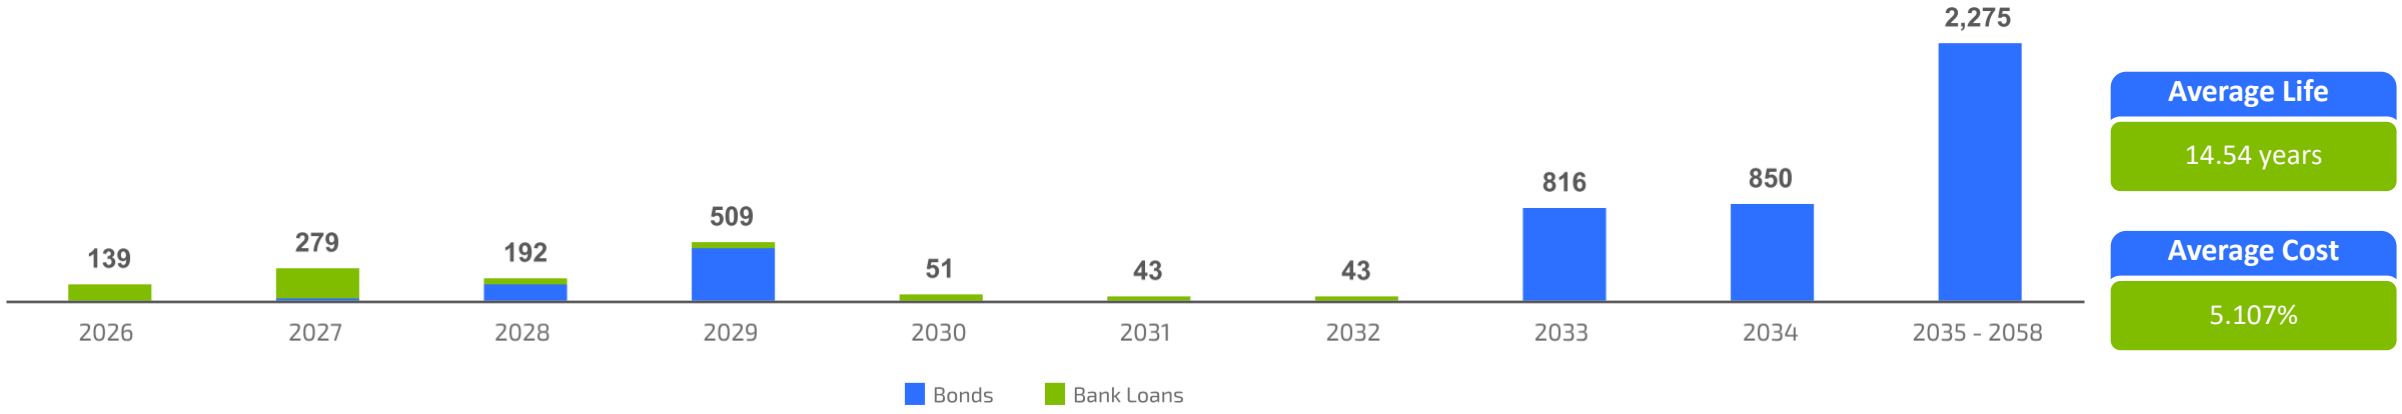

(3) Net income figures have been taken using the Chilean regulator standards (CFM). For more detail, please refer to our financial statements published on our website.

Extensive Track Record of Strong Financial Metrics and Profitability Supported by Solid Credit Metrics

Net Debt[1] (US$ MM) & Net Debt/Adjusted EBITDA (x) Evolution

Debt Maturity Profile (US$ MM)[2] (as of March 31, 2026)

Average Life
14.54 years

Average Cost
5.107%

(1) Net Debt = other current financial liabilities + other non-current financial liabilities - cash-other current financial assets - hedging assets, non-current.
(2) Includes hybrid bonds issued in December 2025 and January 2026 for UF 10 million and USD 600 million, respectively, maturing in 2058 and 2056.
